CLIFFCON JUMBO JACK

Mono Straight Type - CL2075
Stereo Straight Type - CL2075S

Mono 90° Type - CL2076
Stereo 90° Type - CL2076S

Cliffcon Jumbojack offers a solution to the problem of connecting large section cables to conventional 1/4" jack plugs.

There are applications in professional sound installations, where it is necessary to link equipment with low resistance cables. Such cables tend to have large X section conductors, and can have diameters up to 15mm. Connecting such cables to conventional jack plugs is difficult, due to the mismatch of size.

Cliffcon Jumbojack addresses this problem. It allows large Ø cable to be connected to conventional 1/4" jack plug contacts, and has large / secure screw type cable clamps, to keep the cable in place. The cable grommet is useable for Ø8mm. For up to Ø15mm, discard the grommet.
