

RAFIX 16

RAFIX 16 control component range

- Panel cut-out acc. to IEC 60947: \varnothing 16,2 mm / \varnothing 22,3 mm / \square 23,1 mm
- 250 V / 6 A max.
- Degree of protection: IP65 acc. to DIN EN 60529
- Contact blocks: Gold and silver contacts with quick-connect terminals 2.8 x 0.8 mm or screw terminals; Option: PCB plug-in socket
- 3 collar shapes RAFIX 16, 2 collar shapes RAFIX 16F
- The contact blocks snap directly onto the actuators without a coupling element and can be easily removed by turning = cost reducing assembly.
- All products are RoHS compliant.

The specified data apply only if actuators are combined with contact blocks and signal indicators with lamp sockets within the same product range.

CONTROL COMPONENTS

RAFIX 16 - GENERAL INFORMATION

Control Components RAFIX 16

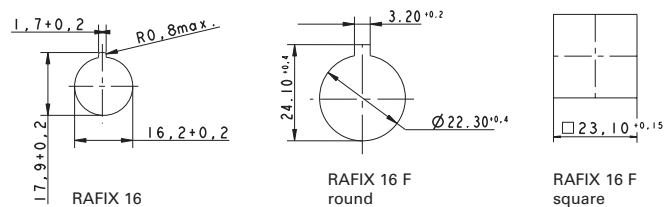

RAFIX 16 is a complete control component series and enables you to design attractive control panels with a minimum of space requirements and at the same time sufficiently large actuating areas.

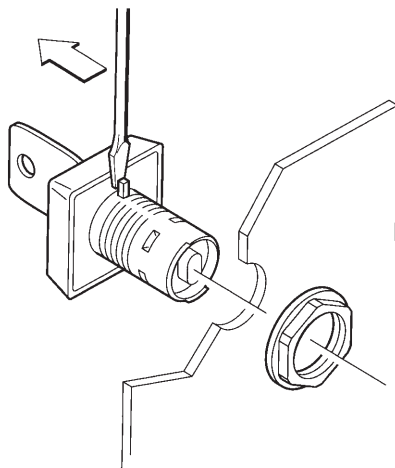

RAFIX 16 F, round

Actuators

Mounting hole according to IEC 60947

- Locating lug (easily removable).
The locating lug can be easily removed using a screwdriver.

- Degree of protection IP65 on frontside of the panel.
This is achieved by a reliable, tried and tested special seal.

RAFIX 16 actuators

- Grid spacing 25 x 25 mm (RAFIX 16 F 30 x 30 mm)
- 7 mm height from front panel (RAFIX 16 F 1.9 mm)
- Three collar shapes, in black
 - Square
 - Round
 - Square, alignable in flush fitting rows, which avoids accumulation of dirt between the collars.

Contact blocks

- Contact blocks standard: for actuators with one-way operation
 - latching function
 - momentary function
- Contact blocks universal: for E-stop pushbuttons and for actuators with two-way operation, e. g. selector or keylock switches
 - momentary function

Contact material

- Silver contacts for mains voltage
- Gold contacts for electronic circuits

Illumination

- LED or wedge base lamp, socket W 2 x 4.6 d

Assembly

- Single-handed cost-effective assembly method
- Panel thickness 0.5 ... 5 mm for RAFIX 16 (RAFIX 16 F 0.5 ... 3.5 mm)
- Fixing with hexagon nut
- Starting torque 1.2 Nm max.

Shock-resistance according to IEC 600 68-2-27

- Shock amplitude: ≤ 50 g
- Shock time: 11 ms
- Shock type: half sinusoidal

Environment conditions

- acc. to IEC 600 68-2, -14, -30, -33 and -78

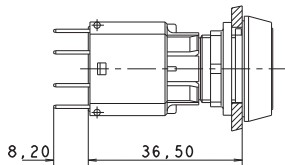

Temperature range

- Operating temperature:
 - non-illuminated: - 25 ... + 70 °C
 - illuminated: - 25 ... + 55 °C (with LED)
- Storage temperature: - 40 ... + 85 °C

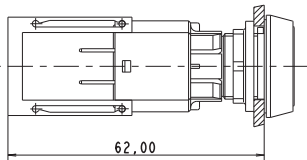

Dimensional Drawings

Actuator with contact block resp. signal indicator with lamp socket

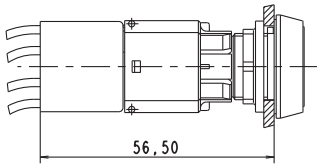

Contact block with quick-connect terminals and RAFIX 16 pushbutton

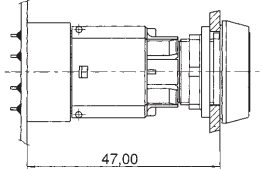

... with protection cage

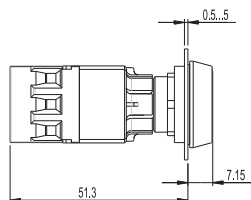

... with multipole connector

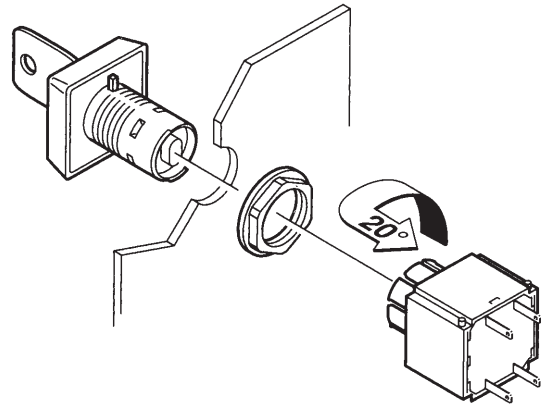

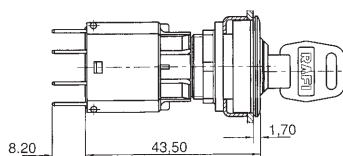

... with PCB plug-in socket

Contact block with screw terminals and RAFIX 16 pushbutton

Contact block with quick-connect terminals and RAFIX 16 F keylock switch

Assembly/Disassembly

Assembly

- Insert the actuator through the panel cut-out from the front.
- If there is no locating indent provided in the cut-out, first remove the locating lug using a screwdriver.
- Screw the hexagon nut onto the actuator or signal indicator from the rear and tighten it using a fixing spanner.
- Click the contact block onto the actuator from the rear.
- Install protection against accidental contact, if applicable.
- Install PCB if applicable.

With quick-connect terminals

Contact cables with quick connector

With screw terminals

Push in cables and fix by screwing

Disassembly

- Turn the contact block by approx. 20° to the left or right – the latches open.
- Pull the contact block off towards the rear.
- To dismount a PCB, pull the PCB with the soldered plug-in sockets off the mounted contact blocks.

CONTROL COMPONENTS

RAFIX 16 - GENERAL INFORMATION

Legending

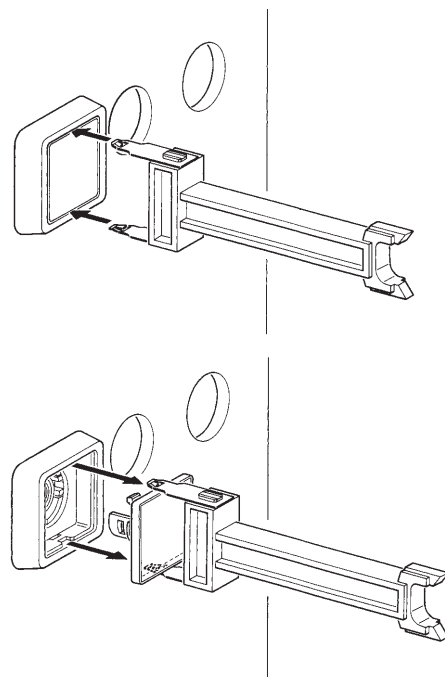

- **Label holders**
All elements can be labelled using a **separate label holder**. The label holder is mounted together with the actuator/signal indicator.
- **Non-illuminated pushbuttons and mushroom-headed pushbuttons**
Can be **printed** or laser engraved.
- **Legend inserts**
All illuminated pushbuttons and the majority of the signal indicators can be **labelled by means of legend inserts**. The legend inserts are fitted between actuator body and lens and can be easily changed.

Alternatively, the plungers can be printed directly. The mounted lens protects the printing against abrasion.

RAFI also provides custom legending. Price and delivery on request.

Lamp replacement from front

Use the disassembly tool to grasp the actuator body and pull it towards the front with the lens.
Alternatively, you can use a screwdriver in place of the disassembly tool. In this case, insert the screwdriver between actuator body and collar and carefully raise the actuator body.
Replace the lamp using a lamp extractor or a suitable insulation sleeve.

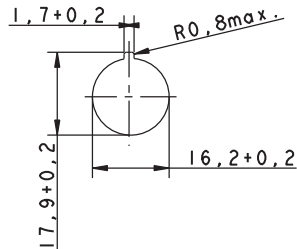

Lamp replacement from front

Technical Data

→ General information

Actuator	see order block
Color of lens	see order block
Form of collar	see order block

→ Dimensions

Collar dimensions	see order block
Overall height	see order block
Mounting depth	44.7 mm
Mounting hole	16.2 mm
Key grid	25 x 25 mm

→ Mechanical design

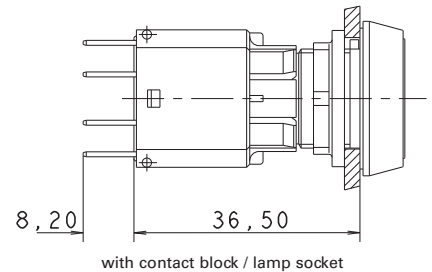

Mounting	ring nut, max. 1.2 Nm
Contact function	according to contact block
Contact arrangement	according to contact block
Illumination	see order block

→ Mechanical characteristics

Operating travel	3 mm
Robustness max.	100 N

→ Other specifications

Operating life (operations)	2,000,000
Degree of protection from front side	IP65 (DIN EN 60529)
Operation temperature min.	-25 °C
Ambient temp. operating max. without lamp /LED	+70 °C
Ambient temp. operating max. with lamp /LED	+55 °C
Storage temperature min.	-40 °C
Storage temperature max.	+85 °C
Environmental resistance	acc. to IEC 60068-2-14, -30, -33 and -78
ROHS compliant	yes
REACH compliant	yes

with contact block / lamp socket

Approvals

IEC 61058, 25T70
without lamp,
25T55 with lamp

C22.2 No.
14-M91

CONTROL COMPONENTS

RAFIX 16 F - GENERAL INFORMATION

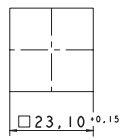

RAFIX 16 is a complete control component series with low profile design.

Actuators RAFIX 16 F

- Panel cut-out \varnothing 22.3 mm to IEC 60 947-5-1
- Panel cut-out \square 23.1 mm

RAFIX 16 F round

RAFIX 16 F square

- Locating lug.
The locating lug can be easily removed using a screwdriver.
- Degree of protection IP65 on panel
- Grid spacing 30 x 30 mm, round lens
- Grid spacing 25 x 25 mm, square lens
- Low profile, only 1.7 mm in front of the front panel
- Thickness of front panel 0.5 ... 3.5 mm
- Fixing with hexagon nut
- Fixing torque 1.2 Nm max.

Contact blocks RAFIX 16

- Contact block standard: for actuators with one-way operation
 - latching function
 - momentary function
- Contact block universal: for E-stop pushbuttons and for actuators with two-way operation, e. g. selector or keylock switches
 - momentary function

Contact material

- Silver contacts for mains voltage
- Gold contacts for electronic circuits

Illumination

- LED or wedge base lamp with socket W 2 x 4.6 d

Shock-resistance according to IEC 600 68-2-27

- Shock amplitude: ≤ 50 g
- Shock time: 11 ms
- Shock type: half sinusoidal

Environment conditions

- acc. to IEC 600 68-2, -14, -30, -33 and -78

Temperature range

- Operating temperature:
 - non-illuminated: - 25 ... + 70 °C
 - illuminated: - 25 ... + 55 °C
- Storage temperature: - 40 ... + 85 °C

RAFIX 16 F Pushbuttons

→ RAFIX 16 F pushbuttons provide with less than 2 mm height above the front-panel an extremely low-profile design. The versions with square collars can be placed side by side so that a completely closed keyboard survey is possible.

Standard contact blocks have one common contact chamber and one actuator plunger.

Contact blocks with „latching“ contact function are used as switches. When combined with pushbuttons and mushroom actuators, the switching position is visible, releasing is effected by actuating again.

→ Contact arrangement	Contact function	Lamp socket	Rated insulation voltage U_i, AC	Ohmic rated current I_R	Order no.
2 NC + 1 NO	momentary	-	250 V	6 A	1.20.123.921/0000

Function

The contact block with coupling monitoring detects a accidental separation of the contact block from of the front-side actuator by a contact.

Universal contact blocks have two separate contact chambers and two actuator plungers. This makes it possible to switch two different polarities. The NC contacts are positive opening contacts to IEC 60947-5-1.

Accessoires:

Female quick-connect terminal DIN 46340-B 2.8-1-MS: see page 2 - 76, 2 - 262, 5 - 27
