FMC INTERCONNECT BOARD CYUSB3ACC-002

1. Connect the EZ-USB® FX3™ Development Kit (CYUSB3KIT-001) to the Xilinx® FPGA board using the FMC interconnect board (CYUSB3ACC-002), as shown below

2. Learn to use FX3 in applications involving Xilinx FPGA with the application note **AN65974 - Designing with the EZ-USB FX3 Slave FIFO Interface** available at <http://www.cypress.com/go/AN65974>

For the latest information about this interconnect board and to download the hardware files, visit www.cypress.com/go/CYUSB3ACC-002

For the latest information about EZ-USB FX3 Development Kit (CYUSB3KIT-001) and to download the kit software and hardware files, visit www.cypress.com/go/CYUSB3KIT-001
