

Important notes about Classic Panel Mount Indicator Catalog Pages

SCROLL DOWN TO VIEW CATALOG PAGE

This catalog page is out-of-print and is used with the understanding that the information shown could be out-of-date. In many cases, part numbers shown on this page are discontinued. Most notably, many “Complete Assembly” parts, which consist of a cap and a base, can no longer be ordered by the 14-digit ordering code. To obtain these parts, please order the cap and base part numbers separately. This process provides the components contained with the original “Complete Assembly” part number.

All Dialight Classic Panel Mount Indicators need a leading 3-digit numerical series. In some cases, this catalog will show a 2-digit series. In this case, please add a leading zero. For example, 81-0211-300 becomes 081-0211-300.

Part numbers listed on Dialight catalog pages designate parts with Red lenses. For ordering lens colors other than red, consult the chart below. In most cases, the color is dictated by the 7th digit. For example, 095-0932-003 for a green cap.

Lens Colors	
1 - Red	5 - White
2 - Green	6 - Light Yellow
3 - Yellow	7 - Clear
4 - Blue

OIL TIGHT Miniature Neon Indicators

FOR MOUNTING IN 11/16" CLEARANCE HOLE

When connecting a Neon Light to a circuit having one side grounded, always connect the hot side of the circuit to the terminal marked + (center contact).

T-3 1/4
B1A (NE-51)
B2A (NE-51H)
MINIATURE BAYONET BASE

See lamp ratings
on page L.

Recognized under the component
program of Underwriters'
Laboratories Inc.

MATERIALS AND FINISHES

- **Mounting Bushing:** Brass, white nickel finish. Optional, black nickel finish.
- **Lens Holder:** Brass, satin chrome finish. Optional, polished chrome or black nickel finish.
- **Internal-tooth-Lockwasher:** Phosphor bronze, white nickel finish.
- **Mounting Nut:** Brass, white nickel finish.

How to designate the three digit part number suffix (-XXX)

("Resistor" designations are given for B1A (NE-51) and B2A (NE-51H) Lamps.

FINISH	RESISTOR	HARDWARE
-2 black nickel	1-22K	3-water-tight, oil tight on the face of the panel
-3 polished chrome	3-33K	
-4 satin chrome	4-56K	
	6-68K	
	7-100K	

Note: The part numbers given in this catalog indicate standard indicator lights. The above table provides the standard and optional designations for Finish and Resistor where appropriate.
