

**Important notes about Classic Panel Mount Indicator Catalog Pages**

**SCROLL DOWN TO VIEW CATALOG PAGE**

This catalog page is out-of-print and is used with the understanding that the information shown could be out-of-date. In many cases, part numbers shown on this page are discontinued. Most notably, many “Complete Assembly” parts, which consist of a cap and a base, can no longer be ordered by the 14-digit ordering code. To obtain these parts, please order the cap and base part numbers separately. This process provides the components contained with the original “Complete Assembly” part number.

All Dialight Classic Panel Mount Indicators need a leading 3-digit numerical series. In some cases, this catalog will show a 2-digit series. In this case, please add a leading zero. For example, 81-0211-300 becomes 081-0211-300.

Part numbers listed on Dialight catalog pages designate parts with Red lenses. For ordering lens colors other than red, consult the chart below. In most cases, the color is dictated by the 7<sup>th</sup> digit. For example, 095-0932-003 for a green cap.

Lens Colors	
1 - Red	5 - White
2 - Green	6 - Light Yellow
3 - Yellow	7 - Clear
4 - Blue

MEET OR EXCEED ENVIRONMENTAL AND OPERATIONAL REQUIREMENTS  
OF MIL-L-7806 AND MIL-L-3661

An opening in the side of the metal lamp holder emits light on the panel to illuminate dials or controls. The usual opening is 1/4" X 5/32". The 113 series has a molded colored filter to provide a colored light †.

How to designate the Three Digit Part Number Suffix (-XXX)  
(4 Series only)

Finish	Resistor	Hardware
1—white nickel	0—none	1 — brass
2—black nickel		3 — water tight on face of panel (113 Series only)
3—polished chrome		7 — insulated mounting*

Example: 4-1930-2900-101 (white nickel finish, no resistor, brass hardware).

† For 2 terminal requirements, assembly is supplied with 2 insulating washers and a lug. Mounting hole becomes 9/16".
