

One piece, self locking cable ties are molded of tough, corrosion resistant and electrically insulating nylon 6/6. Smooth, rounded design prevents damage to insulation and components. Wire tie features a unique, double bend, tapered tip for fast, easy insertion and assembly. Ties can be installed by hand or with available installation tools. Ultra-violet stabilized black nylon ties are available upon request.

SPECIFICATIONS

Tested:	73°F / 23°C, 1% Moisture Content
Standard Tie:	6 3/4"
Length:	6 3/4" (171mm)
Width:	.195" (4.9mm)
Maximum Bundle Size:	1.1/2" (38.1mm)
Tensile Strength:	30lb. (13.6kg)
