Example of Use for Plastic Dust Cap F1042-...AH

Einsatzbeispiel für Kunststoff-Staubkappe F1042-...AH

The antistatic plastic dust cap **F1042-...AH** can be used with connectors which are mounted in a hood (Recesses have been formed in the plastic cap to match the geometry of the hoods).

The standard plastic dust cap is suitable for mounting on hoods with socket connectors. Die antistatische Kunststoff-Staubkappe **F1042-...AH** kann auf Steckverbindergehäuse, die in einer Haube montiert sind, aufgesetzt werden (Es sind Aussparungen in der Kunststoffkappe entsprechend der Haubengeometrie eingebaut). Für die Montage an Hauben mit Buchsensteckverbindern ist die Standard Kunststoff-Staubkappe verwendbar.
