

PRODUCT BRIEF
 Intel® Centrino® Advanced-N 6235
 802.11 a/g/n, 2x2, dual-band Wi-Fi + Bluetooth 4.0

Intel® Centrino® Advanced-N 6235

Premium Wireless Performance with Exceptional Features

The Intel® Centrino® Advanced-N 6235 delivers premium Wi-Fi performance with exceptional Intel-only features for an ultra mobile experience. This dual-stream (2x2), dual-band, Wi-Fi plus Bluetooth 4.0* product with Wi-Fi Direct* combines faster speeds (up to 300 Mbps¹), greater range and more reliability with innovative Intel features, such as Intel® Smart Connect Technology, Intel® Wireless Display, Intel® My WiFi Dashboard and Intel® vPro™ Technology.

Recommended For

Business or home, data intensive apps, streaming HD video, gaming, and network connectivity in crowded, heavy traffic and large area Wi-Fi environments.

Next-Gen Wireless Connectivity

Dual-Stream, Dual Band
 802.11 a/g/n 2x2 and 2.4/5 GHz

Delivers up to 300 Mbps speed with dual streams (2x2) for better performance and connectivity in more places, through more walls, doors and floors. Use the power of 5 GHz to boost speeds and reduce congestion compared to older 2.4 GHz networks and devices.

Bluetooth 4.0* (Low Energy)
 Dual mode Bluetooth

Connects to Bluetooth enabled devices such as a headset, keyboard, mouse and more, including Bluetooth low energy devices.

Wi-Fi Direct*
 New game-changing technology certified by the Wi-Fi Alliance for direct device-to-device Wi-Fi connectivity

Enables Wi-Fi enabled devices to connect directly without the need for a WLAN or hotspot. With the Intel® My WiFi Dashboard you can chat, transfer files, create a personal hotspot, and sync over Wi-Fi Direct.*

Energy Efficient²
 Optimized power modes during periods of inactivity

Saves battery life for greater mobility and convenience.

Available in Low Profile Version
 For the thinnest Ultrabook™ devices

Provides the same performance and reliability of the standard version in a low profile version for more aggressive system designs.

Ultra Mobile Experience

Intel® Wireless Display³
 Share your personal and online content on a big HD screen (up to 1080p) with a simple wireless connection

Experience your favorite movies, videos, photos, online shows and more in full HD on your TV with great image clarity and sound. With a PC featuring Intel® Wireless Display and powered by an Intel® Core processor, share content from your hard disk, network or anywhere a browser can take you to a big screen.

Intel® Smart Connect Technology⁴
 Instant Internet and always updated mobility

Automatically updates important content and can identify access points while asleep for quicker Internet access on resume.

Intel® My WiFi Dashboard⁵
 Visually intuitive app for managing Wi-Fi Direct* connectivity and services

Use the ultimate portability of Wi-Fi Direct with the Intel® My WiFi Dashboard on your Ultrabook™, PC or other devices. Whether you're connected to a Wi-Fi network, public hotspot or no network at all - connect, communicate and collaborate with others in your vicinity. No extra hardware or cloud-based service needed. No fumbling for USB flash drives or complicated network setup.

Business-Class Management

Intel® vPro™ Technology⁶
 Supports Intel's hardware-based security and management features built into Intel® Core™ vPro™ processors and chipsets

Manage PCs virtually anywhere, anytime while reducing deployment costs, improving security and ROI.

Intel® Active Management Technology⁷
 Supports Intel asset management, remote system diagnostics, network protection, and network security technologies

Provides IT managers the capability to remotely discover, heal, and protect wireless clients regardless of the functional state of the operating system resulting in reduced on-site support costs.

Intel® PROSet/Wireless Enterprise Software⁸
 Business-class WLAN client software with must-have IT features

Combines simplified user interface design with advanced IT tools that improve security, reduce complexity and save IT time and money. Streamlines client deployments and allows remote management of wireless settings and profiles by IT managers.

Intel® Centrino® Advanced-N 6235 Technical Specifications

General

Dimensions (H x W x D)	Standard: 26.80 mm x 30.00 mm x 2.4 mm Max (Top Side) / 1.35 mm Max (Bottom Side) Low profile: 26.80 mm x 30.00 mm x 1.5 mm Max (Top Side) / 0.6 mm Max (Bottom Side)
Weight	3.7g
Diversity	On-board diversity support for systems designed with two antennas
Radio ON/OFF Control	Supported in both hardware and software
Connector interface	Half Mini Card form factor, based on PCIe electrical interface
LED Output	On/Off
Operating Temperature (Adapter Shield)	0° to +80°C
Humidity Non-Operating	50% to 90% RH non-condensing (at temperatures of 25°C to 35°C)
Operating Systems	Microsoft Windows 7*, Microsoft Windows 8*, Linux*
Wi-Fi Alliance	Wi-Fi CERTIFIED* for 802.11a, 802.11b, 802.11g, 802.11n, WMM*, WPA*, WPA2*, and WPS Wi-Fi Direct for peer to peer device connections
Microsoft WHQL	Yes
IEEE WLAN Standard	IEEE 802.11a/b/g/n, 802.11d, 802.11e, 802.11i, 802.11h
Architecture	Infrastructure and SoftAP; Supports simultaneous Client and SoftAP modes in 2.4 GHz or 5 GHz
Roaming ⁹	Supports seamless roaming between respective access points (802.11b, 802.11g, 802.11a/b/g, and 802.11a/b/g/n)
Bluetooth*	Dual Mode Bluetooth* 2.1, 2.1+EDR, 3.0, 3.0+HS, 4.0 (BLE)

Security¹⁰

Authentication	WPA and WPA2, 802.1X (EAP-TLS, TTLS, PEAP, LEAP, EAP-FAST), EAP-SIM, EAP-AKA
Authentication Protocols	PAP, CHAP, TLS, GTC, MS-CHAP*, MS-CHAPv2
Encryption	64-bit and 128-bit WEP, AES-CCMP, TKIP
Wi-Fi Direct* Encryption and Authentication	WPA2, AES-CCMP
Product Safety	UL, C-UL, CB (IEC 60950-1)

Compliance

Retail (Credit Card Processing)	PCI, CISP
Government	FIPS ¹¹ , FISMA

Product Name	Model Number	Version
Intel® Centrino® Advanced-N 6235	6235ANHMW	802.11a/g/n, Bluetooth 4.0
	6235ANHMWLPG	802.11a/g/n, Bluetooth 4.0, Low Profile

For more information on Intel® Centrino® wireless products, visit intel.com/go/wireless

¹ Based on the theoretical maximum bandwidth enabled by 2x2 802.11n implementations with 2 spatial streams. Actual wireless throughput and/or range will vary depending on your specific operating system, hardware and software configurations. Check with your PC manufacturer for details.

² References to Wi-Fi module power consumption comparisons versus competing 802.11n WLAN solutions. Actual platform battery life savings will vary depending on your specific operating system, hardware and software configurations. Check with your PC manufacturer for details.

³ Requires an Intel® Wireless Display enabled PC, compatible adapter, and TV. 1080p and Blu-Ray* or other protected content playback only available on 2nd generation Intel® Core™ processor-based PCs with built-in visuals enabled. Consult your PC manufacturer. For more information, see www.intel.com/go/widi.

⁴ Intel® Smart Connect Technology requires a select Intel® processor, Intel® software and BIOS update, Intel® Wireless adaptor, and Internet connectivity. Solid state memory or drive equivalent may be required. Depending on system configuration, your results may vary. Contact your system manufacturer for more information.

⁵ Intel® My WiFi Dashboard is an optional feature and requires additional software and an Intel® Centrino® wireless adapter. Wi-Fi devices must be certified by the Wi-Fi Alliance for 802.11a/g/n and Wi-Fi Direct* in order to connect. See www.intel.com/network/connectivity/products/wireless/mywifi.htm for more details.

⁶ Intel® vPro™ Technology is sophisticated and requires setup and activation. Availability of features and results will depend upon the setup and configuration of your hardware, software and IT environment. To learn more visit: <http://www.intel.com/technology/vpro>

⁷ Requires activation and a system with a corporate network connection, an Intel® AMT-enabled chipset, network hardware and software. For notebooks, Intel AMT may be unavailable or limited over a host OS-based VPN, when connecting wirelessly, on battery power, sleeping, hibernating or powered off. Results dependent upon hardware, setup & configuration. For more information, visit <http://www.intel.com/technology/platform-technology/intel-amt>

⁸ Intel® PROSet/Wireless Software may not be supported by your PC manufacturer. Check with your PC manufacturer for details on availability.

⁹ Roaming is supported only within each respective band and mode of access points.

¹⁰ Some security solutions may not be supported by your PC's operating system and/or by your PC manufacturer. Check with your PC manufacturer for details on availability.

¹¹ Microsoft Windows 7 only.

Software and workloads used in performance tests may have been optimized for performance only on Intel microprocessors. Performance tests, such as SYSmark and MobileMark, are measured using specific computer systems, components, software, operations and functions. Any change to any of those factors may cause the results to vary. You should consult other information and performance tests to assist you in fully evaluating your contemplated purchases, including the performance of that product when combined with other products.
