

Intel® Centrino® Advanced-N 6205

Premium Wireless Performance with Exceptional Intel Features

Intel® Centrino® Advanced-N 6205 delivers premium Wi-Fi performance with exceptional Intel-only features for an ultra mobile experience. This dual-stream (2x2), dual-band, 802.11a/g/n Wi-Fi product with Wi-Fi Direct* combines faster speeds (up to 300 Mbps¹), greater range and more reliability with Intel features, such as Intel® Smart Connect Technology, Intel® Wireless Display, Intel® My WiFi Dashboard and Intel® vPro™ Technology.

Recommended For

Business or home, data intensive apps, streaming HD video, gaming, and network connectivity in crowded, heavy traffic and large area Wi-Fi environments.

Next-Gen Wireless Connectivity		
Dual Stream, Dual Band 802.11a/g/n 2x2 and 2.4/5 GHz	Delivers up to 300 Mbps speed with multiple streams for best speed and connections in more places, through more walls, doors and floors. Use the power of 5 GHz to boost speeds and reduce congestion compared to older 2.4 GHz networks and devices.	
Wi-Fi Direct* New game-changing technology certified by the Wi-Fi Alliance for direct device-to-device Wi-Fi connectivity	Enables Wi-Fi enabled devices to connect directly without the need for a WLAN or hotspot. With the Intel® My WiFi Dashboard you can chat, transfer files, create a personal hotspot, and sync over Wi-Fi Direct.*	
Energy Efficient ² Optimized power modes during periods of inactivity	Saves battery life for greater mobility and convenience.	
Extended Availability ³ and Industrial Versions For embedded and machine-to-machine (M2M) applications	Extended availability and industrial temperature products meet the needs of industrial, communications, M2M, digital signage, retail and point-of-sale applications.	
Ultra Mobile Experience		
Intel* Wireless Display ⁴ Share your personal and online content on a big HD screen (up to 1080p) with a simple wireless connection	Experience your favorite movies, videos, photos, online shows and more in full HD on your TV with great image clarity and sound. With a PC featuring Intel® Wireless Display and powered by an Intel® Core processor, share content from your hard disk, network or anywhere a browser can take you to a big screen.	
Intel® Smart Connect Technology ⁵ Instant Internet and always updated mobility	Automatically updates important content and can identify access points while asleep for quicker Internet access on resume.	
Intel® My WiFi Dashboard ⁶ Visually intuitive app for managing Wi-Fi Direct* connectivity and services	Use the ultimate portability of Wi-Fi Direct with the Intel® My WiFi Dashboard on your Ultrabook™, PC or other devices. Whether you're connected to a Wi-Fi network, public hotspot or no network at all – connect, communicate and collaborate with others in your vicinity. No extra hardware or cloud-based service. No fumbling for USB flash drives or complicated network setup.	
Business-Class Management		
Intel® vPro™ Technology Supports Intel's hardware-based security and management features built into Intel® Core™ vPro™ processors and chipsets	Manage PCs virtually anywhere, anytime while reducing deployment costs, improving security and ROI.	
Intel* Active Management Technology ⁸ Supports Intel asset management, remote system diagnostics, network protection, and network security technologies	Provides IT managers the capability to remotely discover, heal, and protect wireless clients regardless of the functional state of the operating system resulting in reduced on-site support costs.	
Intel* PROSet/Wireless Enterprise Software ⁹ Business-class WLAN client software with must-have IT features	Combines simplified user interface design with advanced IT tools that improve security, reduce complexity and save IT time and money. Streamlines client deployments and allows remote management of wireless settings and profiles by IT	

managers.

³ The extended availability version (commercial temperature) is the standard commercial Intel® Cortino® Advanced-N 6205 product with extended product availability.

⁴ Requires an Intel® Wireless Display enabled PC, compatible adapter, and TV. 1080p and Blu-Ray* or other protected content playback only available on 2nd generation Intel® Core™ processor-based PCs with built-in visuals enabled. Consult your PC manufacturer. For more information, see www.intel.com/qo/widi.

⁵ Intel® Smart Connect Technology requires a select Intel® processor, Intel® software and BIOS update, Intel® Wireless adaptor, and Internet connectivity. Solid state memory or drive equivalent may be required. Depending on system configuration, your results may vary. Contact your system manufacturer for more information.

⁶ Intel® My WiFi Dashboard is an optional feature and requires sadditional software and an Intel® Centrino® wireless adapter. Wi-Fi devices must be certified by the WiFi Alliance for 802.11a/g/n and Wi-Fi Direct* in order to connect. See www.intel.com/network/connectivity/products/wireless/mywifi.htm for more details.

⁷ Intel® Pyro™ Technology is sophisticated and requires setup and activation. Availability of features and results will depend upon the setup and configuration of your hardware, software and IT environment. To learn more visit: https://www.intel.com/technology/ypro

⁸ Requires activation and a system with a corporate network connection, an Intel® AMT-enabled chipset, network hardware and software. For notebooks, Intel® AMT may be unavailable or limited over a host OS-
