## **Series WR**

# General Specifications

#### **Electrical Capacity (Resistive Load)**

Power Level: 15A @ 125/250V AC or 15A @ 30V DC

#### Other Ratings

Kunngs	
Contact Resistance:	10 milliohms maximum for solder lug, screw & quick connect terminal models
	30 milliohms maximum for wire lead terminal models
Insulation Resistance:	200 megohms minimum @ 500V DC
Dielectric Strength:	1,250V AC minimum between contacts for 1 minute minimum
•	3,750V AC minimum between contacts & case for 1 minute minimum
Mechanical Life:	30,000 operations minimum
Electrical Life:	15,000 operations minimum for circuit 11 and 12 models
	10,000 operations minimum for circuit 13, 15, 18, 19 models
Angle of Throw:	24°
•	

#### Materials & Finishes

Rocker:	Phenylene oxide
Outer Housing:	Polyamide (UL94V-0)
Inner Case:	Melamine (UL94V-0)
Cover for Wire Lead Models:	Glass fiber reinforced polyamide (UL94V-0)
Flange Gasket:	Nitrile butadiene rubber
Movable Contactor:	Copper with silver plating
Movable Contacts:	Silver alloy plus copper with silver plating
Stationary Contacts:	Silver alloy plus copper with silver plating
Terminals:	Brass with tin plating
Wire Lead Covers:	Heat resistant polyvinyl chloride (Leads are AWG 14)

#### vironmontal Data

Operating Temp Range: Humidity: Vibration: Shock: Front Panel Seal: Behind Panel Seal:	-25°C through +85°C (-13°F through +185°F) 90 ~ 95% humidity for 96 hours @ 40°C (104°F) 10 ~ 55Hz with peak-to-peak amplitude of 1.5mm traversing the frequency range & returning in 1 minute; 3 right angled directions for 2 hours 50G (490m/s <sup>2</sup> ) acceleration (tested in 6 right angled directions, with 5 shocks in each direction) IP67 of IEC60529, dust tight & water protected during temporary immersion for all models IP60 of IEC60529, dust tight but not water protected for solder lug, screw & quick connect models IP67 of IEC60529, dust tight & water protected during temporary immersion for wire lead models	
Installation Soldering Time & Temp: Cleaning:	Manual Soldering: See Profile A in Supplement section. Hand clean locally using alcohol based solution.	
Standards & Certifications		
Flammability Standards: UL:	UL94V-0 outer housing, inner case, & outer cover on wire lead models <b>File No. E44145 - Recognized only when ordered with marking on switch.</b> Add "/U" or "/CUL" to end of part number to order UL recognized switch. All models approved at 15A @ 125/250V AC & 15A @ 30V DC.	
VDE:	<ul> <li>License No. 40028806 - Approved only when ordered with marking on switch.</li> <li>Add "/V" to end of part number to order VDE approved switch.</li> <li>All models approved at 15A @ 250V AC (pending for quick connect).</li> </ul>	
EN:	No. 61058-1 WR11 & WR12 models meet European Norm for 3mm contact gap to prevent contact welds.	
Wiring Material Standards:	UL AWM 1015 Recognized at Flammability VW-1. Temperature Range –20°C ~ +105°C; Maximum Load 600V; AWG 14. CSA TEW 105 Certified at Temperature Range –20°C ~ +105°C; Maximum Load 600V.

# Distinctive Characteristics

Single unit construction of the flange and outer housing gives added protection from environmental elements.

Specially designed contact mechanism for breaking light welds.

Minimal contact bounce achieved with specially designed interlocked switching mechanism.

Heat resistant resin used for outer housing, inner case, and cover on wire lead models meets UL94V-0 flammability standard and provides high arc and tracking resistance.

Available with solder lug, screw, quick connect, and wire lead terminations.

#### Sealed Construction Meets IP60 & IP67 Standards

Solder lug, screw, and quick connect terminal models meet IP67 of IEC60529 Standards at front panel (dust tight and water protected for temporary immersion, patent pending). Behind panel standard is IP60 (dust tight but not water protected).

Wire lead models conform fully to IP67 of IEC60529 Standards at front and behind panel (dust tight and water protected for temporary immersion). Switch base is epoxy sealed and covered by an outer case for further protection from dust and water. (Switches cannot be operated under water. Contact factory for further details regarding operating environment.)

## **Series WR**

### **Environmentally Sealed Rockers**

#### **IMPORTANT:**

Switches are supplied without UL, cULus & VDE marking unless specified. **UL, cULus & VDE recognized only when ordered with marking on the switch.** Specific models, ratings and ordering instructions are noted on the General Specifications page.
