M12 Terminating resistor for DeviceNet/CANopen
Extremely robust M12 bus termination (resistor) for individuell use within field bus networks (PROFIBUS, DeviceNet and CANopen).

CANopen DeviceNet PROFI BUS

Automation & fältinstallation

Assembly time

Space requirement

Info
Fully suitable for industrial use

Application range
Mechanical and plant engineering

Benefits
Cost efficient termination of a bus systems
Space-saving due to compact dimensions
Robust design

Product Make-up
Straight connector M12 with integrated termination resistor

Product features
120 Ω terminating resistor for DeviceNet/CANopen

Remark
DeviceNet is a registered trademark of ODVA
Photographs are not to scale and do not represent detailed images of the respective products.

Technical Data

Coding:	A - Standard (CANopen/DeviceNet)
Contact material:	CuSn
Rated current (A):	4 A
Protection rating:	IP65/IP67
Ambient temperature (operation):	-25°C to +90°C

Part number	Article designation	Number of pins	Rated voltage (V)
Plug, unshielded (terminating resistor)			
22260766	AB-C5-M12MS-DN-TR	5	60
