

D-Subminiature Series

Rectangular Connectors

SOURIAU

D-Subminiature Series

Presentation

- Souriau D-Sub connectors are used for military/aerospace applications and in industrial field: information systems, communication systems, industrial electronic...
- D-Sub connectors are designed to ensure the connection function in all applications where weight and dimension are very important.
- They are especially used as Input/Output connectors in interface fonctions. So, they are subjects to mechanical constraints that are sometimes severes.
- In order to prevent risks (pulling up, accidental unmating...), a large range of accessories is supplied.

D-Subminiature Series

D-Sub Mark III standard ranges

8630 Series HE 501

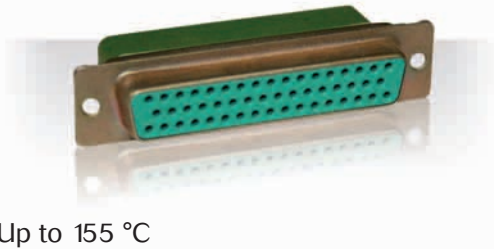

See page 12

- ▶ Up to 125 °C
- ▶ Crimped contact #20

8630 Series HE 508

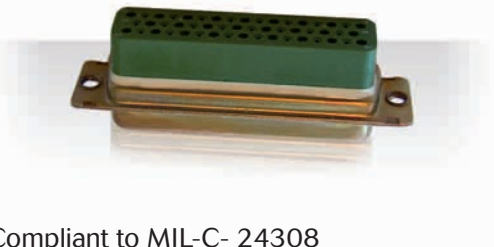

See page 14

- ▶ Up to 155 °C
- ▶ Crimped contact #20

SMA MIL-C Series

See page 16

- ▶ Compliant to MIL-C- 24308
- ▶ Crimped contact #20

8635 Series

See page 19

- ▶ High Density
- ▶ Individual glass bead
- ▶ Straight spills & Crimped contact #22

Hermetic Series

See page 21

- ▶ Solder buckets and eyelets
- ▶ Straight spills & Crimped contact #20
- ▶ Hermeticity level: 10^{-7} atm.cm³/s
- ▶ Individual glass bead

D-Subminiature Series

8635 Series

High density connector

SOURIAU 8635 connector for aerospace and military applications offer high density (size 22) crimp and straight spill contacts in standard A, B, C, D, E shells.

The 8635 connector meet the requirements of MIL C 24308 dust and splash proof specifications.

Standard shell plating: Cadmium
Other platings: Tin & Zinc

D-Subminiature Series

D-Sub hermetic connectors

D-Sub hermetic connector

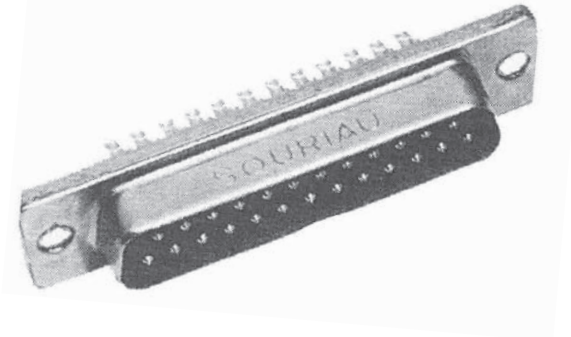

Hermetic rectangular connectors are manufactured with glass bead insulator.

They are used in all applications requiring perfect hermeticity.

Shell housing may be solder or screw mounted.

3 types of contacts terminations are available: Solder bucket, Solder eyelet or Straight spill.

They are compliant to MIL C 24308 C.

D-Subminiature Series

Panel mounting

It is recommended that only one pair of connectors should be float mounted.
 Rigid mounted connectors require 2 screws Ø3mm.
 Float mounting connectors require Ø2mm.
