

# MTA, CST-100 II, SL-156 and AMP Economy Power (EP) Connectors

## Table of Contents

### Introduction

This catalog has been designed to assist you, our customer, identify products to satisfy your connector needs for printed circuit board headers, mass termination connectors preloaded with contacts, crimp-snap contacts and housings, and card edge connectors with preloaded contacts.

The list at right identifies by centerline the types of product available and is meant to be of assistance to you in the product selection process.

 \*\* Current Rating is application dependent.

MTA-50  
.050 [1.27]

## MTA-50 IDC Connectors and Headers

### Product Facts

- 2-28 contact positions
- Connectors terminate 26, 28 and 30 AWG discrete wire or .050 [1.27] centerline ribbon cable
- Color-coded housings
- Maximum cable insulation diameter of .039 [0.99] with PVC insulation only
- IDC contacts pre-loaded in receptacle housing
- 30 V, 1 A contact rating
- Contact design allows for gold-to-gold or tin-to-tin interface
- Contacts are lubricated to prevent fretting corrosion
- Wire feed-thru capability for daisy-chain wiring or closed end for point-to-point wiring
- Connectors are polarized for proper mating
- Manual and semiautomatic application tooling
- Mating heights shown below:

- Component Recognized by Underwriters Laboratories Inc. to US and Canadian Standards, File No. E28476 C US (Connectors and Headers) File No. E53793 (Ribbon Cable)

These matrixes have been prepared to assist you in defining the correct mating halves for the MTA-50 header and connector kit combination. Where a "Y" is indicated the combination is a valid mating pair.

**Note:** Tyco Electronics does NOT recommend intermating connectors and headers with different contact platings.

The MTA-50 IDC Connector System is a wire-to-printed circuit board system with contacts in a staggered, single row on .050 [1.27] centerline. The design features wire feed-through capability for daisy-chain applications. Insulation displacement contacts are used to terminate a wide range of conductor sizes. Ribbon cable can also be terminated when the appropriate receptacle assembly and strain relief cover are used.

Header assemblies for board mount applications include right-angle (horizontal) and vertical mount products. These are available in

through-hole and surface mount configurations.

Typical uses of the MTA-50 IDC connectors would be in the Appliance, Commercial and Home Equipment and Security products industries.

See the following pages for related products:

- Ribbon Cable (reels), .050 [1.27] centerline (p. 71)
- Application Tooling (p. 76)
- Cable Assemblies (p. 74)

### Performance Data

- Voltage Rating** — 30 VAC
- Current Rating** — 1 amp max.
- Low-Level Resistance** — 30 milliohms

**Dielectric Withstanding Voltage** — 500 VAC

**Insulation Resistance** — 1,000 megohms

**Operating Temperature** — -55°C to +105°C for connector only; cable rating may be lower

### Technical Documents

**Application Specification** — 114-13072 MTA-50 Connectors

**Product Specifications** — 108-2113 MTA-50 Connectors

100-4703 MADISON CABLE Cable Specification (28 AWG, 7/36 Tinned copper, PVC insulation)

100-6257 MADISON CABLE Cable Specification (28 AWG, 7/36 Tinned copper, TPO insulation)

### MTA-50 IDC Connector Kit / Header Mateability Guide

| Connector Kits | Headers |         |         |         |
|----------------|---------|---------|---------|---------|
|                | 1445120 | 1445121 | 1445169 | 1445172 |

**MTA-50 IDC Connectors and Headers (Continued)**

MTA-50  
.050 [1.27]

**Feed-Thru and Closed End Connectors**

**Receptacle Assemblies — Ribbon Cable**

**Material and Finish**

**Housing** — UL 94V-2 rated, thermo-plastic

**Contacts** — Phosphor bronze; .000100 [0.00254] min. tin in wire termination area, over .000050 [0.00127] min. nickel; choice on mating end: .000100 [0.00254] min. tin or .000030 [0.00076] gold or .000015 [0.00038] gold, over .000050 [0.00127] min. nickel

**Color Coding by Wire Size for UL94V-0 Connectors**

- 26 AWG** — Blue
- 28 AWG** — Green
- 30 AWG** — Brown

**Notes:**

1. To determine connector overall length (dim. A), multiply .050 x the number of circuits and add .082. Example: .050 x 10 circuits equals 0.50 + .082 = .582 [14.78].
2. Strain relief covers shown on page 6 are required and sold as part of the Connector Kit.
3. Stranded UL Style 1061 or equivalent wire is recommended.
4. Unless otherwise stated all tolerances (except plating) to be ±.005 [±0.13].
5. Consult Product Drawing for RoHS Compliant information.

For Strain Relief Covers see page 6.  
For mating Headers see pages 9 and 10.  
For Mateability Guide, see matrixes on page 4.

**Connector Kits — Ribbon Cable**

**Connector Kit Ordering Information**

Connector Kit consists of Receptacle Assembly and Strain Relief Cover.

Base part number prefixes and suffixes indicate the number of circuit positions, for example: Base part number 1445359

- 2 position = 0-1445359-2 and
- 28 position = 2-1445359-8

**Note:** Tin-plated connectors and headers in even position sizes from 2–12 and 18 are stocked parts; all other position sizes and products with gold-plated contacts are Make To Order.

**Base Part Numbers**

| Connector Type & Wire Size                 | Feed-Thru               |                 | Closed End              |                 |

**Header Ordering Information**

Base part number prefixes and suffixes indicate the number of circuit positions, for example: Base part number 1445121

2 position = 0-1445121-2  
and  
28 position = 2-1445121-8

**Note:** Tin-plated connectors and headers in even position sizes from 2-12 and 18 are stocked parts; all other position sizes and products with gold-plated contacts are Make To Order.

MTA-50  
.050 [1.27]

## .100 [2.54] Centerline MTA-100 IDC Connectors and Headers

### Product Facts

- Connectors and headers for 2 through 28 positions; wire sizes of 22, 24, 26 and 28 AWG [0.4-0.08 mm<sup>2</sup>]
- Wire-to-Post Connectors preloaded with dual beam contacts
- Connectors and headers, except shrouded headers, are end-to-end stackable
- Connector styles include both closed end and feed-thru connectors with locking ramps, with and without polarizing tabs
- Molded ribs on housing do not allow reverse mating
- Posted connectors for 2 through 19 positions
- Connectors preloaded with IDC contacts
- All contacts are slotted for insulation displacement (IDC) terminal technique
- Contacts are lubricated for fretting corrosion protection
- Benefits derived from the MTA-100 system include increased quality and ease of handling such as —
  - One-step assembly
  - No wire stripping
  - No contact damage
  - Reduced wiring errors
  - Simpler tooling
  - Simple maintenance and repair
- Meets the material requirements of Table 23.1 of UL1410 Standards for Television Receiver and Video Products (wire-to-post connectors only)
- Recognized under the Component Program of Underwriters Laboratories Inc., File No. E28476 
- Certified by Canadian Standards Association, File No. LR7189 

### Technical Documents

#### Product Specification

108-1050 MTA-100 Connectors

#### Application Specifications

114-1019 MTA-100 Connectors

114-1031 MTA-100 Ribbon Cable Assembly

MTA-100  
.100 [2.54]

MTA-100 connectors accept discrete and ribbon cable wire sizes ranging from 22–28 AWG [0.4–0.08 mm<sup>2</sup>] with maximum insulation outside diameter of .060 [1.52] for terminating single wire and .050 [1.27] for mass termination of wires. Tin plated solid, fused stranded, or stranded (7 strands) wire with PVC insulation can be used on 22–28 AWG [0.4–0.9 mm<sup>2</sup>] MTA-100 connectors and 19 stranded wire on 22–24 AWG [0.4–0.2 mm<sup>2</sup>] MTA-100 connectors. Only

one wire to be terminated into an IDC contact slot.

The wire-to-post connector housing material is flame retardant thermoplastic, either UL94V-2 or UL94V-0 rated.

A full line of .100 [2.54] centerline headers completes the system. Headers are available with straight or right-angle posts, in flat, polarized or friction lock styles. Headers are available in 2 through 28 positions. Shrouded headers are available in 2 through 14 positions.

### Performance Data\*

**Voltage Rating** — 250 vac

**Current Rating** — 5 amp max.

**Low-Level Resistance** — 6 mΩ max. initial

**Dielectric Withstanding Voltage** — 750 vac/1 min.

**Insulation Resistance** — 5000 MΩ min. initial

**Operating Temperature** — –55° C to +105° C

**Note:** Refer to page 70 for approved wire listings.

\*Refer to the Product Specification for additional electrical, mechanical and environmental performance tests and requirements.

### MTA-100 Connector/Header Mateability Guide (Continued)

This matrix has been prepared to assist you, our customer, in defining the correct mating halves for the MTA-100 header and connector combination. Where a "Y" is indicated the combination is a valid mating pair. Where an "N" is indicated the combination is not acceptable for mating.

MTA-100  
.100 [2.54]

**MTA-100 IDC Connectors—Closed End and Feed-Thru**

**Material and Finish**

**Housing**—UL94V-2 rated, nylon, see below for color; or UL94V-0 rated, nylon, black

**Contacts**—Phosphor bronze, post tin plated, .000030 [0.00076] or .000015 [0.00038] post gold-plated over nickel

**Color Coding by Wire Size for UL94V-2 Connectors**

- 28 AWG—Green
- 26 AWG—Blue
- 24 AWG—White
- 22 AWG—Red

All wire sizes in UL94V-0—Black

For mateability options, see matrix on pages 12 and 13.

For mating half visuals, see pages 20 thru 30.

**Notes:**

1. Refer to pages 70-74 for approved wire listing.
2. For strain reliefs and dust covers, see page 16.
3. For keying plugs, see page 17.
4. Other circuit sizes are available upon request. Minimums may apply.
5. Connector circuits can be molded closed for keying purposes. Minimums may apply.
6. Where no part numbers appear in the chart, parts can be made available upon request. Minimums may apply.
7. To determine connector overall length (dim. A), multiply .100 x the number of circuits. Example: .100 x 10 circuits equals 1.000 inch [25.4 mm].

### Connector Ordering Information

The "Base Part Numbers" Chart at right shows the base part number, and their RoHS (Restrictions on Certain Hazardous Substances) Compliant (lead free) equivalent available for the described connectors.

Prefixes and suffixes are determined by the number of circuit positions in the connector. For example, the complete part number for a 10-position closed end connector without polarizing tabs for 22 AWG wire would be:

Base number **640440** plus prefix-and-suffix  
**4- -0**

The correct ordering number is **4-640440-0**

All part numbers are the RoHS equivalent version. Example:

| No. of Pos. | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------------|
| 2           | 3-640440-2                   |
| 3           | 3-640440-3                   |
| 4           | 3-640440-4                   |
| 5           | 3-640440-5                   |
| 6           | 3-640440-6                   |
| 7           | 3-640440-7                   |
| 8           | 3-640440-8                   |
| 9           | 3-640440-9                   |
| 10          | 4-640440-0                   |
| 11          | 4-640440-1                   |
| 12          | 4-640440-2                   |
| 13          | 4-640440-3                   |
| 14          | 4-640440-4                   |
| 15          | 4-640440-5                   |
| 16          | 4-640440-6                   |
| 17          | 4-640440-7                   |
| 18          | 4-640440-8                   |
| 19          | 4-640440-9                   |
| 20          | 5-640440-0                   |
| 21          | 5-640440-1                   |
| 22          | 5-640440-2                   |
| 23          | 5-640440-3                   |
| 24          | 5-640440-4                   |
| 25          | 5-640440-5                   |
| 26          | 5-640440-6                   |
| 27          | 5-640440-7                   |
| 28          | 5-640440-8                   |

Note: All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

\*LED connectors are designed to mate with .014–.020 [0.36–0.51] diameter posts or square leads.

<sup>1</sup> Other circuit sizes are available upon request. Minimums may apply.

<sup>2</sup> Tape mounted.

Note: Blocked circuit configurations are available. Contact product engineer or product manager for details. Minimums may apply.

**MTA-100 IDC Connector Accessories**

**Covers**

**Material (RoHS Compliant)**

**Strain Relief Cover** — UL94V-2 rated, nylon, white

**Dust Covers** — UL94V-0 rated, polyester, white

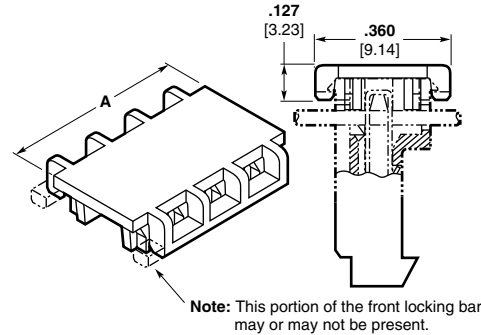

**Closed End Strain Relief Covers**

**Closed End Dust Covers**

**Feed-Thru Strain Relief Covers**

**Feed-Thru Dust Covers**

**Cover Ordering Information**

The "Base Part Numbers" Chart at right shows the base part number and number of circuits available for the described cover.

Prefixes and suffixes are determined by the number of circuit positions in the cover. For example, the complete part number for a 10-position closed end strain relief cover would be:

Base number **643075** plus prefix-and-suffix

**1- -0**

The correct ordering number is

**1-643075-0**

| 24        | 0.2             | 640637-3            | 641187-4                      | 641187-3                      | 641644-2       |
| 26        | 0.12–0.15       | 640638-3            | 641188-4                      | 641188-3                      | 641645-2       |
| 28        | 0.08–0.09       | 640639-2            | 641189-4                      | 641189-3                      | 641646-2       |

**Note:** Tyco Electronics does not recommend terminating an MTA contact more than one time. Use replacement contacts when required for field repairs or wire changes.

**Crimp Snap-In Contacts**

**Material and Finish**

Phosphor bronze, tin plated

| Wire Size |                 | Part Nos.    |          |
|-----------|-----------------|--------------|----------|
| AWG       | mm <sup>2</sup> | Loose Piece* | Strip**  |
| 26-22     | 0.12–0.4        | 640709-2     | 640708-2 |

\*\*Hand Tool No. 59836-1 (IS 408-6527)  
\*\*Applicator No. 466747-1 (IS 408-8040)

- Special applications for crimp snap-in contacts are:
1. Double wire per contact
  2. Coax or shielded wire
  3. Mixed wire size in same connector

**Note:** Only one crimp snap-in contact per connector.

## MTA-100 Posted Connector/Connector Mateability Guide

This matrix has been prepared to assist you, our customer, in defining the correct mating halves for the MTA-100 posted connector and connector combination. Where a “Y” is indicated the combination is a valid mating pair. Where an “N” is indicated the combination is not acceptable for mating.

### MTA-100 Posted Connector/Connector Mateability Guide (Continued)

This matrix has been prepared to assist you, our customer, in defining the correct mating halves for the MTA-100 posted connector and connector combination. Where a "Y" is indicated the combination is a valid mating pair. Where an "N" is indicated the combination is not acceptable for mating.

\*2 & 3 position MTA-100 Posted Connectors can not mate with MTA-100 connectors with polarizing tabs.

**MTA-100 IDC Posted Connectors (Wire-to-Wire)—Closed End, Feed-Thru**

**Material and Finish**

**Housing** — UL 94V-2 rated, nylon, see chart for color

**Contacts** — Copper alloy, post tin or gold plated over nickel (see chart)

**Notes:**

1. Mating half visuals - pages 14 & 15.
2. Use feed thru strain relief covers & feed thru dust covers (if needed) - page 16.
3. Approved wire listing - pages 70 thru 74.

**Connector Ordering Information**

The "Base Part Numbers" Chart at right shows the base part number.

Prefixes and suffixes are determined by the number of circuit positions in the connector. For example, the complete part number for a 12-position closed end connector for 22 AWG wire would be:

Base number **647000** plus prefix-and-suffix **4-2**

The correct ordering number is **4-647000-2**

All part numbers are the RoHS equivalent version. Example:

| No. of Pos. | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------------|
| 2           | 3-647000-2                   |
|             | thru                         |
| 19          | 4-647000-9                   |

See page 15 for an explanation of RoHS lead free equivalents.

**Note:** All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

**Color Coding by Wire Size for UL 94V-2 Connectors**

- 22 AWG — Red
- 24 AWG — White
- 26 AWG — Blue
- 28 AWG — Green

**Performance Data**

**Voltage Rating** — 250 VAC

**Current Rating** — 4 amp max.

**Low-Level Resistance** — 16 mΩ max. initial

**Dielectric Withstanding Voltage** — 750 VAC/1 min.

**Insulation Resistance** — 5000 MΩ min. initial

**Operating Temperature** —

**Closed End**

**Feed-Thru**

**Base Part Numbers**

| Connector Type & Wire Size                              | Closed End Connector |                    | Feed-Thru Connector |                 |

**Housing**—UL94V-0 rated, polyester, white

**Posts**—Copper alloy, tin plated, .000030 [0.00076] or .000015 [0.00038] gold over nickel

**Notes:**

1. Post(s) can be omitted for keying purposes. Specify the desired post(s) to be omitted using the figure to identify Post No. 1.
2. Gold headers are duplex plated, gold on mating end of post and tin on the solder tail.
3. To determine header overall length (dim. A) multiply .100 x the number of posts. Example: .100 x 10 posts equals 1.000 inch [25.4 mm].

For mateability options, see matrix on pages 12 and 13.

For mating half visuals, see pages 14, 15 and 31.

### Header Ordering Information

The “Base Part Numbers” Chart at right shows the base part number.

Prefixes and suffixes are determined by the number of post positions in the header. For example, the complete part number for a 10-position header with straight posts would be:

Base number **641211** plus prefix-and-suffix **4- — 0**

The correct ordering number is **4-641211-0**

All part numbers are the RoHS equivalent version. Example:

| No. of Pos. | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------------|
| 2           | 3-641211-2                   |
|             | thru                         |
| 28          | 5-641211-8                   |

See page 15 for an explanation of RoHS lead free equivalents.

**Note:** All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

**Note:** Select load headers (omitted pin headers) are available upon request. Please contact product engineer or product manager for details.

### Straight Post (.025 [0.64] Square)

### Right-Angle Post (.025 [0.64] Square)

X = .120 [3.05] min., .240 [6.1] max.  
when mated with MTA-100 Connector.  
X = .120 [3.05] min., when mated with  
CST-100 II Connector.

Recommended Mounting Hole Pattern for  
.062 [1.57] Thk. PC Board

Recommended Mounting Hole Pattern for  
.062 [1.57] Thk. PC Board

**Note:** Consult Product Drawing for details on placing headers onto PC boards.

### Base Part Numbers

| Straight Posts   |                          | Right-Angle Posts |                          |
|--|--------------------------|-------------------|--------------------------|
| Header Part Nos.                                       | No. of Posts/RoHS Equiv. | Header Part Nos.  | No. of Posts/RoHS Equiv. |
| <b>Standard UL94V-0, Tin Plated</b>                    |                          |                   |                          |
| 640452   | 2-28                     | 640453            | 2-28                     |
| <b>Standard UL94V-0, .000030 [0.00076] Gold Plated</b> |                          |                   |                          |

| <b>Standard UL94V-0, .000015 [0.00038] Gold Plated</b> |                          |                   |                          |
| 641122   | 2-28<br>32-58            | 641123            | 2-28<br>32-58            |

MTA-100  
.100 [2.54]

**MTA-100 Narrow Flat Headers—Straight and Right-Angle**

**Material and Finish**

**Housing** — UL94V-0 rated, polyester, white

**Posts** — Copper alloy, tin plated, .000030 [0.00076] or .000015 [0.00038] gold over nickel

**Notes:**

1. Post(s) can be omitted for keying purposes. Specify the desired post(s) to be omitted using the figure to identify Post No. 1.
2. Headers without retentive legs are suitable for breakaway application.
3. 2 or 3 retentive leg(s) per header, depending upon number of positions.
4. Gold headers are duplex plated, gold on mating end of post and tin on the solder tail.
5. To determine header overall length (dim. A) multiply .100 x the number of posts minus (-) .012. Example: .100 x 10 posts - .012 = .988 inches [25.1 mm].

For mateability options, see matrix on pages 12 and 13. For mating half visuals, see pages 14, 15 and 31.

**Connector Ordering Information**

The “Base Part Numbers” Chart at right shows the base part number.

Prefixes and suffixes are determined by the number of post positions in the header. For example, the complete part number for a 10-position header with straight posts and without retentive legs would be:

Base number **644456** plus prefix-and-suffix **4- -0**

The correct ordering number is **4-644456-0**

All part numbers are the RoHS equivalent version. Example:

| No. of Pos. | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------------|
| 2           | 3-644456-2                   |
| thru        |                              |
| 28          | 5-644456-8                   |

See page 15 for an explanation of RoHS lead free equivalents.

**Note:** All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

**Note:**

Select load headers (omitted pin headers) are available upon request. Please contact product engineer or product manager for details.

MTA-100 .100 [2.54]

## MTA-100 Polarized Headers—Straight and Right-Angle

### Material and Finish

**Housing**—UL94V-0 rated, polyester, white

**Posts**—Copper alloy, tin plated, .000030 [0.00076] or .000015 [0.00038] gold over nickel

**Notes:**

1. Post(s) can be omitted for keying purposes. Specify the desired post(s) to be omitted using the figure to identify Post No. 1.
2. Gold headers are duplex plated, gold on mating end of post and tin on the solder tail.
3. All posts on retentive leg headers are bent.
4. To determine header overall length (dim. A) multiply .100 x the number of posts. Example: .100 x 10 posts equals 1.000 inch [25.4 mm].

For mateability options, see matrix on pages 12 and 13.  
For mating half visuals, see pages 14, 15 and 31.

### Header Ordering Information

The “Base Part Numbers” Chart at right shows the base part number.

Prefixes and suffixes are determined by the number of post positions in the header. For example, the complete part number for a 10-position header with straight posts would be:

Base number **641213** plus prefix-and-suffix **4- -0**

The correct ordering number is **4-641213-0**

All part numbers are the RoHS equivalent version. Example:

| No. of Pos. | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------------|
| 2           | 3-641213-2                   |
|             | thru                         |
| 28          | 5-641213-8                   |

See page 15 for an explanation of RoHS lead free equivalents.

**Note:** All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

**Note:** Select load headers (omitted pin headers) are available upon request. Please contact product engineer or product manager for details.

MTA-100 .100 [2.54]

## MTA-100 Headers with Retention Peg—Straight

### Material and Finish

**Housing**—UL94V-0 rated, thermo-plastic, black

**Posts**—Copper alloy, tin plated, .000030 [0.00076] or .000015 [0.00038] gold over nickel

### Notes:

1. Post(s) can be omitted for keying purposes. Specify the desired post(s) to be omitted using the figure to identify Post No. 1.
2. Gold headers are duplex plated, gold on mating end of post and tin on the solder tail.
3. To determine header overall length (dim. A) multiply .100 x the number of posts. Example: .100 x 10 posts equals 1.000 inch [25.4 mm].

For mateability options, see matrix on pages 12 and 13.  
For mating half visuals, see pages 14, 15 and 31.

### Header Ordering Information

The “Base Part Numbers” Chart at right shows the base part number.

Prefixes and suffixes are determined by the number of post positions in the header. For example, the complete part number for a 10-position header with straight posts would be:

Base number **647609** plus prefix-and-suffix  
**4- -0**

The correct ordering number is **4-647609-0**

All part numbers are the RoHS equivalent version. Example:

| No. of Pos. | Standard Prefix/Suffix | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------|------------------------------|
| 2           | 647609-2               | 3-647609-2                   |
| 3           | 647609-3               | 3-647609-3                   |
| 4           | 647609-4               | 3-647609-4                   |
| 5           | 647609-5               | 3-647609-5                   |
| 6           | 647609-6               | 3-647609-6                   |
| 7           | 647609-7               | 3-647609-7                   |
| 8           | 647609-8               | 3-647609-8                   |
| 9           | 647609-9               | 3-647609-9                   |

**Note:** All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

### Friction Lock

### Polarized

Recommended Mounting Hole Pattern for .062 [1.57] Thk. PC Board

**Note:** Consult Product Drawing for details on placing headers onto PC boards.

### Base Part Numbers

| Friction Lock  |             | Polarized        |             |
|--|-------------|------------------|-------------|
| Header Part Nos.                                       | RoHS Equiv. | Header Part Nos. | RoHS Equiv. |
| <b>Standard UL94V-0, Tin Plated</b>                    |             |                  |             |
| 647609   | 32-42       | 647623           | 32-42       |
| <b>Standard UL94V-0, .000030 [0.00076] Gold Plated</b> |             |                  |             |
| 647626   | 32-42       | 647624           | 32-42       |
| <b>Standard UL94V-0, .000015 [0.00038] Gold Plated</b> |             |                  |             |
| 647627   | 32-42       | 647625           | 32-42       |

### Note:

Select load headers (omitted pin headers) are available upon request. Please contact product engineer or product manager for details.

MTA-100  
.100 [2.54]

## MTA-100 High Profile Headers—Right-Angle

### Material and Finish

**Housing**—UL94V-0 rated, thermo-plastic, black

**Posts**—Copper alloy, tin plated, .000030 [0.00076] or .000015 [0.00038] gold over nickel

#### Notes:

1. Post(s) can be omitted for keying purposes. Specify the desired post(s) to be omitted using the figure to identify Post No. 1.
2. Gold headers are duplex plated, gold on mating end of post and tin on the solder tail.
3. To determine header overall length (dim. A) multiply .100 x the number of posts. Example: .100 x 10 posts equals 1.000 inch [25.4 mm].
4. This product can be mounted in the middle of the PC Board as shown in the PCB layout.

For mateability options, see matrix on pages 12 and 13.

For mating half visuals, see pages 14, 15 and 31.

### Header Ordering Information

The "Base Part Numbers" Chart at right shows the base part number.

Prefixes and suffixes are determined by the number of post positions in the header. For example, the complete part number for a 10-position header with right-angle posts would be:

Base number **647630** plus prefix-and-suffix  
**4- -0**

The correct ordering number is **4-647630-0**

All part numbers are the RoHS equivalent version. Example:

| No. of Pos. | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------------|
| 2           | 3-647630-2                   |
| 3           | 3-647630-3                   |
| 4           | 3-647630-4                   |
| 5           | 3-647630-5                   |
| 6           | 3-647630-6                   |
| 7           | 3-647630-7                   |
| 8           | 3-647630-8                   |
| 9           | 3-647630-9                   |
| 10          | 4-647630-0                   |
| 11          | 4-647630-1                   |
| 12          | 4-647630-2                   |

**Note:** All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

### Friction Lock

#### Right-Angle Post (.025 [0.64] Square)

### Polarized

#### Right-Angle Post (.025 [0.64] Square)

Recommended Mounting Hole Pattern for .062 [1.57] Thk. PC Board

**Note:** Consult Product Drawing for details on placing headers onto PC boards.

### Base Part Numbers

| Friction Lock  |             | Polarized         |             |
|--|-------------|-------------------|-------------|
| Right-Angle Posts                                      |             | Right-Angle Posts |             |
| Header Part Nos.                                       | RoHS Equiv. | Header Part Nos.  | RoHS Equiv. |
| <b>Standard UL94V-0, Tin Plated</b>                    |             |                   |             |
| 647630   | 32-42       | 647651            | 32-42       |
| <b>Standard UL94V-0, .000030 [0.00076] Gold Plated</b> |             |                   |             |
| 647629   | 32-42       | 647653            | 32-42       |
| <b>Standard UL94V-0, .000015 [0.00038] Gold Plated</b> |             |                   |             |
| 647628   | 32-42       | 647652            | 32-42       |

#### Note:

Select load headers (omitted pin headers) are available upon request. Please contact product engineer or product manager for details.

MTA-100  
.100 [2.54]

## MTA-100 Polarized High Temperature Headers—Straight and Right-Angle

### Material and Finish

#### Housing —

2–12 Position — UL94V-0 rated,  
nylon, black  
13–18 Position — UL94V-0 rated,  
LCP, black

**Posts**—Copper alloy, tin plated,  
.000030 [0.00076] or .000015  
[0.00038] gold over nickel

#### Notes:

1. Post(s) can be omitted for keying purposes. Specify the desired post(s) to be omitted using the figure to identify Post No. 1.
2. Gold headers are duplex plated, gold on mating end of post and tin on the solder tail.
3. To determine header overall length (dim. A) multiply .100 x the number of posts. Example: .100 x 10 posts equals 1.000 inch [25.4 mm].

For mateability options, see matrix on pages 12 and 13.

For mating half visuals, see pages 14, 15 and 31.

### Header Ordering Information

The “Base Part Numbers” Chart at right shows the base part number.

Prefixes and suffixes are determined by the number of post positions in the header. For example, the complete part number for a 10-position header with straight posts would be:

Base number **647047** plus  
prefix-and-suffix  
**4- -0**

The correct ordering number is  
**4-647047-0**

All part numbers are the RoHS equivalent version. Example:

| No. of Pos. | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------------|
| 2           | 3-647047-2                   |
|             | thru                         |
| 12          | 4-647047-2                   |
| 13          | NA                           |
|             | thru                         |
| 18          | NA                           |

See page 15 for an explanation of RoHS lead free equivalents.

**Note:** All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

### For use with Infrared Reflow Process

Maximum Temperature Rating: 2–12 Position: 280°C  
13–18 Position: 235°C

#### Straight Post (.025 [0.64] Square)

#### Right-Angle Post (.025 [0.64] Square)

Recommended Mounting Hole Pattern for .062 [1.57] Thick PC Board

**Note:** Consult Product Drawing for details on placing headers onto PC boards.

### Base Part Numbers

| Straight Posts   |             | Straight Posts (Tube Loaded) |             | Right-Angle Posts |             |
|--|-------------|------------------------------|-------------|-------------------|-------------|
| Header Part Nos.                                       | RoHS Equiv. | Header Part Nos.             | RoHS Equiv. | Header Part Nos.  | RoHS Equiv. |
| <b>Standard UL94V-0, Tin Plated</b>                    |             |                              |             |                   |             |

**Note:** Select load headers (omitted pin headers) are available upon request. Please contact product engineer or product manager for details.

MTA-100  
 .100 [2.54]

## MTA-100 Polarized and Friction Lock Surface Mount Headers—Straight

### Material and Finish

#### Housing —

2–12 Position — UL94V-0 rated,  
nylon, black  
13–18 Position — UL94V-0 rated,  
LCP, black

**Posts** — Copper alloy, tin plated,  
.000030 [0.00076] or .000015  
[0.00038] gold over nickel

#### Notes:

1. Post(s) can be omitted for keying purposes. Specify the desired post(s) to be omitted using the figure to identify Post No. 1.
2. Gold headers are duplex plated, gold on mating end of post and tin on the solder tail.
3. To determine header overall length (dim. A) multiply .100 x the number of posts. Example: .100 x 10 posts equals 1.000 inch [25.4 mm].

For mateability options, see matrix on pages 12 and 13.

For mating half visuals, see pages 14, 15 and 31.

### Header Ordering Information

The “Base Part Numbers” Chart at right shows the base part number.

Prefixes and suffixes are determined by the number of post positions in the header. For example, the complete part number for a 10-position surface mount polarized header would be:

Base number **647106** plus  
prefix-and-suffix  
**4- -0**

The correct ordering number is  
**4-647106-0**

All part numbers are the RoHS equivalent version. Example:

| No. of Pos. | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------------|
| 2           | 3-647106-2                   |
| 12          | 4-647106-2                   |

See page 15 for an explanation of RoHS lead free equivalents.

**Note:** All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

### For use with Infrared Reflow Process

Maximum Temperature Rating: 2–12 Position: 280°C  
13–18 Position: 235°C

|  |             | 647467                | 32-42       |

**Note:** Select load headers (omitted pin headers) are available upon request. Please contact product engineer or product manager for details.

**MTA-100 Shrouded Headers—Straight and Right-Angle**

**Material and Finish**

**Housing** — UL94V-0 rated, polyester, black

**Posts** — Copper alloy, tin plated; or .000030 [0.00076] gold over nickel

**Notes:**

1. Post(s) can be omitted for keying purposes. Specify the desired post(s) to be omitted using the figure to identify Post No. 1.
2. Headers with .000015 [0.00038] gold plated post are available upon request. Minimums may apply.
3. Gold headers are duplex plated, gold on mating end of post and tin on the solder tail.

For mateability options, see matrix on pages 12 and 13.  
For mating half visuals, see pages 14 and 15.

**Header Ordering Information**

The “Base Part Numbers” Chart at right shows the base part number.

Prefixes and suffixes are determined by the number of post positions in the header. For example, the complete part number for a 10-position header with straight posts and with pegs would be:

Base number **644486** plus prefix-and-suffix **4- -0**

The correct ordering number is **4-644486-0**

See page 15 for an explanation of RoHS lead free equivalents.

**Note:** All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

**Notes:**

1. Select load headers (omitted pin headers) are available upon request. Please contact product engineer or product manager for details.
2. MTA-100 shrouded headers do not mate with CST-100 II housings.

**Header Length**

| No. of Circuits | Dim. A        | Prefix/Suffix |

MTA-100  
.100 [2.54]

## .100 [2.54] Centerline CST-100 II Crimp Contacts and Housings

### Product Facts

- Low cost wire-to-board interconnections
- Wide wire range for single contact
- Tin and gold plated contacts
- Mates with specified MTA and similar competitive notched headers
- Plastic latching feature in housing helps prevent contact backout
- Locking ramps and polarizing tabs are standard
- For keying purposes use keying plug 641994-1 (page 17)
- Recognized under the Component Program of Underwriters Laboratories Inc., File No. E28476
- Certified by Canadian Standards Association, File No. LR7189

For mateability options, see matrix on pages 12 and 13.

For mating half visuals, see pages 21 thru 29 and 32.

See page 15 for an explanation of RoHS lead free equivalents.

### Performance Data

**Voltage Rating** — 250 vac

**Current Rating** — 4 amp max.

**Low-Level Resistance** — 6 mΩ max. initial; 10 mΩ max. final

**Insulation Resistance** — 1000 MΩ min. initial; 100 MΩ min. final

**Operating Temperature** — -55° C to +105° C

Machine\* (Request Catalog 82659)

\*Requires applicators. For part numbers, call Technical Support.

\*Housings without polarizing tabs may be manufactured upon request. Minimums may apply. Contact product engineering or product manager for details.

## CST-100 II Shrouded Headers—Straight and Right-Angle

### Material and Finish

**Housing**—UL94V-0 rated, polyester, black

**Posts**—Copper alloy, tin plated; or .000030 [0.00076] gold over nickel

**Notes:**

1. Post(s) can be omitted for keying purposes. Specify the desired post(s) to be omitted using the figure to identify Post No. 1.
2. Headers with .000015 [0.00038] gold plated posts are available upon request. Minimums may apply.
3. Gold headers are duplex plated, gold on mating end of post and tin on the solder tail.

For mateability options, see matrix on pages 12 and 13.

For mating half visuals, see page 31.

### Header Ordering Information

The “Base Part Numbers” Chart at right shows the base part number and number of posts available for the described headers.

Prefixes and suffixes are determined by the number of post positions in the header. For example, the complete part number for a 10-position header with straight posts and with pegs would be:

Base number **644893** plus prefix-and-suffix **4- -0**

The correct ordering number is **4-644893-0**

All part numbers are the RoHS equivalent version. Example:

| No. of Pos. | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------------|
| 2           | 3-644893-2                   |
|             | thru                         |
| 14          | 4-644893-4                   |

See page 15 for an explanation of RoHS lead free equivalents.

**Note:** All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

**Note:**

CST-100 II shrouded headers **only mate** with CST-100 II housings. All the MTA-100 headers except the MTA-100 shrouded headers mate with CST-100 II housings.

### Straight Post (.025 [0.64] Square)

**Polarized Retention Peg**

**Recommended Mounting Hole Pattern for .062 [1.57] Thk. PC Board (Solder Side of Board Shown)**

### Right-Angle (.025 [0.64] Square)

**Note:** Consult Product Drawing for details on placing headers onto PC boards.

**Recommended Mounting Hole Pattern for .062 [1.57] Thk. PC Board (Solder Side of Board Shown)**

### Base Part Numbers

| Straight Posts   |                           |                  |                           | Right-Angle Posts Without Pegs Only |                           |
|--|---------------------------|------------------|---------------------------|-------------------------------------|---------------------------|

CST-100 II  
.100 [2.54]

## .156 [3.96] Centerline MTA-156 IDC Connectors and Headers

### Product Facts

- Connectors and headers for 2 through 24 positions; wire sizes of 18, 20, 22, 24 and 26 AWG [0.9–0.12 mm<sup>2</sup>]
- Connectors and headers, except shrouded headers, are end-to-end stackable
- Quad Connectors for higher current rating (page 54)
- Posted connectors for 2, 3, 4, 6, 9, 12, 15 and 24 positions
- Card edge connectors for 3, 6, 9, 12, 15, 18 and 20 through 24 positions
- Connectors preloaded with IDC contacts
- All contacts are slotted for insulation displacement (IDC) termination technique
- Connector styles include both closed end and feed-thru, with and without locking ramps and polarizing tabs
- Molded ribs on housing do not allow reverse mating
- Contacts are lubricated for fretting corrosion protection
- Benefits derived from the MTA-156 system include increases quality and ease of handling such as —
  - One-step assembly
  - No wire stripping
  - No contact damage
  - Reduced wiring errors
  - Simpler tooling
  - Simple maintenance and repair
- Meets the material requirements of Table 23.1 of UL 1410 Standards for Television Receiver and Video Products (wire-to-post connectors only)
- Recognized under the Component Program of Underwriters Laboratories Inc.,  File No. E28476
- Certified by Canadian Standards Association,  File No. LR7189

MTA-156 connectors accept discrete and ribbon cable wire sizes ranging from 18–26 AWG [0.9–0.12 mm<sup>2</sup>] with maximum insulation outside diameter .095 [2.41] for single wire and .070 [1.78] for mass termination of wires. Tin plated solid, fused stranded or stranded (7, 16, and 19 strands) wire with PVC insulation can be used on 18 AWG [0.8–0.9 mm<sup>2</sup>] MTA-156 connectors; 7, 10, and 19 stranded wire on 20 AWG [0.5–0.6 mm<sup>2</sup>] MTA-156 connectors; and 7 and 19 stranded wire on 22–26 AWG [0.4–0.12 mm<sup>2</sup>] MTA-156 connectors.

Only one wire to be terminated into an IDC contact slot.

Mass termination of wire provides the lowest applied cost because it drastically reduces the labor content of virtually any cable or harness assembly required.

The wire-to-post connector housing material is flame retardant thermoplastic, either UL94V-2 or UL94V-0 rated.

A full line of .156 [3.96] centerline headers completes the system. Headers are available with straight or right-angle posts, in flat friction lock and shrouded styles. Headers are available in 2 through 24 positions.

**Note:** Refer to page 70 for approved wire listings.

### Performance Data\*

**Voltage Rating**—600 vac

**Current Rating**—  
7 amp max. for MTA-156 Connector

**Low-Level Resistance**—  
3.0 mΩ max. initial

**Dielectric Withstanding Voltage**—  
2200 vac/1 min.

**Insulation Resistance**—  
5000 MΩ min. initial

**Operating Temperature**—  
–55° C to +105° C

\*Refer to the Product Specification for additional electrical, mechanical and environmental performance tests and requirements.

### Technical Documents

#### Product Specification

108-1051 MTA-156 Connectors

#### Application Specifications

114-1020 MTA-156 Connectors, Posted Connectors and Card Edge Connectors

114-1032 MTA-156 Ribbon Cable Assembly

**MTA-156 IDC Connectors—Closed End**

**Material and Finish**

**Housing** — UL94V-2 rated, nylon, see below for color; or UL94V-0 rated, nylon, black

**Contacts** — Phosphor bronze, post tin plated, .000030 [0.00076] or .000015 [.00038] post gold plated over nickel

**Color Coding by Wire Size for UL94V-2 Connectors**

- 26 AWG — Blue
- 24 AWG — White
- 22 AWG — Red
- 20 AWG — Yellow
- 18 AWG — Orange

**All Wire Sizes in UL94V-0** — Black

**Notes:**

1. Only connectors with locking ramp and without polarizing tabs mate with posted connectors on page 45.
2. Refer to pages 70 thru 74 for approved wire listing.
3. For strain reliefs and dust covers, see pages 40 and 41.
4. For keying plugs and panel mount end caps, see page 42.
5. Other circuit sizes are available upon request. Minimums may apply.
6. Connector circuits can be molded closed for keying purposes. Minimums may apply.
7. Where no part numbers appear in the chart, parts can be made available upon request. Minimums may apply.
8. To determine connector overall length (Dim. A), multiply .156 x the number of circuits. Example: .156 x 10 circuits equals 1.560 inches [39.62 mm].

**Closed End with Locking Ramp**

without Polarizing Tabs

with Polarizing Tabs

For mateability options, see matrix on pages 34 and 35.

### Connector Ordering Information

The “Base Part Numbers” Chart at right shows the base part number and number of circuits available for the described connectors.

Prefixes and suffixes are determined by the number of circuit positions in the connector. For example, the complete part number for a 10-position closed end connector with locking ramp and without polarizing tabs for 18 AWG wire would be:

Base number **640426** plus prefix-and-suffix

**4- -0**

The correct ordering number is

**4-640426-0**

All part numbers in **bold face** are the RoHS equivalent version. Example:

| No. of Pos. | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------------|
| 2           | 3-640426-2                   |
| 3           | 3-640426-3                   |
| 4           | 3-640426-4                   |
| 5           | 3-640426-5                   |
| 6           | 3-640426-6                   |
| 7           | 3-640426-7                   |
| 8           | 3-640426-8                   |
| 9           | 3-640426-9                   |
| 10          | 4-640426-0                   |
| 11          | 4-640426-1                   |
| 12          | 4-640426-2                   |
| 13          | 4-640426-3                   |
| 14          | 4-640426-4                   |
| 15          | 4-640426-5                   |
| 16          | 4-640426-6                   |
| 17          | 4-640426-7                   |
| 18          | 4-640426-8                   |
| 19          | 4-640426-9                   |
| 20          | 5-640426-0                   |
| 21          | 5-640426-1                   |
| 22          | 5-640426-2                   |
| 23          | 5-640426-3                   |
| 24          | 5-640426-4                   |

**Note:** All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

<sup>1</sup> Other circuit sizes are available upon request. Minimums may apply.

**Note:** Blocked circuit configurations are available upon request. Contact product engineer or product manager for details. Minimums may apply.

**MTA-156 IDC Connectors—Feed-Thru**

**Material and Finish**

**Housing** — UL94V-2 rated, nylon, see below for color; or UL94V-0 rated, nylon, black

**Contacts** — Phosphor bronze; post tin plated, .000030 [.00076] or .000015 [.00038] post gold plated over nickel

**Color Coding by Wire Size for UL94V-2 Connectors**

- 26 AWG — Blue
- 24 AWG — White
- 22 AWG — Red
- 20 AWG — Yellow
- 18 AWG — Orange

**All Wire Sizes in UL94V-0** — Black

**Notes:**

1. Only connectors with locking ramp and without polarizing tabs mate with posted connectors on page 45.
2. Refer to pages 70 thru 74 for approved wire listing.
3. For strain reliefs and dust covers, see pages 40 and 41.
4. For keying plugs and panel mount end caps, see page 42.
5. Other circuit sizes are available upon request. Minimums may apply.
6. Connector circuits can be molded closed for keying purposes. Minimums may apply.
7. Where no part numbers appear in the chart, parts can be made available upon request. Minimums may apply.
8. To determine connector overall length (Dim. A), multiply .156 x the number of circuits. Example: .156 x 10 circuits equals 1.560 inches [39.62 mm].

**Feed-Thru with Locking Ramp**

without Polarizing Tabs

with Polarizing Tabs

For mateability options, see matrix on pages 34 and 35.

Mating half visuals for Feed-Thru Connectors with Locking Ramp, see pages 45 thru 48, 50, 52, and 53, (49 and 51 Front Bend Headers Only).

**Feed-Thru without Locking Ramp**

without Polarizing Tabs

with Polarizing Tabs

For mateability options, see matrix on pages 34 and 35.

Mating half visuals for Feed-Thru Connectors without Locking Ramp, see pages 46 thru 53.

## MTA-156 IDC Connectors—Feed-Thru (Continued)

### Connector Ordering Information

The “Base Part Numbers” Chart at right shows the base part number and number of circuits available for the described connectors.

Prefixes and suffixes are determined by the number of circuit positions in the connector. For example, the complete part number for a 10-position feed-thru connector with locking ramp and without polarizing tabs for 18 AWG wire would be:

Base number **640599** plus  
prefix-and-suffix  
**4- -0**

The correct ordering number is

**4-640599-0**

The part numbers in **bold face** are the RoHS equivalent version. Example:

| No. of Pos. | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------------|
| 2           | 3-640599-2                   |
| 3           | 3-640599-3                   |
| 4           | 3-640599-4                   |
| 5           | 3-640599-5                   |

**Cover Ordering Information**

The “Base Part Numbers” Chart at right shows the base part number and number of circuits available for the described cover.

Prefixes and suffixes are determined by the number of circuit positions in the cover. For example, the complete part number for a 10-position closed-end strain relief cover would be:

Base number **643067** plus prefix-and-suffix

**1 — -0**

The correct ordering number is

**1-643067-0**

**Cover Length**

| No. of Circuits | Dim. A         | Prefix/Suffix |
|-----------------|----------------|---------------|
| 2               | .312<br>7.92   | -2            |

## MTA-156 Connector Accessories (Continued)

### Replacement IDC Contacts

#### Material and Finish

**Contacts** — Phosphor bronze, post tin plated; .000030 [0.00076] or .000015 [0.00038] post gold plated over nickel

**Note:** Tyco Electronics does not recommend terminating an MTA contact more than one time. Use replacement contacts when required for field repairs or wire changes.

### Crimp Snap-in Contacts

#### Material and Finish

**Contacts** — Phosphor bronze, tin plated

| Wire Size |                 | Part Nos.    |          |
|-----------|-----------------|--------------|----------|
| AWG       | mm <sup>2</sup> | Loose Piece* | Strip**  |
| 26–22     | .12–0.3         | 640557-3     | 640556-3 |
| 22–18     | 0.3–0.9         | 640559-3     | 640558-3 |

\*Hand Tool No. 59837-1 (408-6528)  
\*\*AMP-O-LECTRIC Model "G" Termination Machine (Request Catalog 65828)  
**Note:** Requires applicator. For part number, call Technical Support.

Special applications for crimp snap-in contacts are:

1. Double wire per contact
2. Coax or shielded wire
3. Mixed wire size in same connector

**Note:** Only one crimp snap-in contact per connector.

**MTA-156 Connector Accessories** (Continued)

**Keying Plugs**

**Material (RoHS Compliant)**

UL94V-2 rated, nylon, natural color

**Note:** Removal of contact is not necessary when using keying plug.

**Loose Piece**

**Part No. 640629-1 (Flush)**  
Used with keyed headers

**On Carrier Strip**

**Part No. 641623-1 (Flush)**  
(10 per strip)

**Part No. 640630-1 (Long Nose)**  
Used with staked post

**Panel Mount End Caps**

**Part No. 641440-1**  
**Part No. 641533-1**  
(2-position only)

**Material (RoHS Compliant)**

UL94V-2 rated, nylon, black

**Notes:**

- Both left-hand and right-hand end caps are attached by a connecting tab. This tab must be broken off prior to installing on connector.
- For best results attach panel mount end caps to the MTA-156 (IDC) connectors shown on pages 36 thru 39. While not preferred, panel mount end caps can be attached to MTA-156 (IDC) posted connector on page 45.

**3- thru 24-Position**  
**641440-1**  
See Note 1

**Two-Position Only**  
**641533-1**

| No. of Pos. | Dim. A         |
|-------------|----------------|
| 3           | .736<br>18.69  |

.156 [3.96]

## MTA-156 Posted Connector/Connector Mateability Guide

### Matrix for Tin Plated Part Numbers

This matrix has been prepared to assist you, our customer, in defining the correct mating halves for the MTA-156 posted connector and connector combination. Where a "Y" is indicated the combination is a valid mating pair. Where an "N" is indicated the combination is not acceptable for mating.

| Connectors | Posted Connectors |        |        |        |        |        |        |        |        |        |
|------------|-------------------|--------|--------|--------|--------|--------|--------|--------|--------|--------|
|            | 641436            | 641436 | 641437 | 641438 | 641439 | 641522 | 641523 | 641524 | 641525 | 641526 |

MTA-156  
.156 [3.96]

### MTA-156 Posted Connector/Connector Mateability Guide (Continued)

This matrix has been prepared to assist you, our customer, in defining the correct mating halves for the MTA-156 posted connector and connector combination. Where a "Y" is indicated the combination is a valid mating pair. Where an "N" is indicated the combination is not acceptable for mating.

**Matrix for .000030

Connectors

MTA-156  
.156 [3.96]

**MTA-156 IDC Posted Connectors (Wire-to-Wire)—Closed End, Feed-Thru**

**Material and Finish**

**Housing** — UL 94V-2 rated, nylon, see chart for color

**Contacts** — Copper alloy, post tin or .000030 [.00076] gold plated over nickel

**Notes:**

1. Mating half visuals - pages 36 thru 39.
2. Strain relief & dust covers - pages 40 & 41.
3. Approved wire listing - page 70.

**Connector Ordering Information**

The "Base Part Numbers" Chart at right shows the base part number and number of circuits available for the described connectors.

Prefixes and suffixes are determined by the number of circuit positions in the connector. For example, the complete part number for a 12-position closed end connector for 18 AWG wire would be:

Base number **641435** plus prefix-and-suffix **4- -2**

The correct ordering number is **4-641435-2**

See page 15 for an explanation of RoHS lead free equivalents.

**Note:** All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

**Color Coding by Wire Size for UL 94V-2 Connectors**

- 18 AWG — Orange
- 20 AWG — Yellow
- 22 AWG — Red
- 24 AWG — White
- 26 AWG — Blue

**Performance Data**

**Voltage Rating** — 600 VAC

**Current Rating** — 7 amp max.

**Low-Level Resistance** — 7 mΩ max. initial

**Dielectric Withstanding Voltage** — 1500 VAC/1 min.

**Insulation Resistance** — 5000 MΩ min. initial

**Operating Temperature** — -55° C to +105° C

**Base Part Numbers**

## MTA-156 Flat Headers—Straight

### Material and Finish

**Housing**—UL94V-0 rated, polyester, white

**Posts**—Copper alloy, tin plated, .000030 [0.00076] or .000015 [0.00038] gold over nickel

**Notes:**

1. Post(s) can be omitted for keying purposes. Specify the desired post(s) to be omitted using the figure to identify Post No. 1.
2. Gold headers are duplex plated, gold on mating end of post and tin on the solder tail.
3. .125 [3.18] solder tail lengths are for .062 [1.57] thick printed circuit boards and .175 [4.45] solder tail lengths are for .093-.125 [2.36-3.18] thick printed circuit boards.
4. To determine header overall length (Dim. A), multiply .156 x the number of posts. Example: .156 x 10 posts equals 1.560 inches [39.62 mm].

For mateability options, see matrix on pages 34, 35, 54 and 58.

For mating half visuals, see pages 36 thru 39, 55, 60 and 62.

| PC Board Hole Diameters  |                          |
|--------------------------|--------------------------|
| Square Post              | Round Post               |
| .080/.070<br>[2.03/1.78] | .070/.060<br>[1.78/1.52] |

Recommended Mounting Hole Pattern for .062 [1.57] Thk. PC Board

### Header Ordering Information

The "Base Part Numbers" Chart at right shows the base part number and number of posts available for the described headers.

Prefixes and suffixes are determined by the number of post positions in the header. For example, the complete part number for a 10-position header with square posts and a .125 [3.18] solder tail length would be:

Base number **640383** plus prefix-and-suffix **4- -0**

The correct ordering number is **4-640383-0**

The part numbers in **bold face** are the RoHS equivalent version. Example:

| No. of Pos. | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------------|
| 2           | 3-640383-2                   |
|             | thru                         |
| 24          | 5-640383-4                   |

See page 15 for an explanation of RoHS lead free equivalents.

**Note:** All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

**Note:** Consult Product Drawing for details on placing headers onto PC boards.

### Base Part Numbers

| Square Posts   |             |                         |             | Round Posts             |             |                         |             |
|--|-------------|-------------------------|-------------|-------------------------|-------------|-------------------------|-------------|
| .125 [3.18] Solder tail                                |             | .175 [4.45] Solder tail |             | .125 [3.18] Solder tail |             | .175 [4.45] Solder tail |             |
| Header Part Nos.                                       | RoHS Equiv. | Header Part Nos.        | RoHS Equiv. | Header Part Nos.        | RoHS Equiv. | Header Part Nos.        | RoHS Equiv. |
| <b>Standard UL94V-0, Tin Plated</b>                    |             |                         |             |                         |             |                         |             |
| 640383   | 2-24        | 644749                  | 2-24        | 640384                  | 2-24        | 644750                  | 2-24        |
| <b>Standard UL94V-0, .000030 [0.00076] Gold Plated</b> |             |                         |             |                         |             |                         |             |
| 641202   | 32-54       | 644756                  | 32-54       | 641203                  | 32-54       | 644757                  | 32-54       |
| <b>Standard UL94V-0, .000015 [0.00038] Gold Plated</b> |             |                         |             |                         |             |                         |             |
| 641113   | 32-54       | 644763                  | 32-54       | 641114                  | 32-54       | 644764                  | 32-54       |

**Note:**

Select load headers (omitted pin headers) are available upon request. Please contact product engineer or product manager for details.

MTA-156  
.156 [3.96]

**MTA-156 Flat Headers—Right-Angle**

**Material and Finish**

**Housing**—UL94V-0 rated, polyester, white

**Posts**—Copper alloy, tin plated, .000030 [0.00076] or .000015 [0.00038] gold over nickel

**Notes:**

1. Post(s) can be omitted for keying purposes. Specify the desired post(s) to be omitted using the figure to identify Post No. 1.
2. Gold headers are duplex plated, gold on mating end of post and tin on the solder tail.
3. .125 [3.18] solder tail lengths are for .062 [1.57] thick printed circuit boards and .175 [4.45] solder tail lengths are for .093-.125 [2.36-3.18] thick printed circuit boards.
4. To determine header overall length (Dim. A), multiply .156 x the number of posts. Example: .156 x 10 posts equals 1.560 inches [39.62 mm].

For mateability options, see matrix on pages 34, 35, 54 and 58.

For mating half visuals, see pages 36 thru 39, 55, 60 and 62.

**Header Ordering Information**

The "Base Part Numbers" Chart at right shows the base part number and number of posts available for the described headers.

Prefixes and suffixes are determined by the number of post positions in the header. For example, the complete part number for a 10-position header with square posts and a .125 [3.18] solder tail length would be:

Base number **641204** plus prefix-and-suffix **4- -0**

The correct ordering number is **4-641204-0**

The part numbers in **bold face** are the RoHS equivalent version. Example:

| No. of Pos. | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------------|
| 2           | 3-641204-2                   |
|             | thru                         |
| 24          | 5-641204-4                   |

See page 15 for an explanation of RoHS lead free equivalents.

**Note:** All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

**Recommended Mounting Hole Pattern for .062 [1.57] Thk. PC Board**

X = .140 [3.56] Min., .430 [10.92] Max. when mated with MTA Connector.  
 X = .140 [3.56] Min. when mated with SL-156 Wire-to-Board Connector.

**Note:** Consult Product Drawing for details on placing headers onto PC boards.

**Recommended Mounting Hole Pattern for .063 [1.60] Thk. PC Board for Retentive Leg Header**

Y = .140 [3.56] Min., .430 [10.92] Max. when mated with MTA Connector.

**Base Part Numbers**

| Retentive Leg  |             | Square Posts            |             | Retentive Leg           |             |
|--|-------------|-------------------------|-------------|-------------------------|-------------|
|  |             | .125 [3.18] Solder tail |             | .175 [4.45] Solder tail |             |
| Header Part Nos.                                       | RoHS Equiv. | Header Part Nos.        | RoHS Equiv. | Header Part Nos.        | RoHS Equiv. |
| <b>Standard UL94V-0, Tin Plated</b>                    |             |                         |             |                         |             |
| 647646   | 2-12        | 640385                  | 2-24        | 644751                  | 2-24        |
| <b>Standard UL94V-0, .000030 [0.00076] Gold Plated</b> |             |                         |             |                         |             |
| —  | —           | 641204                  | 32-54       | 644758                  | 32-54       |
| <b>Standard UL94V-0, .000015 [0.00038] Gold Plated</b> |             |                         |             |                         |             |
| —  | —           | 641115                  | 32-54       | 644765                  | 32-54       |

**Note:** Select load headers (omitted pin headers) are available upon request. Please contact product engineer or product manager for details.

**MTA-156 Friction Lock Headers—Straight**

**Material and Finish**

**Housing**—UL94V-0 rated, polyester, white

**Posts**—Copper alloy, tin plated, .000030 [0.00076] or .000015 [0.00038] gold over nickel

**Notes:**

1. Post(s) can be omitted for keying purposes. Specify the desired post(s) to be omitted using the figure to identify Post No. 1.
2. Gold headers are duplex plated, gold on mating end of post and tin on the solder tail.
3. .125 [3.18] solder tail lengths are for .062 [1.57] thick printed circuit boards and .175 [4.45] solder tail lengths are for .093-.125 [2.36-3.18] thick printed circuit boards.
4. To determine header overall length (Dim. A), multiply .156 x the number of posts. Example: .156 x 10 posts equals 1.560 inches [39.62 mm].

For mateability options, see matrix on pages 34, 35, 54 and 58.

For mating half visuals, use connectors with a locking ramp for polarization/retention purposes, see pages 36 thru 39, 55, 60 and 62.

For polarizing purposes only use connectors without a locking ramp. See pages 36 thru 39, 55, 60 and 62.

**Header Ordering Information**

The “Base Part Numbers” Chart at right shows the base part number and number of posts available for the described headers.

Prefixes and suffixes are determined by the number of post positions in the header. For example, the complete part number for a 10-position header with square posts and a .125 [3.18] solder tail length would be: Base number **641208** plus prefix-and-suffix **4- -0**

The correct ordering number is **4-641208-0**

The part numbers in **bold face** are the RoHS equivalent version. Example:

| No. of Pos. | Standard Prefix/Suffix | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------|------------------------------|
| 2           | 641208-2               | 3-641208-2                   |
|             | thru                   |                              |
| 24          | 2-641208-4             | 5-641208-4                   |

See page 15 for an explanation of RoHS lead free equivalents.

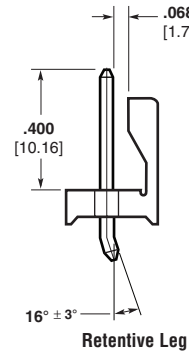

Y = .068 [1.73] Max. 2-8 position tin plated and 2-24 position gold plated headers.

Y = .073 [1.85] 9-24 position tin plated headers.

Recommended Mounting Hole Pattern for .062 [1.57] Thk. PC Board

| PC Board Hole Diameters |                       |
|-------------------------|-----------------------|
| Square Post             | Round Post            |
| .080/.070 [2.03/1.78]   | .070/.060 [1.78/1.52] |

Note: Consult Product Drawing for details on placing headers onto PC boards.

**Base Part Numbers**

| Square Posts   |             |                         |             | Round Posts             |             |                         |             |                         |             |

| <b>Standard UL94V-0, .000030 [0.00076] Gold Plated</b> |             |                         |             |                         |             |                         |             |                         |             |
| —  | —           | 641208                  | 32-54       | 644759                  | 32-54       | 641209                  | 32-54       | 644760                  | 32-54       |
| <b>Standard UL94V-0, .000015 [0.00038] Gold Plated</b> |             |                         |             |                         |             |                         |             |                         |             |
| —  | —           | 641119                  | 32-54       | 644766                  | 32-54       | 641120                  | 32-54       | 644767                  | 32-54       |

Note: All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

**Note:**

Select lead headers (omitted pin headers) and tube loaded product are available upon request. Please contact product engineer or product manager for details.

MTA-156 .156 [3.96]

**MTA-156 Friction Lock Headers—Right-Angle**

**Material and Finish**

**Housing** — UL94V-0 rated, polyester, white

**Posts** — Copper alloy, tin plated, .000030 [0.00076] or .000015 [0.00038] gold over nickel

**Notes:**

1. Post(s) can be omitted for keying purposes. Specify the desired post(s) to be omitted using the figure to identify Post No. 1.
2. Gold headers are duplex plated, gold on mating end of post and tin on the solder tail.
3. .125 [3.18] solder tail lengths are for .062 [1.57] thick printed circuit boards and .175 [4.45] solder tail lengths are for .093-.125 [2.36-3.18] thick printed circuit boards.
4. To determine header overall length (Dim. A), multiply .156 x the number of posts. Example: .156 x 10 posts equals 1.560 inches [39.62 mm].

For mateability options, see matrix on pages 34, 35, 54 and 58.

When using Front Bend Headers—for mating half visuals use connectors with a locking ramp for polarization/retention purposes. When using Rear Bend Headers—for mating half visuals use connectors without a locking ramp. For polarization purposes only see pages 36 thru 39, 55, 60 and 62.

**Recommended Mounting Hole Pattern for .062 [1.57] Thk. PC Board**

Y = .068 [1.73] Max. 2-8 position tin plated and 2-24 position gold plated headers.  
Y = .073 [1.85] 9-24 position tin plated headers.

**Front Bend**  
X = .325 [8.26] Min., .400 [10.16] Max., when mated with MTA Connector.  
X = .325 [8.26] Min., .345 [8.76] Max., when mated with SL-156 Connector.

**Rear Bend**  
X = .500 [12.7] Min., .650 [16.51] Max., when mated with MTA Connector.  
X = .500 [12.7] Min., when mated with SL-156 Connector.

**Header Ordering Information**

The "Base Part Numbers" Chart at right shows the base part number and number of posts available for the described headers.

Prefixes and suffixes are determined by the number of post positions in the header. For example, the complete part number for a 10-position header with square posts, front bend, and a .125 [3.18] solder tail length would be:

Base number **641210** plus prefix-and-suffix **4- -0**

The correct ordering number is **4-641210-0**

The part numbers in **bold face** are the RoHS equivalent version. Example:

| No. of Pos. | Standard Prefix/Suffix | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------|------------------------------|
| 2           | 641210-2               | 3-641210-2                   |
|             | thru                   |                              |
| 24          | 2-641210-4             | 5-641210-4                   |

See page 15 for an explanation of RoHS lead free equivalents.

**Note:** Consult Product Drawing for details on placing headers onto PC boards.

**Base Part Numbers**

| Square Posts   |             |                         |             |                         |             |                         |             |

| 641210   | 32-54       | 644761                  | 32-54       | 641207                  | 32-54       | 644762                  | 32-54       |
| <b>Standard UL94V-0, .000015 [0.00038] Gold Plated</b> |             |                         |             |                         |             |                         |             |
| 641121   | 32-54       | 644768                  | 32-54       | 641118                  | 32-54       | 644769                  | 32-54       |

**Note:** All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

**Note:** Select lead headers (omitted pin headers) are available upon request. Please contact product engineer or product manager for details.

**MTA-156 Polarized Lock Headers—Straight**

**Material and Finish**

**Housing** — UL94V-0 rated, polyester, white

**Posts** — Copper alloy, tin plated or .000030 [0.00076] gold over nickel

**Notes:**

1. Post(s) can be omitted for keying purposes. Specify the desired post(s) to be omitted using the figure to identify Post No. 1.
2. Peg holes are not required in PC Boards when headers without pegs are used.
3. One peg only on a 2 position header, other position sizes have two pegs.
4. Headers with .00015 [0.00038] gold plated post are available upon request. Minimums may apply.
5. To determine header overall length (Dim. A), multiply .156 x the number of posts. Example: .156 x 10 posts equals 1.560 inches [39.62 mm].

For mateability options, see matrix on pages 34, 35, 54 and 58.

For mating half visuals, use connectors with a locking ramp for polarization/retention purposes, see pages 36 thru 39, 55, 60 and 62.

For polarizing purposes only use connectors without a locking ramp. See pages 36 thru 39, 60 and 62.

| PC Board Hole Diameters  |                          |
|--------------------------|--------------------------|
| Square Post              | Round Post               |
| .069/.065<br>[1.75/1.65] | .054/.050<br>[1.37/1.27] |

**Note:** Consult Product Drawing for details on placing headers onto PC boards.

**Header Ordering Information**

The "Base Part Numbers" Chart at right shows the base part number and number of posts available for the described headers.

Prefixes and suffixes are determined by the number of post positions in the header. For example, the complete part number for a 10-position header with square posts with pegs would be:

Base number **644615** plus prefix-and-suffix **4- -0**

The correct ordering number is **4-644615-0**

The part numbers in **bold face** are the RoHS equivalent version. Example:

| No. of Pos. | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------------|
| 2           | 3-644615-2                   |
|             | thru                         |
| 18          | 4-644615-8                   |

See page 15 for an explanation of RoHS lead free equivalents.

**Note:** All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

**Note:** Select load headers (omitted pin headers) are available upon request. Please contact product engineer or product manager for details.

MTA-156  
.156 [3.96]

**MTA-156 Polarized Lock Headers—Right-Angle**

**Material and Finish**

**Housing**—UL94V-0 rated, polyester, white

**Posts**—Copper alloy, tin plated or .000030 [0.00076] gold over nickel

**Notes:**

1. Post(s) can be omitted for keying purposes. Specify the desired post(s) to be omitted using the figure to identify Post No. 1.
2. Peg holes are not required in PC Boards when headers without pegs are used.
3. One peg only on a 2 position header, other position sizes have two pegs.
4. Headers with .00015 [0.00038] gold plated post are available upon request. Minimums may apply.
5. To determine header overall length (Dim. A), multiply .156 x the number of posts. Example: .156 x 10 posts equals 1.560 inches [39.62 mm].

For mateability options, see matrix on pages 34, 35, 54 and 58.

For mating half visuals, use only connectors with a locking ramp for polarization/retention purposes, see pages 36 thru 39, 55, 60 and 62.

For polarizing purposes only use connectors without a locking ramp. See pages 36 thru 39, 60 and 62.

**Recommended Mounting Hole Pattern for .062 [1.57] Thk. PC Board**

**Note:** Consult Product Drawing for details on placing headers onto PC boards.

**Header Ordering Information**

The “Base Part Numbers” Chart at right shows the base part number and number of posts available for the described headers.

Prefixes and suffixes are determined by the number of post positions in the header. For example, the complete part number for a 10-position header with front bend and with pegs would be:

Base number **644617** plus prefix-and-suffix **4- -0**

The correct ordering number is **4-644617-0**

The part numbers in **bold face** are the RoHS equivalent version. Example:

| No. of Pos. | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------------|
| 2           | <b>3-644617-2</b>            |
|             | thru                         |
| 18          | <b>4-644617-8</b>            |

See page 15 for an explanation of RoHS lead free equivalents.

**Base Part Numbers**

| Square Posts   |              |                  |              |                  |              |
|--|--------------|------------------|--------------|------------------|--------------|
| Front Bend   |              |                  |              | Rear Bend        |              |
| Without Pegs   |              | With Pegs        |              | Without Pegs     |              |
| Header Part Nos.                                       | RoHS Equiv.  | Header Part Nos. | RoHS Equiv.  | Header Part Nos. | RoHS Equiv.  |
| <b>Standard UL94V-0, Tin Plated</b>                    |              |                  |              |                  |              |
| 644613   | <b>32-48</b> | 644617           | <b>32-48</b> | 644614           | <b>32-48</b> |
| <b>Standard UL94V-0, .000030 [0.00076] Gold Plated</b> |              |                  |              |                  |              |
| 644629   | <b>32-48</b> | 644633           | <b>32-48</b> | 644630           | <b>32-48</b> |

**Note:** All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

**Note:** Select load headers (omitted pin headers) are available upon request. Please contact product engineer or product manager for details.

MTA-156  
.156 [3.96]

**MTA-156 Friction Lock High Temperature Headers—Straight**

**Material and Finish**

**Housing** — UL94V-0 rated, nylon, black

**Posts** — Copper alloy, tin plated, .000015 [0.00038] gold over nickel

**Temperature** — Maximum Temperature Rating: 280°C

**Notes:**

1. Post(s) can be omitted for keying purposes. Specify the desired post(s) to be omitted using the figure to identify Post No. 1.
2. Gold headers are duplex plated, gold on mating end of post and tin-lead on the solder tail.
3. Headers with straight and right-angle square posts are available upon request. Minimums may apply.
4. To determine header overall length (Dim. A), multiply .156 x the number of posts. Example: .156 x 10 posts equals 1.560 inches [39.62 mm].

For mateability options, see matrix on pages 34, 35, 54 and 58.

For mating half visuals, use connectors with a locking ramp for polarization/retention purposes, see pages 36 thru 39, 55, 60 and 62.

For polarizing purposes only use connectors without a locking ramp. See pages 36 thru 39, 60 and 62.

**Header Ordering Information**

The "Base Part Numbers" Chart at right shows the base part number and number of posts available for the described headers.

Prefixes and suffixes are determined by the number of post positions in the header. For example, the complete part number for a 10-position header with round tin plated posts:

Base number **647648** plus prefix-and-suffix **4- -0**

The correct ordering number is **4-647648-0**

The part numbers in **bold face** are the RoHS equivalent version. Example:

| No. of Pos. | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------------|
| 2           | 3-647648-2                   |
| 12          | 4-647648-2                   |

See page 15 for an explanation of RoHS lead free equivalents.

**Note:** All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

**For use with Infrared Reflow Process**

**Recommended Mounting Hole Pattern for .062 [1.57] Thick PC Board**

**Note:** Consult Product Drawing for details on placing headers onto PC boards.

**Base Part Numbers**

| Round Post   |        |              |
|--|--------|--------------|
| Header Part Nos.                                       |        | RoHS Equiv.  |
| <b>Standard UL94V-0, Tin Plated</b>                    | 647648 | <b>32-42</b> |
| <b>Standard UL94V-0, .000015 [0.00038] Gold Plated</b> | 647649 | <b>32-42</b> |

**Note:**

Select load headers (omitted pin headers) are available upon request. Please contact product engineer or product manager for details.

MTA-156 .156 [3.96]

## MTA-156 Shrouded Headers—Straight and Right-Angle

### Material and Finish

**Housing**—UL94V-0 rated, polyester, black

**Posts**—Copper alloy, tin plated; or .000030 [0.00076] or .000015 [0.00038] gold over nickel

#### Notes:

1. Post(s) can be omitted for keying purposes. Specify the desired post(s) to be omitted using the figure to identify Post No. 1.
2. Gold headers are duplex plated, gold on mating end of post and tin on the solder tail.
3. Peg holes are not required in PC boards when headers without pegs are used.
4. One peg only on a 2 position header, other position sizes have two pegs.
5. Right-angle front and rear bend headers with retention pegs can be made available upon request. Minimums may apply.

For mateability options, see matrix on pages 34, 35, 54 and 58.

For mating half visuals, see pages 36 thru 39 and 55.

### Header Ordering Information

The “Base Part Numbers” Chart at right shows the base part number and number of posts available for the described headers.

Prefixes and suffixes are determined by the number of post positions in the header. For example, the complete part number for a 10-position header with straight, square posts and with pegs would be: Base number **647127** plus prefix-and-suffix **4- -0**

The correct ordering number is **4-647127-0**

| No. of Pos. | Dim. A         | RoHS Prefix/Suffix |
|-------------|----------------|--------------------|
| 2           | .406<br>10.31  | 2--2               |
| 3           | .562<br>14.27  | 2--3               |
| 4           | .718<br>18.24  | 2--4               |
| 5           | .874<br>22.20  | 2--5               |

**Note:** Select load headers (omitted pin headers) are available upon request. Please contact product engineer or product manager for details.

**MTA-156 IDC Quad Connectors**

**Product Facts**

- Provides four points of contact
- Greater current carrying capability than Standard MTA-156 Connectors
- Connector styles include both closed end and feed-thru with locking ramp, with and without polarizing tabs in 2 through 12 positions
- Available for wire ranges of 18–22 AWG [0.9–0.3 mm<sup>2</sup>]
- Contacts are lubricated for fretting corrosion protection
- Complies with Tyco Electronics Quality Specification 102-6, “Preparation of Design Objectives”
- Uses existing MTA application tooling for termination
- Quad connectors preloaded with contacts
- All contacts are slotted for insulation displacement (IDC) termination technique
- Connectors and headers are end-to-end stackable
- AWG size is “frosted” on the side of the connector
- Recognized under the Component Program of Underwriters Laboratories Inc.,  File No. E28476
- Certified by Canadian Standards Association,  File No. LR 7189
- Satisfies the VDE requirements according to VDE 110, Insulation Group B, 250 vac for air and creepage paths

The MTA-156 Quad Connector provides a connection with four points of contact. The UL94V-0 rated connector with multi-point contacts provides greater current carrying capability than the Standard MTA-156 Connector. These connectors comply with Tyco Electronics Quality Specification 102-6\* and satisfy the VDE requirements according to VDE 110.

The connectors are available for wire ranges of 18–22 AWG [0.9–0.3 mm<sup>2</sup>] and in a variety of styles including closed end and feed-thru with locking ramp, with and without polarizing tabs.

Only one wire to be terminated into an IDC contact slot.

\*The 102-6 Quality Specification is the new procedure for “Preparation of Design Objectives”. Its purpose is to provide a means for verifying the maximum current carrying capacity of the device.

**Note:** Refer to pages 70 through 74 for approved wire listings.

**The MTA-156 Quad Connectors only mate with standard MTA-156 square post headers and use existing MTA application tooling for termination.**

**Performance Data**

- Voltage Rating** — 600 vac
- Current Rating** — 12.5 amp max. on a single circuit.
- For Multiple Circuit Loading** — refer to Product Specification for current rating chart.
- Low-Level Resistance** — 3.0 mΩ max. initial
- Dielectric Withstanding Voltage** — 1500 vac/1 min.
- Insulation Resistance** — 5000 MΩ min. initial
- Operating Temperature** — -55° C to +105° C

MTA-156 .156 [3.96]

**MTA-156 IDC Quad Connectors—Closed End and Feed-Thru**

**Closed End with Locking Ramp**

**Feed-Thru with Locking Ramp**

**Material and Finish**

**Housing**—UL94V-0 rated, nylon, black

**Contacts**—High conductivity copper alloy, post tin plated

For mateability options, see matrix on page 54.

For strain relief and dust covers, see pages 40 and 41.

For mating half visuals, see pages 46 thru 48 and 50, 52 and 53, (49 and 51 Front Bend Headers only). **Mates with tin-plated square posts only.**

Refer to pages 70 thru 74 for approved wire listing.

**Note:** To determine connector overall length (Dim. A), multiply .156 x the number of circuits. Example: .156 x 10 circuits equals 1.560 inches [39.62 mm].

**Base Part Numbers**

**Connector Ordering Information**

The "Base Part Numbers" Chart above shows the base part number and number of circuits available for the described connectors.

Prefixes and suffixes are determined by the number of circuit positions in the connector. For example, the complete part number for a 10-position closed end connector with locking ramp and without polarizing tabs for 18 AWG wire would be:

Base number **644329** plus prefix-and-suffix **1- -0**

The correct ordering number is **1-644329-0**

The set of numbers in **bold face** are the RoHS equivalent version of the standard product. Example:

| No. of Pos. | Standard Prefix/Suffix | Lead Free RoHS Prefix/Suffix |
|-------------|------------------------|------------------------------|
| 2           | 644329-2               | <b>3-644329-2</b>            |
| thru        |                        |                              |
| 12          | 1-644329-2             | <b>4-644329-2</b>            |

See page 15 for an explanation of RoHS lead free equivalents.

**Note:** All RoHS equivalent part numbers may not be available upon catalog release. If the number you need is not available, please contact Product Engineering to expedite your request.

**Replacement IDC Contacts**

**Material and Finish**

**Contacts**—High conductivity copper alloy post tin plated

| Wire Size |                 | Part Numbers |
|-----------|-----------------|--------------|
| AWG       | mm <sup>2</sup> |              |
| 18        | 0.8-0.9         | 3-644508-1   |
| 20        | 0.5-0.6         | 3-644509-1   |
| 22        | 0.3-0.4         | 3-644510-1   |

**Note:** Tyco Electronics does not recommend terminating an MTA contact more than one time. Use replacement contacts when required for field repairs or wire gage changes.

MTA-156  
.156 [3.96]

**MTA-156 IDC Card Edge Connectors—Closed End and Feed-Thru**

**Material and Finish**

**Housing**—UL94V-0 rated, polyester, see chart for color

**Contacts**—Phosphor bronze, post tin plated

**Note:** Refer to pages 70 thru 74 for approved wire listings.

**Color Coding by Wire Size for UL94V-0 Connectors**

- 26 AWG — Blue
- 24 AWG — White
- 22 AWG — Red
- 20 AWG — Yellow
- 18 AWG — Orange

**Connector Ordering Information**

The “Base Part Numbers” Chart at right shows the base part number and number of circuits available for the described connectors.

Prefixes and suffixes are determined by the number of circuit positions in the connector. For example, the complete part number for a 12-position closed end connector without mounting ears for 18 AWG wire would be:

Base number **640859** plus prefix-and-suffix **1- -2**

The correct ordering number is **1-640859-2**

See page 15 for an explanation of RoHS lead free equivalents.

**Performance Data**

**Voltage Rating**—600 vac

**Current Rating**—5 amp max.

**Low-Level Resistance**—7 mΩ max. initial

**Dielectric Withstanding Voltage**—1250 vac/1 min.

**Insulation Resistance**—5000 MΩ min. initial

**Operating Temperature**—-55° C to +105° C

MTA-156  
.156 [3.96]

## MTA-156 IDC Card Edge Accessories

### Dust Cover

#### Material (RoHS Compliant)

UL94V-0 rated, polyester, white

Cover is for both Closed End and Feed-Thru connectors

#### Cover Ordering Information

The "Base Part Numbers" Chart at right shows the base part number and number of circuits available for the described cover.

Prefixes and suffixes are determined by the number of circuit positions in the cover. For example, the complete part number for a 12-position dust cover would be:

Base number **641106** plus prefix-and-suffix

**1- — -2**

The correct ordering number is

**1-641106-2**

#### Base Part Number

| Cover Part No. | No. of Circuits            |
|----------------|----------------------------|
| 641106         | 3, 6, 9, 12, 15, 18, 20-24 |

| No. of Circuits | Dim. A                | Prefix/Suffix |
|-----------------|-----------------------|---------------|

### Replacement IDC Contacts

#### Material and Finish

Phosphor bronze; post tin plated

#### Part Numbers

- 3-640991-1 (18 AWG [0.8-0.9 mm<sup>2</sup>])
- 3-640992-1 (20 AWG [0.5-0.6 mm<sup>2</sup>])
- 3-640993-1 (22 AWG [0.3-0.4 mm<sup>2</sup>])
- 3-640994-1 (24 AWG [0.2 mm<sup>2</sup>])
- 3-640995-1 (26 AWG [0.12-0.15 mm<sup>2</sup>])

### Locking Plugs

#### Material (RoHS Compliant)

UL94V-2 rated, nylon, white

Part Number 641101-1

**Note:** Contact must be removed to install locking plug.

#### Material (RoHS Compliant)

UL94V-2 rated, nylon, white

Part Number 641293-1

**Note:** Contact can remain during locking plug installation.

**.156 [3.96] Centerline SL-156 Crimp Contacts and Housings**

**Product Facts**

- Rugged wire-to-board interconnection to mate with .045 square or round post headers or staked posts on .156 centers
- Standard Connectors accept wire range of 18–24 AWG [0.9–0.2 mm<sup>2</sup>] and LID Connectors accept wire range of 18–24 AWG [0.9–0.2 mm<sup>2</sup>] and a limited 16 AWG [1.29–1.42 mm<sup>2</sup>] (2550–2800 CMA)
- Two-piece interconnection system (connector/header)
- Housing made of flame retardant nylon
- Available in 1- through 24-position connector configurations
- Connectors are end-to-end stackable
- Wire-to-board system offers polarization with friction lock for positive mating
- Meets the material requirements of Table 23.1 of UL1410 Standard for High-Voltage Television Receivers and Video Productions
- Recognized under the Component Program of Underwriters Laboratories Inc., File No. E28476
- Certified by Canadian Standards Association, File No. LR7189

**Technical Documents**

**Product Specification**  
108-1049, 108-1049-1, 108-1049-2

**Application Specification**  
114-1021

The AMP SL-156 connectors shown on the following pages are designed to mate with .045 [1.14] square or round post headers or staked posts on .156 [3.96] centers.

The wire-to-board connector is a two-piece connector system with the wire crimped to the contact, then inserted into the housing. This product mates with the MTA-156 flat, polarized and friction lock header, or staked posts (not MTA-156 shrouded headers).

**Performance Data**

- Voltage Rating** — 250 vac
- Current Rating** — 10 amp max. at 250 vac
- Low-Level Resistance** — 3.0 mΩ max. initial
- Dielectric Withstanding Voltage** — 2000 vac/1 min.
- Insulation Resistance** — 1000 MΩ min. initial
- Operating Temperature** — -55° C to +105° C

The Large Insulation Diameter (LID) Contacts and Housings are for use in applications where wire insulation is up to .112 [2.84] in diameter.

These matrixes represent only the housing and header combinations. You also need to consider the plating on the contacts and headers. Gold contacts with gold headers and tin contacts with tin headers.

## SL-156 Crimp Contacts and Keying Plugs

### Contacts

#### Material and Finish

.012 [0.3] bright tin plated brass or phosphor bronze; .012 [0.3] pre-tin brass; or .012 [0.3] brass or phosphor bronze with .000030 [0.00076] gold over nickel (see chart)

- All tin-plated contacts are post lubricated to resist fretting corrosion
- Maximum insulation diameter is .105 [2.67]
- Wire range is 18-30 AWG [0.9-0.06 mm<sup>2</sup>]

#### Application Note

Part No. 640252 has a higher mating and unmating force than Part No. 350980 and is recommended to be used only in housings with 1 through 12 positions.

Part No. 350980 can be used in any size housing but is recommended to be used in housings with 13 through 24 positions.

Part No. 770476 is recommended for use in any size housing. Its mating force is similar to Part No. 350980 while unmating force is similar to 640252.

For housings, see pages 60 and 61.

### Keying Plugs

#### Material (RoHS Compliant)

UL94V-2 rated, nylon, natural color

## SL-156 Housings—Wire-to-Board

### Housings

#### Material (RoHS Compliant)

UL94V-0 rated, nylon, white

#### Notes:

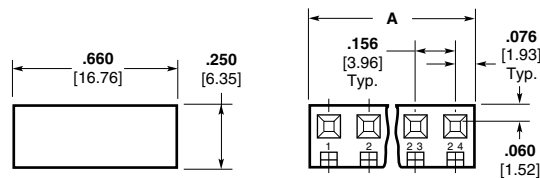

1. Accepts either .045 [1.14] square or round posts. Housings mate with flat and friction lock headers, or staked posts on .156 [3.96] centers.
2. Housings without ramp, with polarizing tab, available upon request. Minimums may apply.
3. Recommend contact:  
Part No. 640252 for 1 thru 12 positions; Part No. 350980 for 13 thru 24 positions; Part No. 770476 for 1 thru 24 positions.

(A) With Locking Ramp/With Polarizing Tabs

(B) With Locking Ramp/Without Polarizing Tabs

(C) Without Locking Ramp/Without Polarizing Tabs

Note: Dim. A = 0.156 × (No. of Positions - 1) + 0.152

For contacts, see page 59.

For mateability options, see matrix on page 58.

For mating half visuals, for connectors with locking ramp, see pages 46, 47, 48, 50 and 52, (49 and 51 Front Bend Headers only.)

For mating half visuals, for connectors without locking ramp, see pages 46 thru 52.

| No. of Positions* | Housing | Description                                   | Part Numbers* |
|-------------------|---------|---|---------------|
| 2-24              | A       | With Locking Ramp and Polarizing Tabs         | 770849        |
| 1-24              | B       | With Locking Ramp and without Polarizing Tabs | 640250        |
|                   | C       | Without Locking Ramp or Polarizing Tabs       | 640251        |

\*Base Part Number Prefixes and Suffixes indicate number of contact positions, e.g. 2 Position = 0-xxxxxx-2 and 12 Position = 1-xxxxxx-2.

Note: Housings not for use with LID Contacts. Shown on page 62.

SL-156  
.156 [3.96]

## SL-156 Housings With Through Board Latch

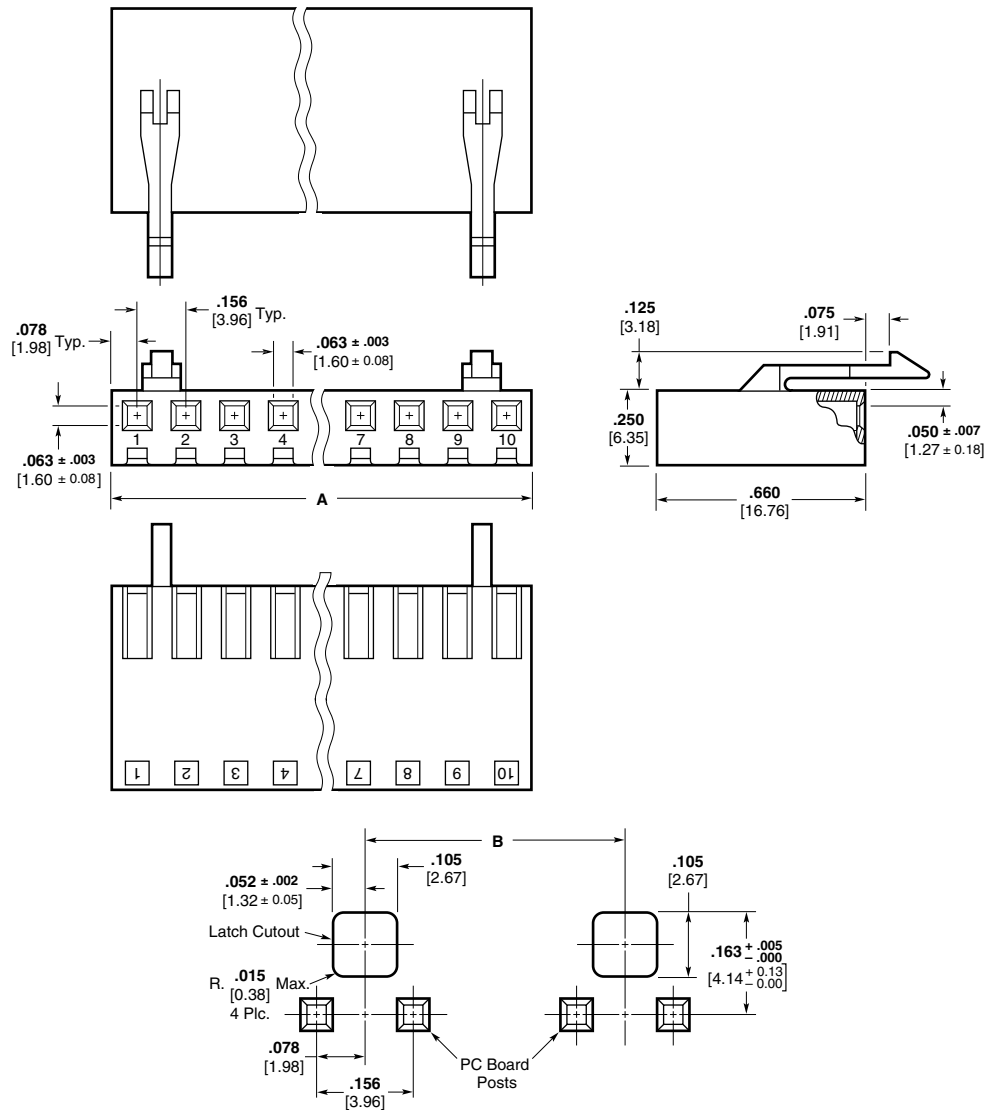

### Housings

#### Material (RoHS Compliant)

UL94V-2 rated, nylon, white

Mates with .045 square or  
round staked posts only.

For contacts, see page 59

## SL-156 Housings and Contacts for Large Insulation Diameter (LID) Wire

### Housings

#### Material (RoHS Compliant)

UL 94V-0 rated, nylon, white

#### Notes:

1. Accepts Standard and LID contacts.
2. Larger opening in housings eases contact insertion when using wires that have large insulation diameters (.100-.112 [2.54-2.84]).
3. Housings are not End-to-End stackable.

For mateability options, see matrix on page 58.

For mating half visuals, for connectors with locking ramp, see pages 46, 47, 48, 50 and 52, (49 and 51 Front Bend Headers only.)

For mating half visuals, for connectors without locking ramp, see pages 46 thru 52.

Note: Dim. A = 0.156 × (No. of Positions – 1) + 0.19

| No. of Positions* | Description                                   | Part Numbers*                                   |
|-------------------|---|---|
|                   |   | Housings with Larger Openings for Oversize Wire |
| 1-24              | Without Locking Ramp or Polarizing Tabs       | 647400  |
|                   | With Locking Ramp and without Polarizing Tabs | 647401 (shown above)                            |
| 2-24              | With Locking Ramp and Polarizing Tabs         | 647402  |

\*Base Part Number Prefixes and Suffixes indicate number of contact positions, e.g. 2 Position = 0-xxxxx-2 and 12 Position = 1-xxxxx-2.

### Contacts

#### Material and Finish

.012 [0.3] bright tin plated phosphor bronze; .012 [0.3] phosphor bronze with .000030 [0.00076] gold over nickel (see chart)

- All tin-plated contacts are post lubricated to resist fretting corrosion
- Maximum insulation diameter is .112 [2.85]
- Wire range is 18-24 AWG [0.9-0.2 mm<sup>2</sup>] and a limited 16 AWG [1.29-1.42 mm<sup>2</sup>] (2550-2800 CMA)

Hooded (Dual Wipe)  
(10 Amp Max. Current Rating)

## AMP Economy Power (EP) Wire-to-Board Connector System

### Product Facts

- .156 [3.96], .200 [5.08] and .312 [7.92] centerline
- Wire-to-board connectors comprised of plug housings, receptacle contacts for discrete wire, and mating post headers
- Hooded contact designed to accept wire with insulation diameters up to .118 [3.00]
- Positive locking feature built into header back wall
- Locking mechanism on connector housing maximizes retention
- Number of positions: 1 to 11 for .156 [3.96] centerline; 2 to 12 for .200 [5.08] centerline; and 2 to 5 for .312 [7.92] centerline
- Straight, through-hole headers
- Positive latch design for easier mating and unmating
- Polarization tabs help prevent post misalignment and mismatching
- Low-profile mating height of .641 [16.3] for 2 to 11 positions
- Straight headers are end-to-end stackable to conserve PCB space
- Header packaging: bulk pack and tube loaded
- Plug housings and post headers intermateable with JST VH connectors
- Directive 2002/95/EC (RoHS Compliant)
- Recognized under the Component Program of Underwriters Laboratories Inc., File No. E28476 
- Certified by Canadian Standards Association, File No. LR 7189 

### Applications

- Household appliances, garage door openers, power supplies, power connections, or other areas requiring additional connector retention

AMP Economy Power (EP) Connectors are designed for secondary power circuit applications. They consist of wire-to-pc board plug housings (for receptacle contacts) and mating post headers. Three contact centerline spacings are available: .156 [3.96], .200 [5.08] and .312 [7.92].

During mating, the positive locking lever on the outside of the plug housing engages the mating header housing to provide for greater retention. This helps maintain reliable connections, when other non-locking type connectors could vibrate apart. This same locking lever must be depressed to unmate the connectors.

The locking mechanism is also located high enough to help avoid interference with pc board clear plastic coating (potting), which is a common treatment for many home appliances.

Headers with .156 [3.96] centerline are offered in 2 through 11 positions; 2 through 12 positions for .200 [5.08] centerline; and .312 [7.92] centerline are available in 2 through 5 positions. Both versions are provided in bulk pack or in tubes for automatic machines.

The slim, straight, post headers are stackable end-to-end for greater flexibility when designing pc board configurations.

The mating height of a low-profile plug and vertical header is .642 [16.3]; even the 1-position high-profile style measures only .732 [18.6] above the pc board. Compact dimensions like these are well suited for most applications in confined spaces.

### Performance Characteristics

**Voltage Rating** — 250 VAC

**Current Rating** — 7.5 amp max. (2 to 11 pos.), 8 amp max. (1 pos.)

**Low Level Overall Resistance**—  
Initial — 10 mΩ max.

Final — 20 mΩ max.

**Dielectric Withstanding Voltage** —  
1.5 kV AC, 1 min.

**Insulation Resistance** —

Initial — 1000 MΩ min.

Final — 500 MΩ min.

**Durability** — 50 mating and unmating cycles

**Operating Temperature** — -13°F to +221°F [-25°C to +105°C]

**Wire Size Range** — 18-22 AWG  
[0.89-0.30 mm<sup>2</sup>]

**Insulation Diameter** — .118 [3.00] max.

## MTA Wire Selection

Proper wire selection is critical to the success of a wire-to-board application. The chart identifies wires that have been evaluated and approved by the product engineering section. If you plan to use a wire not on the approved list, please submit a sample 12" length of wire to Tyco Electronics for evaluation.

### AWG Metric Equivalents

18—0.8—0.9 mm<sup>2</sup>  
20—0.5—0.6 mm<sup>2</sup>  
22—0.3—0.4 mm<sup>2</sup>  
24—0.2 mm<sup>2</sup>

| UL 1430 Irradiated PVC—X.L.P.V.C.        | .015" [0.381] | 18, 20, 22, 24    |
| UL 1569 PVC                              | .015" [0.381] | 18                |
| UL 3265 Irradiated Polyethylene—X.L.P.E. | .010" [0.254] | 22                |
| UL 3266 Irradiated Polyethylene—X.L.P.E. | .015" [0.381] | 18, 20, 22, 24    |

**Note:** When selecting approved wire styles noted on this list, the MTA Application Specifications guidelines must be followed. Also, due to wire variations in insulation wall thickness, hardness and wire stranding we would recommend evaluating the wire selected before final application approval.

### MTA-100 Ribbon Cable Preparation

### MTA-156 Ribbon Cable Preparation

† The dimensions shown represent the recommended minimum and maximum for notches; the actual dimension will depend on your application requirements.

#### Notes:

- Cable shall be notched, as indicated in the individual ribbon cable connector assembly drawing, according to the requirements specified in these figures. Conductor shall not be exposed after notching, nor shall individual wire stands be cut or nicked.
- U.L. Style #2651 ribbon cable is approved for use with MTA-100 and MTA-156 connectors per Application Specification 114-1031 and 114-1032.

### Ribbon Cable

#### Cable Edge-to-End Alignment

(Ends of the cable shall be prepared as indicated in this figure)

## IDC Ribbon Cable

### Product Facts

- Compatible with a variety of Insulation Displacement Connectors
- Available on .025 [0.63], .0394 [1.00], .050 [1.27], .100 [2.54] and .156 [3.96] centerline
- Color code edge mark on conductor #1
- Gray flame retardant flexible PVC insulation
- Insulation rated for temperature of -20°C to +105°C
- Recognized under the Component Program of Underwriters Laboratories Inc.,  
File No. E53793 

Tyco Electronics Corporation has an expanding array of MADISON CABLE planar PVC insulated product designed for compatibility with a variety of Insulation Displacement Connectors. AMP IDC terminations offer a quick, reliable, cost-effective cabling system which can be automated.

The .100 [2.54] centerline cable is available in 28 to 22 AWG, either as tinned or as overcoated tinned wire, in 2 to 28 conductors.

The .156 [3.96] centerline is available in 22 AWG and 18 AWG, either as tinned or overcoated tinned, in 2 to 24 conductors.

IDC Ribbon Cable is produced to tighter standards than usually required for high yield insulation displacement terminations. The extra precision offers uncomplicated operation in fully automatic stripping, notching and termination equipment.

### .050 [1.27] Centerline, IDC Ribbon Cable

#### Product Specifications

**Voltage Rating** — 30 VAC

**Component Recognized by UL to US and Canadian Standards** —  
AWM Style 2651

#### Sizes —

**26 AWG**, 7/34 Tinned copper, PVC insulation (9 – 64 conductors), 500-ft reels (Base AMP Part Number 57034)

**28 AWG**, 7/36 Tinned copper, PVC insulation (9 – 64 conductors), 100-ft reels (Base AMP Part Number 57040) and 500-ft reels (Base AMP Part Number 971111)

**30 AWG**, Other conductor counts available on request. For ordering information, call Toll-Free: **1-877-623-4766** or visit: <http://www.madisoncable.com/fsproducts.htm>

## Prepared IDC Ribbon Cable

In addition to bulk cable, the US Engineering Cable Assembly Group offers Prepared Cable for the .100 [2.54] and .156 [3.96] centerline cables. This can be in the form of prenotched cable on reels or cut-to-length cable segments.

Prenotched 250 foot reels of cable can be produced with notches at varying increments or repeating all along the cable. The maximum width of these cables

is 20 conductor for the .100 [2.54] centerline and 13 conductor for the .156 [3.96] centerline.

Prepared Cable is also available with a Strip and Retain feature allowing the cable assembly to be soldered directly to the PC Board. This saves space and cost and reduces spare parts inventory. Strip and Retain on both ends is used in family board applications to maintain the

electrical connection when the PC Board is separated into smaller boards after soldering. Widths are limited to 20 conductors for the .100 [2.54] centerline and 13 conductors for the .156 [3.96] centerline. However, multiple cables can be placed side-by-side in a single connector. For other styles and configurations contact the product engineer or product manager.

**MTA Wire Termination Flowchart**

Choose the appropriate MTA Connector from the MTA Catalog 82056.

Select the proper wire style and AWG for the chosen MTA Connector  
(Refer to pages 70-74).

Choose the MTA Termination Tooling (Refer to pages 76-79).

Terminate the Wire-to-MTA Connector per Application Tooling Instruction Sheet.

Inspect the MTA Wire Termination per Application Specification, especially the wire depth. See illustrations: 114-13072 — MTA-50 Connectors, 114-1019 — MTA-100 Connectors, 114-1020 — MTA-156 Connectors, Posted Connector, Card Edge, 114-1048 — MTA-156 Quad Connectors, 114-1031 — MTA-100 Ribbon Cable Connector Assembly, and 114-1032 — MTA-156 Ribbon Cable Connector Assembly.

| Connector | A                        | B              |
|-----------|--------------------------|----------------|
| MTA-100   | .069-.087<br>[1.75-2.21] | .040<br>[1.02] |
| MTA-156   | .090-.113<br>[2.29-2.87] | .060<br>[1.52] |

Adjust the Termination Tooling (if needed) per Tooling Instruction Sheet  
(repeat the step above).

**MTA Application Tooling Options** (Continued)

**One-At-A-Time Termination  
Tooling (Typical Tooling  
Combinations)**

Manual Hand Tool with  
Interchangeable Head

Air Hand Tool with  
Interchangeable Head

Air Bench Mount Tool with  
Interchangeable Head and  
Foot Switch

Electric Bench Machine with  
Interchangeable Head

**Power Units**

**Manual Hand Tool —  
Pistol Grip Handle  
Part No. 58074-1**

- Easy to use
- Ratchet control will not release the trigger until it is fully bottomed
- Head may be rotated for user convenience

**Air Hand Tool —  
Pistol Grip Pneumatic Handle  
Part No. 58075-1**

- Light weight
- Operates at air pressure between 40 and 70 psi [2.76 and 4.83 bar]
- Head may be rotated for user convenience

**Air Bench Mount Tool —  
Bench Mount Power Assembly  
Part No. 58338-1**

- May be mounted with interchangeable head pointed up or down
- Operated by a foot switch
- Operates at air pressure between 40 and 70 psi [2.76 and 4.83 bar]

**Electric Bench Machine —  
IDC Power Unit  
Part No. 931800-1**

- All electric: 120 VAC, 60 Hz, 2 A
- Compact, portable and quiet
- Operated by a foot switch

Air Bench Mount Tool with  
Interchangeable Head and Loose-Piece Feed Track

Electric Bench Machine with  
Interchangeable Head and  
Tape Feed Track

AMP-O-LECTRIC Bench  
Machine with Special Applicator

**Interchangeable Heads and Applicators** (Refer to page 76 for part numbers.)

**Interchangeable Head**

- Terminates one unstripped wire per cycle
- Aligns and holds the connector in place for each termination
- Automatically advances the connector after each termination

**Interchangeable Head and  
Loose-Piece Feed Track**

- No special setup required
- Connectors are easily loaded into feed track
- Connectors are fed using a simple spring-loaded pusher

**T-Handle Maintenance Tool**

**Interchangeable Head and  
Tape Feed Track**

- No special setup required
- Tape-mounted connectors are transferred from product reel to feed track by simply pulling on the free end of the carrier tape
- Connectors are fed using a simple spring-loaded pusher

**Special Applicator**

- Connectors are easily hand loaded into feed track
- Automatically advances the connector after each termination
- Cannot be cycled until the connector is properly positioned

**MTA Application Tooling Options** (Continued)

**Mass Termination Tooling  
(Typical Tooling  
Combinations)**

Manual Bench Tool with  
Applicator and Holding Fixture

Air Harness Tool with  
Applicator

Air Bench Machine

2700 lb Air Bench Machine with  
Ribbon Cable Notcher Assembly

**Power Units**

**Manual Bench Tool —  
Arbor Frame Assembly  
Part No. 58024-1**

- Applicator and holding fixture can be oriented for operator convenience for closed-end or feed-thru terminations
- Ram height (insertion depth) is easily adjusted
- May be bench mounted

**Air Harness Tools —  
Hand-Held Power Unit  
with Applicator  
Part No. 58575-1 (MTA-100)  
Part No. 58576-1 (MTA-156)**

- Applicator can be rotated 360° for orientation with holding fixture
- Insertion depth is easily adjusted
- Operates at air pressure between 75 and 95 psi [5.17 and 6.55 bar]

**Air Bench Machine —  
Pneumatic Unit  
Part No. 91112-2**

- Operated by a foot switch
- Operates at air pressure between 80 and 90 psi [5.52 and 6.21 bar]
- Not recommended for notching cable with more than 14 conductors

**2700 lb Air Bench Machine —  
Part No. 312522-1**

- Operated by a foot switch
- Capable of exerting 2,700 lb [12,000 N] of force at minimum 80 psi [5.52 bar] air pressure
- May be bench mounted

**Applicators and Notcher Assemblies**

Manual Bench Tool with Applicator and Tape Feed Track

**Applicator and Holding Fixture**

- Wires are laced into plastic combs for mass termination
- Trims excess wire for closed-end terminations
- Holding fixture may be mounted to a harness board

**Applicator and Tape Feed Track**

- Tape-mounted connectors are transferred from product reel to feed track by simply pulling on the free end of the carrier tape
- Connectors are fed using a simple spring-loaded pusher
- Feed stop easily adjusted for different connector sizes

**Ribbon Cable Notcher Assembly**

- Notch cable with up to 28 conductors for .100 centerline, and 24 conductors for .156 centerline
- Pressure plate holds cable in position during notching
- Scrap conveniently removed through a chute with a blast of air from a built-in air valve

Ribbon Cable Notcher  
Assembly

| Part Number | Wire Size AWG | Centerline   | Used With  |
|-------------|---------------|--------------|--|
| 854449-2    | 26-28         | .100<br>2.54 | Manual Bench Tool<br>58024-1   |
| 854449-4    | 22-28         | .100<br>2.54 | Air Bench Machine<br>91112-2   |
| 854449-3    | 18-24         | .156<br>3.96 | 2700 lb Bench Machine<br>312522-1<br>AMP-O-LECTRIC<br>Bench Machine 1-471273-3<br>(with Conversion Kit 690675-2) |

Use Adapter 854468-1 when putting Notcher in the AMP-O-LECTRIC Machine. Use Adapter 854468-2 when putting Notcher in the 2700 lb Air Bench Machine.

## MTA Application Tooling Options (Continued)

### Technical Documents

The following is a list of technical documents covering the installation, operation, adjustment, maintenance and repair of MTA application tooling.

**Instruction Sheets (IS)** provide instructions for assembling or applying the product. They are intended for the Manufacturing Assembler or Operator.

**Customer Manuals (CM)** provide complete, detailed instructions on the installation, operation, adjustment, maintenance and repair of complex tools and application machines.

**Applicator Instructions (AI)** are similar to instruction sheets (which cover products and tools), and provide instructions for installation, adjustment and maintenance of applicators used in automatic and semiautomatic machines.

### Typical Application Rates

#### Produce 6-in. [15 cm] Long Jumpers, One 4-Position MTA-100 Connector per End, Discrete Wire

| Method   | Terminations Per Hour |
|--|-----------------------|
| Manual Hand Tool 58074-1 with Interchangeable Head 58246-1   | —                     |
| Electric Bench Machine 931800-1 with Interchangeable Head 58246-1  | 900                   |
| Electric Bench Machine 931800-1 with Interchangeable Head and Loose-Piece Feed Track 933567-1              | 1,100                 |
| Electric Bench Machine 931800-1 with Interchangeable Head and Tape Feed Track 853546-1 and 853542-1 (Base) | 1,250                 |

#### Apply One 4-Position MTA-100 Feed-Thru Connector per Assembly, Discrete Wire

| Method  | Terminations Per Hour |
|---|-----------------------|
| Manual Bench Tool 58024-1 with Applicator and Holding Fixture | 650                   |

For further information about tooling call Technical Support.

#### Produce 6-in. [15 cm] Long Jumpers, One 4-Position MTA-100 Connector per End, Ribbon Cable\*

| Method  | Terminations Per Hour |
|---|-----------------------|
| 2700 lb Air Bench Machine 312522-1 with Applicator and Tape Feed Track 854175-1 and 854200-1 (Base) | 7,500                 |

\* Procedure: Mass terminate 12-conductor ribbon cable with three connectors per end. After terminating, separate by tearing the 12-conductor assembly into three 4-conductor assemblies.

#### Cable Notching

| Method  | Cable Ends Per Hour |
|---|---------------------|
| 2700 lb Air Bench Machine 312522-1 with Ribbon Cable Notcher Assembly 854449-2 and 854468-2 (Adapter) | 1,000               |

## Part Number Index
