

**HI-CONTACT™ LIQUID COLD PLATE**

Aavid Hi-Contact™ tube liquid cold plates feature a high performance assembly utilizing a continuous tube press fit into an extruded aluminum plate. The patented geometry used in the Aavid Hi-Contact™ process moves the fluid closer to the device generating heat, achieving the best thermal performance from a tube cold plate.

To further increase the performance of Aavid's Hi-Contact™ liquid cold plates, a thermal epoxy is applied to the joint to provide a gap free thermal interface between the tube and the plate.
