

HOW TO ORDER EXTRUSION PROFILES

Extrusions are available in standard bar lengths, typically 8 foot long sections, but length may vary for some shapes. Extrusion bar lengths are unfinished and may be ordered with a finish when purchased cut to size. Full and half bar lengths are priced per/ft. Custom cut lengths are priced per/piece. The standard tolerance of all cut to length extrusions is ± 0.015 inches (± 0.38 mm).

To order Aavid extrusions in bar lengths, half bar lengths or cut to size, you must construct a 12-13 digit part number. For custom fabricated, Aavid will use the customer drawing number and revision level as the part number.
