

AM2LOW-Z

Aimtec's AM2LOW-Z series is a 2W DC-DC converter, designed to offer a 4:1 ultrawide input voltage range in a miniature SMD package with 3000VDC isolation, ideal for applications where size is the major design constraint.

The converter has a high MTBF of 890K hours and is designed to meet the latest IEC/EN/UL 62368-1 safety standard in addition to incorporating a host of features such as Continuous short circuit protection and Under-voltage lockout protection which help engineers design safe, reliable and robust products.

The AM2LOW-Z is available with both single and dual outputs of 5,12 and 15 voltage options. It also has a CTRL pin for remote On/Off applications that can help improve end product efficiency. This product can be widely used in applications such as IoT, industrial controls, instrumentation and telecommunication.
