AM50E-VZ

This new AM50E-VZ series is a 50W DC/DC converter that provides a 2:1 input voltage range. The input/output isolation voltage up to 1500VDC ensures it meets the standard DC operating environment and EN62368 standard requirements.

The converters offer an ultra-wide operating temperature range of -40°C to +105°C. A variety of protections with input UVP, OSC, OCP, OVP are included. Housed in a 2x1" common industrial standard package, this AM50E-VZ series is available with an optional heat sink with the standard PCB mount, chassis mount and DIN rail mount, offering flexibility to the designer of the end-product.

This series is designed for applications in industrial instrumentation, telecom, lighting equipment, information display and other industrial related equipment.

Features

- Operating Temp: -40 °C to +105 °C
- Isolation voltage: 1500VDC
- High efficiency: 91% typ.
- Regulated single output
- Output short circuit, over-current, over-voltage, input under-voltage protection

Add suffix “-ST” for optional screw terminal bottom plate and input reverse polarity protection.

Add suffix “-STD” for optional DIN Rail screw terminal bottom plate and input reverse polarity protection.

Add suffix “-K” for optional heat sink.

Due to the input reverse polarity protection, models with “-ST” and “-STD” option will have their minimum input and start-up voltage increased by 1VDC and efficiency decreased by 2%.
