Description

The Akyga® AK-AD-51 adapter is a very handy and practical accessory that will appeal to people who need to charge different electronic device at the same time. The keyring allows to simultaneously powering to four devices from one USB port. The size and flexibility of the cords allows to keeping the adapter in a pocket, while planar construction of the cords cause that it never mesh together. The keyring can also be irreplaceable in situations where we don't have a charger with us in the public place with access to USB socket.

The AK-AD-51 adapter has plugs in the following standards: USB, Lightning, USB C, micro USB and mini USB. The keyring allows to charging devices only but doesn't support data transfer.
