## Description

The **Akyga® AK-ND-C12 USB-C adapter** is a practical addition to older **Lenovo** laptop models. It allows you to charge your portable computer with a **7.9x5.5 mm connector** using a **USB-C PD** charger. This way, if you lose or damage your old power adapter, you can replace it with a new universal USB-C power adapter. In this way, we will charge almost every electronic device with a single charger. This greatly simplifies the daily use of your equipment and saves space in your backpack or bag when travelling.

**It is worth remembering that the USB-C adapter does not increase the power of the charger it is used with. Therefore, before using it, make sure that the power adapter has enough power to power our device.**
