## Description

Akyga® ${ }^{8}$ AK-PC-13A is an adapter for uninterruptible power supplies (UPS). This one meter long cable allows you to convert an IEC C14 connector into a CEE 7/3 socket, which is ideal if you run out of available Schuko sockets on your UPS. Thanks to the adapter, you can easily replace the existing C13 sockets in the power supply to connect equipment with CEE 7/4 plugs. In this way we can power for example a laptop, printer, monitor or projector.
