Description

Akyga® AK-SW-11 adapter is used to charge **Xiaomi Mi Band 2 sports smartbands**. This is a high quality replacement, which is nothing inferior to the original. It has a **built-in 10 cm flat cable**, which is both short enough not to get tangled while transporting in your bag, and long enough to connect it to a power source is extremely convenient. However, the **USB connector** allows you to power the smartband from any USB port found on your laptop, powerbank or AC adapter. What's more, the small size and light weight of the adapter means you can always carry it with you.
