Description

Akyga® AK-SW-20 is a charger for **Samsung Gear Fit (SM-R350)** bands. The small size, **strong hooks** and good quality **5 spring pins** make it an ideal replacement for the original version of the adapter. The robust design guarantees a secure connection during charging. This protects your watch from accidental detachment, which would risk interrupting the charging process. Furthermore, the charging cradle has a universal **micro USB socket**. It will allow you not only to choose the length of the cable according to your needs, but also to freely change the power source. This can be both an AC adapter with a built-in cable and a laptop.

The charger does not have a power cable.
