Description

The **Akyga® AK-SW-21 magnetic pad** is used for charging **Huawei Watch GT** sports watches. It is a small **charger with a built-in magnet**, which keeps the charged smartwatch in the right position and at the same time protects it from accidental knocking down. What's more, this puck has the popular **USB-C connector**, so you can freely change the charging cable as required. Included with the charger is a universal **USB - USB C cable with a length of 1 m**, which gives you a free choice of power source. This can be either a powerbank, a USB mains adapter or a laptop.
