Description

Akyga® AK-SW-36 is used for charging **smart watch** devices. It is a **1 m cable** terminated on one side with a universal USB-A connector, and on the other side with a special basket **for charging Xiaomi watches**. The accessory is characterised by a simple yet classic finish, which is in no way inferior to the original version of the charger. Therefore, it is an ideal replacement for a damaged or lost copy. What's more, the **USB plug** used gives you great freedom to choose where and how you want to power your smartwatch. We can connect the charger both to a standard USB power supply, laptop and car charger. Thanks to this, whenever our sports watch runs out of energy, we can charge it not only at home or at work, but also while travelling.

Suitable for, amongst others: Xiaomi Mi Watch Lite, Xiaomi Redmi Watch.
