

**USB Cable**

Model: **AK-USB-43**

|                          |                             |
|--------------------------|-----------------------------|
| Product code             | AK-USB-43                   |
| Product type             | USB Cable                   |
| Maximum power            | 18 W (9 V / 2 A, 5 V / 3 A) |
| Cable length             | 2.0 m                       |
| The cable plug #1        | USB Male connector type C   |
| The cable plug #2        | USB Male connector type C   |
| Data transmission        | Yes                         |
| Plated plugs             | Yes - nickel plated         |
| Product color            | Blue                        |
| Package                  | UniBag                      |
| Product size (L x W x H) | 100 x 90 x 20 mm            |
| Package size (L x W x H) | 175 x 125 x 21 mm           |
| Net weight               | 45 g                        |
| Gross weight             | 49 g                        |
| RoHS compatibility       | Yes                         |
| REACH compatibility      | Yes                         |
| EAN code                 | 5901720137579               |
| Warranty                 | 24 months                   |

# Description

**Akyga® AK-USB-43** is a **magnetic USB cable** with a length of **2 m**. It is used **to charge mobile devices** and **transfer data** between the device and the computer. **The magnetic USB connector** makes it easy to connect your smartphone, tablet or other device to the power supply. To do this, simply attach the end of the cable to the connector and it will attach itself to the magnet. Thanks to this solution, you do not have to worry about damaging the USB socket on your device. Less frequent insertion and removal of the plug into the socket significantly reduces wear and tear of the USB port. Thus, the risk of a malfunction decreases and the life of the device is extended. Another unquestionable advantage of the magnetic cable is the fact that if you get hooked to a cable, the connector will detach itself from the device. This reduces the chance of damage to the device as a result of a fall. What's more, the universal magnetic connector on the USB cable offers a range of possibilities. It will help you to reduce the number of cables to a minimum. Simply, you only need to stock up on additional USB-C, Lightning or micro-USB plugs. This will ensure that you only need one cable for several different devices! The AK-USB-43 cable comes complete with a **USB Type C magnetic connector**.
