allit® makuba®

allit® makuba®

makuba
The brand
for order and
innovation

Allit Kunststofftechnik AG, owned by the Kallinowsky family, looks back on a 160-year-long history of entrepreneurial tradition.

With a share of meanwhile 80% own production in the makuba program, Allit AG Kunststofftechnik counts among the leading suppliers of order systems in Europe.

The program is especially geared to combining top quality with competitive prices. makuba products can be found both in leading DIY superstores as well as in competent wholesale and specialist outlets, i.e. in the production intermediary business and in industrial procurement.

The principal aim pursued in the product development for the young and attractive makuba program lies in the ›Plus‹ for the end user. Our excellent field staff, who are present all over Europe, ensure all support services you may require at your Point of Sale.

**makuba –
your partner for trade, industry, craft and household**

VarioPlus

The new product lines – now offering a ›Plus‹

With the introduction of our new product lines we are living up to our new slogan:

›makuba – clever systems‹

The makuba product range has now become more transparent than ever. All articles have been grouped into product lines, and within these lines into product groups.

This creates structure and order and eases both logistic and administrative processes.

The "Plus" for the end-user

Now that our reorganisation process has been accomplished, all product lines are clearly identifiable by their ›Plus‹ features. This small, but important affix emphasises that products of the brand ›makuba‹ stand out in versatility and price when compared with similar articles of other suppliers.

product line

EuroPlus
BASIC

product group

The reason why makuba articles rightfully carry the ›Plus‹ attribute is furnished by the equally new-designed product outfit.
Telling labels, inserts as well as outer boxes show up to four of these ›Plus‹ statements, which help the customer identify the unmistakable quality features of makuba products.

McPlus

McPlus Alu

Plastic tool cases of professional-use quality

These tool cases offer both the professional and the discerning do-it-yourselfer
a truly complete mobile workplace. Despite their compact dimensions, the cases offer
the greatest possible volume and storage space.

+ Integrated assortment boxes with different sections for easy storage of small parts
+ large tooltray with variable divisions or 2 cantilever trays for convenient storage of tools and small parts
+ Ergonomically curved handle made of aluminium for safe and convenient carriage

+ Tool case and hinged locks made of high-impact resistant polypropylene
+ Usable as a climbing aid when positively locked into place
+ Stackable

Lockable with padlock
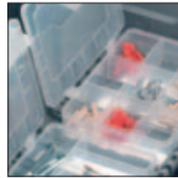

Assortmentboxes integrated in the lid

Surrounding profile means additional stability

Content reachable in one level

Usable as seat or – when positively locked into place – even as climbing aid

ProfiPlus

ProfiPlus Endless

The infinitely expandable system for individual wall mounting of storage bins

Wall plates that can be mounted either side by side or vertically enable both professional craftsmen and do-it-yourselfers to create their own order in their workshop. The tongue/groove system allows for seamless wall mounting. The storage bins may be attached in any location, even near joints.

+ Fit for universal use: Suitable for all ProfiPlus storage bins up to Size 3
+ Easy: Simply attach the storage bins in the desired location - finished!
+ Light & sturdy: Wall plates made of polypropylene, with up to 20 wall mounting points
+ Suitable for professional use due to its high load-carrying capacity

Simple installation

Bins may be attached even near joints

alt makuba

All from one source: from the idea to the perfect shelf solution

Allit AG Kunststofftechnik, a company certified according to DIN ISO 9001, sees itself as a technical service provider in the field of injection-moulded plastic parts.

Within its technical business field ›allitec‹, Allit AG exclusively works as an OEM supplier to the technical sector in the most varied industries, from the automotive via the beverage filter business, down to medical technology.

Apart from the makuba program, ›allipack‹ is a further field of focus challenging our manufacturing and distribution expertise. Here, Allit AG Kunststofftechnik manufactures durable technical as well as consumer packaging.

Product committee

Our highly motivated team in the fields of engineering, manufacturing and distribution guarantees the fast and flexible implementation of your wishes and suggestions. Ideas and suggestions both for new and further product developments are always welcome and will be implemented fast. Creativity, innovation power as well as excellence in plastics engineering and technology form part and parcel of our business and are important prerequisites of success in our constant search for the end-user's ›Plus‹.

3D engineering

Cutting-edge technology ensures the proper translation of your wishes and preferences into technical data and pertinent drawings. By means of such data, hand or even stereolithography prototypes are established, so that all details can be checked both visually and functionally prior to embarking on the tool-making process.

Tool construction

Our own tool and mould construction with state-of-the-art machinery, and our top qualified specialist staff allow the proper translation of all drawings into an efficient and powerful tool for you. When top-notch quality and high precision are brought to match in the choice and processing of materials, a long and economical service life of the moulds will ensue.

Production

Our production plant is equipped with approximately 50 machines capable of manufacturing parts from all thermoplastic synthetic materials in the range from 0.1 g to 2,500 g, and it works round the clock and round the week – a sound and round performance!

Up-to-date distribution

The use of the most modern communication tools nowadays constitutes an indispensable prerequisite for fastness and thus for ensuring customer satisfaction. We are already using the best state-of-the-art standard software with integrated PPC, EDC as well as EDI procurement functions.
An e-commerce solution for the B2B business is in preparation.

High logistics expertise

Our centrally situated location at the south-western rim of the Rhine-Main region in the very heart of Europe is an essential prerequisite for fast and smooth deliveries. Logistics expertise as well as sufficient storage facilities ensure an almost 100% product availability; our logistics partners are absolutely reliable, being integrated into a nation-wide network.
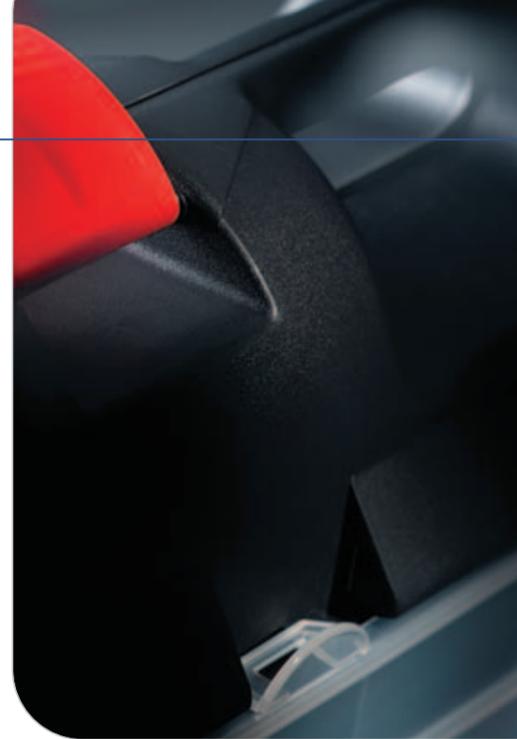

Presence at the POS

Intensive presence at the POS ensures common success. Highly qualified and committed representatives will visit you on site, either regularly or upon arrangement with your store management. Competent advice is the strength of makuba's field service.

makuba
The brand
for order and
innovation

Allit Kunststofftechnik AG, owned by the Kallinowsky family, looks back on a 160-year-long history of entrepreneurial tradition.

With a share of meanwhile 80% own production in the makuba program, Allit AG Kunststofftechnik counts among the leading suppliers of order systems in Europe.

The program is especially geared to combining top quality with competitive prices. makuba products can be found both in leading DIY superstores as well as in competent wholesale and specialist outlets, i.e. in the production intermediary business and in industrial procurement.

The principal aim pursued in the product development for the young and attractive makuba program lies in the ›Plus‹ for the end user. Our excellent field staff, who are present all over Europe, ensure all support services you may require at your Point of Sale.

**makuba –
your partner for trade, industry, craft and household**
