| Part number                           |   |  | SRRN152000                           |
|---------------------------------------|---|--|--------------------------------------|
| Number of wafer                       |   |  | 1                                    |
| Poles                                 |   |  | 2                                    |
| Positions                             |   |  | 5                                    |
| Changeover angle                      |   |  | 30±3°                                |
| Changeover timing                     |   |  | Non shorting                         |
| Rotational torque                     |   |  | 70±30mN·m                            |
| Actuator configuration                |   |  | Flat                                 |
| Actuator length                       |   |  | L: 15mm                              |
| Operating temperature range           |   |  | -30℃ to +65℃                         |
| Rating (max.)/(min.) (Resistive load) |   |  | 0.15A 12V DC/50μA 3V DC              |
| Electrical<br>performance             | Contact resistance (Initial performance/After lifetime) |  | 50m $\Omega$ max./100m $\Omega$ max. |
|                                       | Insulation resistance                                   |  | 100MΩ min. 500V DC                   |
|                                       | Voltage proof   |  | 500V AC for 1 minute                 |
| Mechanical performance                | Terminal strength                                       |  | 5N for 1 minute                      |
|                                       | Actuator strength                                       | Rotational direction                     | 1N·m                                 |
|                                       |   | Push direction                           | 100N                                 |
|                                       | Wobble of actuator<br>(load at the tip of<br>shaft: 5N) | Measuring position from mounting surface | 10mm                                 |
|                                       |   | Shaft wobble (max. value)                | 0.17mm max.                          |
|                                       |   | Applicable mounting dimension            | 15mm                                 |
|                                       |   |  |                                      |

| Durability                                    | Operating life without load                   |        | 10,000 cycles $70m\Omega$ max.   |   |
|---|---|--------|----------------------------------|---|
|   | Operating life with load (at max. rated load) |        | 10,000 cycles 100m $\Omega$ max. |   |
| Environmental performance                     | Cold  |        | -40±2℃ for 96h                   |   |
|   | Dry heat                                      |        | 85±2℃ for 96h                    |   |
|   | Damp heat                                     |        | 40±2℃, 90 to 95%RH for 96h       |   |
| Minimum order unit (pcs.)                     |   | Japan  | 100                              |   |
|   |   | Export | 600                              |   |
| 3D CAD (STEP)                                 |   |        |                                  | 0 |
| Certificate of Compliance to RoHS regulations |   |        |                                  | 0 |

## Photo

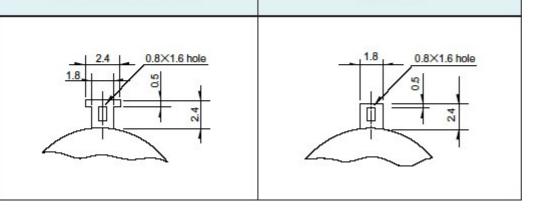

# Dimensions

# Terminal Configuration

Unit: mm

| Common terminal | Terminal |
|-----------------|----------|

#### Circuit Diagram

| Number of poles | 2           |      |
|-----------------|-------------|------|
| Circuit diagram |             |      |
| Dummy terminals | 5-positions | 77 8 |

- 1. Standard poles per step.
- 2. The following mark in the above table indicate a stopper with the shaft turned fully counterclockwise when viewed from direction A of the diagrams.

#### Packing Specifications

#### Bulk

Number of packages 1 case / Japan 100
(pcs.)

1 case / export 600
packing

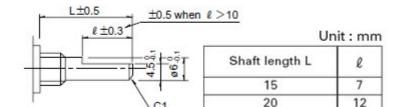

Export package measurements (mm) 369×349×367

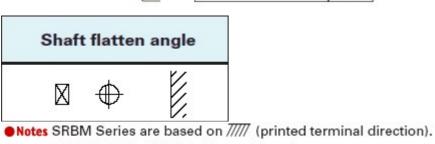

#### Shaft Style

\* Flat Shaft

The shaft shows the position in which it is turned fully counterclockwise.

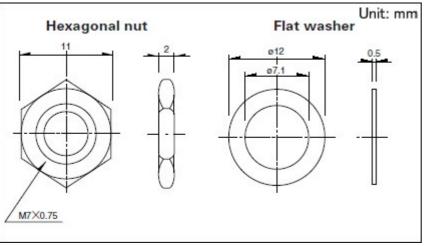

#### **Cutting Shaft**

Notes SRBM Series are based on ∭ (printed terminal direction SRRM, SRRN, SRBV Series are based on ☑ (panel lug).

#### Attached Parts

The following parts are included with the product.

#### Soldering Conditions

Reference for Dip Soldering

| Items                        | Preheating temperature | -       |
|------------------------------|------------------------|---------|
|                              | Preheating time        | -       |
| Dip soldering                | Soldering temperature  | 260±5℃  |
|                              | Duration of immersion  | 10±1s   |
| Reference for Hand Soldering | ]                      |         |
| Soldering temperature        |                        | 350±10℃ |
| Soldering time               |                        | 3+1/0s  |
|                              |                        |         |

### Notes are common to this series/models.

- 1. This site catalog shows only outline specifications. When using the products, please obtain formal specifications for supply.
- 2. All the axis are cutting shafts.
- 3. Please place purchase orders per minimum order unit (integer).
- 4. Products other than those listed in the above chart are also available. Please contact us for details.
