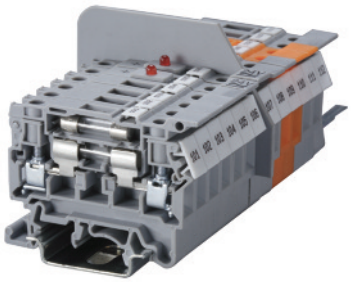
Fuse Blocks, 5 x 20 and 5 x 25 mm



DDFL4U - Double Level Fuse Terminal with fuse link on the top level has a separate feed through terminal at the lower level. This eliminates use of an additional feed through terminal.

In DDFL4U(E), specially designed built in circuit gives light indication in the event of a fuse blow out at the top level. The terminal provides separate feed through connection possibility at the lower level.

Important:
The disconnecting device is not suitable for interrupting load. The supply must be switched off before operating the slide link/lever.

† Fuses are sold separately Altech, see pages 100-101.

* Add required voltage to part number as suffix, i.e. DDFL4U(E)/24 for 24V AC/DC

COLOR BLOCKS
(other than standard grey)

When ordering please add color suffix to Cat. No.

Example for color Red: ***Cat.No./R***

Color	Ordering Suffix
Red	R
Yellow	Y
Blue	BU
Green	G
