

Ground Blocks

Combining advanced materials with an elegant design, Amphenol PCD's Ground Blocks provide the lightest weight, highest density grounding solution available in the market today. Wired connections are environmentally-sealed, providing protection from moisture, spray, and debris. Unused connections are protected via Amphenol PCD's patented FODSeal Technology, which replaces the sealing plugs - reducing FOD, weight and part count. Amphenol PCD's Ground Blocks are ideal for use in harsh environments typically found in aircraft, ground vehicle and naval applications. So when you need a rugged, reliable, lightweight solution for your grounding scheme, choose Amphenol PCD's Ground Blocks!
