# RJF TV

## Ethernet connection system for harsh environment

**Applications** 

- Data acquisition and transmission in harsh environment
- Railways
- Radars
- Shelters
- Battlefield communication
- Systems
- Navy

#### **Data Transmission**

10 BaseT, 100 BaseTX and 1000 BaseT networks Cat 5e per TIA/EIA 568B and ClassD per ISO/IEC 11801

RJFTV allows you to use an Ethernet Class D / Cat. 5e connection for 10 BaseT, 100 BaseTx or 1000 BaseT networks in harsh environments. With the patented RJStop system you can use a standard RJ45 cordset in a **metallic** plug which will protect it from shocks, dust and fluids. No hazardous on-field cabling and grounding!

#### **Main characteristics**

- Sealed against fluids and dusts (IP68)
- Shock, vibration and traction resistant
- No cabling operation in field and no tools required
- Mechanical coding / Polarization (4 positions)
- Improved EMI protection
- Tri Start Thread coupling mechanism (MIL-DTL-38999 series III type) with anti-decoupling device - Shell size 19
- Robust metallic shells
- RJ45 cordset retention in the plug: 100 N in the axis
- Mating cycles: 500 min
- Compatible with cable diameter from 6 mm [0.236 in] to 13 mm [0.512 in], for smaller diameters please consult us

#### **Environmental protection**

- Sealing: IP68
- Salt spray: 48h with aluminium shell Nickel, & black zinc cobalt plating > 500h with aluminium shell - Olive drab cadmium plating 500 h with marine bronze shell
- Fire retardant/Low smoke: UL94 V0 and NF F 16 101 & 16 102
- Vibrations: 10 500 Hz, 10 g, 3 axes: no discontinuity > 10 nano s.
- Compounded versions tested per NAS 1599 (5-3000 Hz, 20g, 12h)
- Shocks: IK06 ▶weight of 250 g drop from 40 cm [15.75 in] onto connectors (mated pair)
- Humidity: 21 days, 43°C, 98% humidity
- Thermal shock: 5 cycles at -40°C / +100°C
- Temperature range: -40°C / +85°C

# **RJFTV**

**Self Closing Cap (SCC series)** 

This Self Closing cap automatically protects the RJF TV square flange receptacle (MIL-DTL-38999 type), protecting your system from dust and water projection. A spring automatically closes the upper part of the cap when the RJF TV plug is removed from the receptacle.

# IMPORTANT NOTE

Metal Self Closing cap are sold separately (without receptacle).

	Plating	Part number
Part	Black coating - ROHS compliant	RJF TV SCC B
number	Nickel - ROHS compliant	RJF TV SCC N
	Olive drab cadmium	RJFTV SCC G

**Remark:** compatible with RJFTV square flange receptacle type RJFTV2xxx only (see page 26).

# **RJF TV**

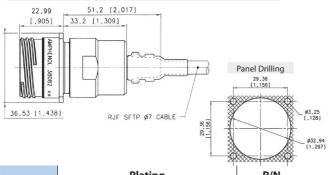

Receptacles & plugs with 360° EMI backshells

RJFTV series receptacles and plugs with EMI backshells provide a solution with 360° shielding: same protection than the one proposed by standard MIL-DTL-38999 series III connectors. With those solutions we recommend using our reinforced and double shielded Cat5E, Cat6, or Ca6A cable.

#### Kit38081 and Kit40792 include:

#### **IMPORTANT NOTE**

With these plugs, the standard RJ45 plug is not provided.

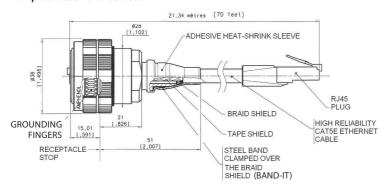

Customer will have to crimp a standard RJ45 on the cable by himself.

Remark: we advise using our double shielded, reinforced Cat5E, Cat6, or Cat6A cables (see pages 41-42-43) with these RJFTV series EMI connectors.

If customer wants to use his own cable, please check with us regarding compatibility with our backshells: **contact@rjfield.com**. We also provide assembled cordsets **(see examples below)**.

For this type of solution please provide the configuration needed: length, description of second end...

## Example of assembled cordset:

# **RJFTV**

# Through bulkhead receptacles

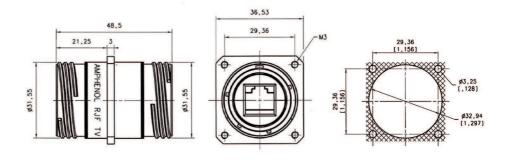

Our RJFTV through bulkhead receptacles can be connected on each side with rugged RJFTV plugs.

This system allows mechanical protection and a sealing (IP68 when mated) inside and outside the equipement, and keeps the flexibility offered by panel mount and plug connectors.

They can be connected with RJFTV series plugs.

# **RJF TV**

# Stand off receptacles

These receptacles can be sold directly to your PCB.

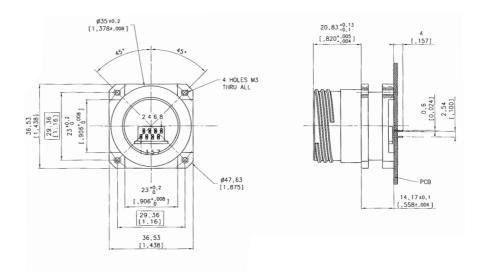

A compound insures a transversal sealing and good performance in high-vibration environments.

The shell of those receptacles are in the "Stand Off" style.

They can be connected with RJFTV series plugs.

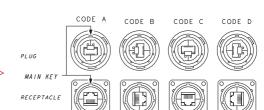

# Square flange receptacle

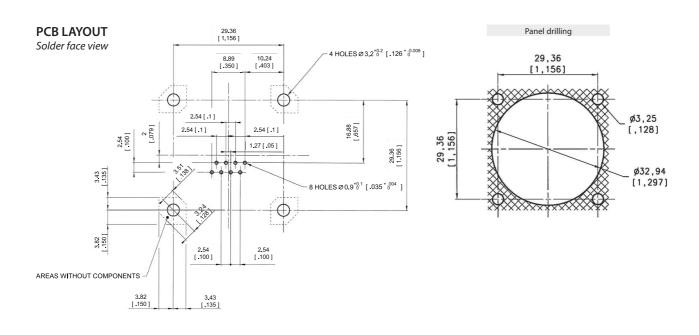

Part	Plating available	Part number
number *	Nickel - ROHS compliant	RJF TV 2S <u>X</u> 5N F459
	Olive drab cadmium	RJF TV 2S <u>X</u> 5G F459

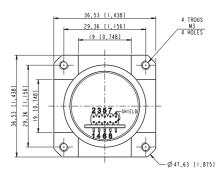

- \* new p/n before it was RJFTV25GF459 or RJFTV25NF459
- $\underline{X}$  to be replaced by the letter of the coding position you need (A, B, C, or D)

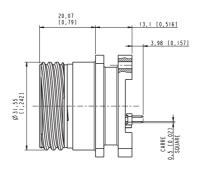

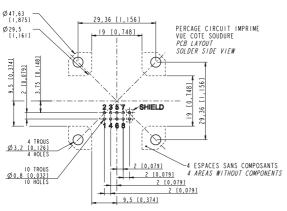

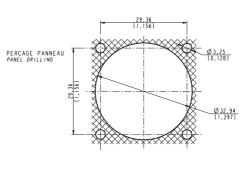

Now available with same distance between flange and PCB than the 38999 stand off one. So you can use a 38999 stand off and a RJ45 stand off in the same implementation.

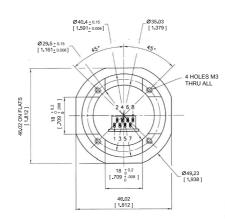

Part number: 36542 Plating: olive drab cadmium

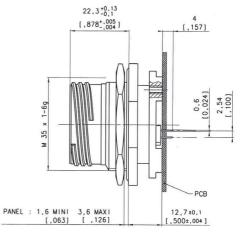

# Jam nut receptacle

X to be replaced by the letter of the coding position you need (A, B, C, or D)

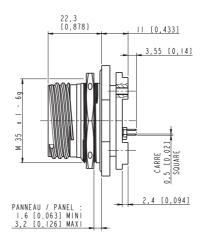

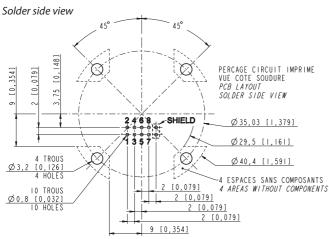

Now available with same distance between flange and PCB than the 38999 stand off one. So you can use a 38999 stand off and a RJ45 stand off in the same implementation.

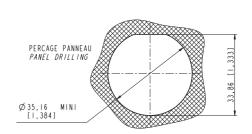

# **PCB LAYOUT**

# ROHS COMPLIANT N, B & BZ

# **RJF TV**

# Environmentaly sealed receptacles, transversally sealed receptacles

In some applications, a transversal sealing for the receptacle is a « must ». This will prevent fluids and dust from going through the receptacle when plug or cap are not mated to the receptacle.

The sealed solution (version "S") has a compound at the rear of the receptacle as shown on the examples below. This feature is available both in RJF and RJF TV shells (please consult the relevant data sheet for product details and accessories). In addition, the Sealed RJF TV has been successfully tested in very high vibration corresponding to airplane applications.

#### **Applications**

- Outdoor equipment
- Airplanes equipment
- Tactical radios
- Shelters
- Rugged computers
- Data acquisition and transmission in harsh environments

#### **Data transmission**

10 BaseT, 100 BaseTX and 1000 BaseT networks Cat 5e per TIA/EIA 568B and ClassD per ISO/IEC 11801

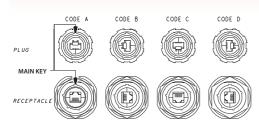

#### **Main characteristics**

- Same as the RJF and RJF TV series.
- A complete IP68 sealing of the receptacle (even with no plug or no protective cap mated) is added.
- Outside dimensions are the same as the standard RJF and RJF TV sories
- Vibrations: the compounded versions of the RJF TV have been tested in vibration following the NAS 1599 Aeronautic specification (Ambient temperature):
  - 5 3000 Hz, 20g, 2,5 mm [.1 inch] double amplitude, 3 axes, 12 hours

Note: this specification exceeds MIL-C-26500 requirements.

#### **IMPORTANT NOTE**

Due to the compound, the coding of the connector must be done in the factory: use the codes A, B, C or D in the part number: see below.

# Part number code

**RJF TV** 03 100BTX **7**S RJFTV: MIL-DTL-38999 Series III Shell type 25: sealed square flange receptacle **75:** sealed jam nut receptacle Coding A,B,C,D Back terminations (for receptacles only) 1: female RJ45 1RA: right angle female RJ45 2: RJ45 Cordset Shell material & finish N: aluminium shell - nickel plating - ROHS compliant G: aluminium shell - olive drab cadmium plating BZ: marine bronze shell - ROHS compliant Cordset length (For Receptacles with "2" Back Termination only) - Other lengths are available on demand **03 100 BTX:** 0.3m [11.81 inches]

N, B & BZ

# **RJF TV**

## Hermetic receptacles

In some applications, a transversal hermiticity for the receptacle is a « must ». This will prevent gas from going through the receptacle when plug or cap are not mated to the receptacle.

The hermetic solution (version "H") has a compound at the rear of the receptacle as shown on the examples below.

This feature is available both in RJF and RJF TV shells (please consult the relevant data sheet for product details and accessories).

Helium leakage is less than 1.10<sup>-6</sup> cm<sup>-3</sup> per second [0.1 micron cubic ft per hour] at one bar [15 psi] pressure differential.

#### **Applications**

- Outdoor equipment
- Airplanes equipment
- Tactical radios
- Shelters
- Rugged computers
- Data acquisition and transmission in harsh environments

#### **Data Transmission**

10 BaseT, 100 BaseTX and 1000 BaseT networks Cat 5e per TIA/EIA 568B and ClassD per ISO/IEC 11801
