

OSFP

Amphenol ICC’s OSFP interconnect system has 60 contacts per port, with a 0.6mm contact pitch and 8 high speed channels. The OSFP footprint is optimized for signal integrity performance and built for use in high speed serial applications. The connector is enhanced for low crosstalk and has ground commoning for resonance dampening. It is also designed for 1U applications. An integrated heat sink is featured on the module side for optimal thermal performance.

- Operating at 56Gb/s PAM-4 for up to 400Gb/s aggregated bandwidth solution
- 60 contacts per port supports 16 high speed pairs and 10 power/control pins
- Supports power up to 16W per port
- Advanced internal ground features provide improved crosstalk performance
- Supports passive copper as well as short and long range optics

FEATURES

- Enables 25Gb/s NRZ and 56Gb/s PAM4 per channel transmission
- Compatible with all mating connector & cage configurations – single port, ganged and stacked
- System design enables up to 16 watts per port independent of cage configuration
- Advanced internal ground features provide improved crosstalk performance over QSFP28
- Designed with considerations to support next generation operating speeds: 112Gb/s PAM4
- Custom solutions supported
- Part of Amphenol’s overall OSFP interconnect system
- RoHS compliant

BENEFITS

- 200G / 400G aggregate bandwidth capacity
- Allows for maximization of linear port to port density
- Allows for use of DAC, short range and long range optical devices without concern for proper heat management
- Better signal integrity (SI) performance
- Potential to upgrade to 112Gb/s PAM4
- Custom solutions from adapter cables to loopback cables and beyond
- Comprehensive OSFP product family offering cable and connector solutions for copper or optical based applications
- Environmentally friendly

TECHNICAL INFORMATION

MATERIAL

- Housing: Black color, Glass reinforced, Lead Free Solder Reflow Process Compatible Thermo Plastic
- Contacts Base Material: Phosphor Bronze
- Plating Solder Tails: Matte tin over Nickel
- Plating Mating Area: Gold
- Resonance Dampening Feature: Carbon fibre reinforced

MECHANICAL PERFORMANCE

- Durability: 250 mating cycles
- Mating Force: 40 N max.
- Unmating Force: 40 N max.
- Contact Normal Force: 40 grams min.

ELECTRICAL PERFORMANCE

- Operating Voltage: 30 VDC per contact
- Operating Current:
 - 0.5 A per signal contact
 - 1.5 A per low speed power contact
- Differential Impedance: $100\Omega \pm 10\Omega$

ENVIRONMENTAL

- Operating and (Storage) Temperature: -20° to $+85^{\circ}$ C
- RoHS & Halogen-Free

TOOLING INFORMATION

- Configurations:
 - 1x1, 1x2, 1x4
 - 2x1, 2x4, 2x6

PACKAGING

- Tape and Reel or Tray

TARGET MARKETS/APPLICATIONS

Cellular infrastructure
Network Interface Cards

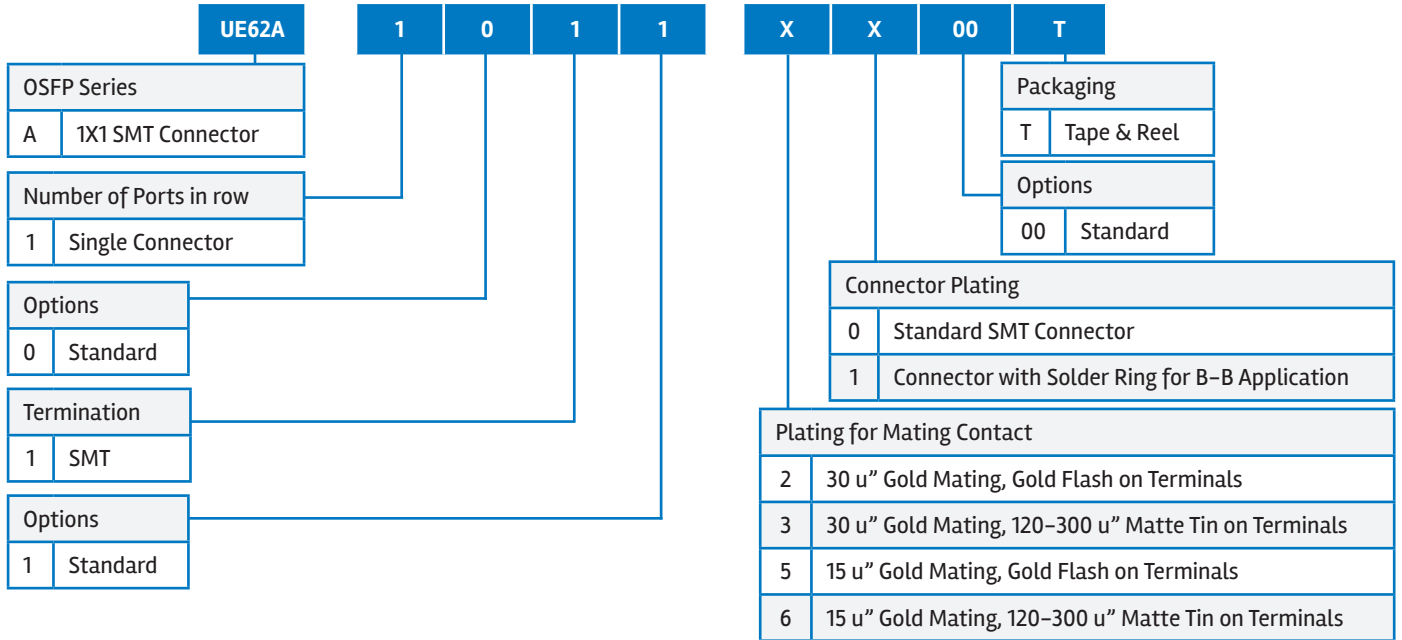

Hubs
Switch
Storage Systems
Servers

Test and Measurement Equipment

PART NUMBER SELECTOR
