

Anaconda Sealtite conduit

TYPE EF BLACK

ROBUST, FLEXIBLE, GENERAL USE CONDUIT WITH GOOD MECHANICAL PROTECTION

Type EF features a galvanised steel core and smooth PVC cover. The conduit provides very good mechanical protection of cables and wires on machines and equipment connected to enclosures and control boxes in a wide range of industries such as packaging machines used in paper recycling industry and other transport systems. The conduit displays good flexibility in both static and semi-dynamic applications.

Material & Construction:

Construction: Hot dipped galvanised steel core, square locked with cord packing, thick smooth thermoplastic cover (PVC compound). Size 1/4" and from 1.1/2" till 4", a fully inter locked profile is used. From 2.1/2" till 4" the conduit has a UL approval (type EFST / UA).

Cover specifications: PVC, lead-free according to RoHS, sunlight and UV resistant, suitable for outdoor use and burial installation.

Temperature: -25 °C till +70 °C, intermittent up to +90 °C.

Colour: Black (grey is also available).

Classification according to NEN-EN-IEC 61386:

Compression resistance: Class 4, Heavy (1250 N).

Impact resistance: Class 4, Heavy (6 J).

Tensile strength: Class 4, Heavy (1000 N).

Protection class: IP 66 / 67 (dust-proof, water-tight).

Square locked from 5/16" - 1.1/4"

Inter locked for size 1/4", 1.1/2" - 6"
