

SBS® Connectors

Up to 110 amps

SBS® 75G

SBS® 50

SBS® 75X

The patented SBS® connector family is designed to provide high power in a compact ergonomic housing with protection against accidental contact with live circuits. This is of particular importance in applications where DC voltages exceed 30 volts and can be health threatening.

Wire-to-wire and wire-to-board configurations both provide power contacts rated up to 110 amps. The SBS® 75X offers up to 4 mate-last break-first auxiliary power / signal contacts rated up to 20 amps. The SBS® 75G features a third first-mate last-break ground or power contact. All contact positions are rated for circuit interruption (hot plugging).

- **Touch Safe Interface**

*Can safely be used in through panel applications
Minimizes potential contact with live circuits per IEC 60950*

- **Wire-to-Wire and Wire-to-Board Configurations**

Allows one connector to meet multiple needs

- **Ground or Auxiliary Positions Integrated into the One Piece Housing**

Meets all connection requirements in one compact connector housing
