Weller[®]
Erem

FEEL THE DIFFERENCE

THE PROVEN CHOICE. EVERY TIME.

Manufactured with uncompromising Swiss quality, and **created especially for electronics applications**, Weller Erem® tools are built to last. The signature high-performance cutters set the industry standard by providing over 1 million consistent precise and accurate movements.

With state-of-the-art advanced features like Magic Spring™, High-Precision Screw Joint, and Maximum Opening Stop Technology, Weller Erem Precision Tools provide the longest durability, highest precision and best quality on the planet.

Swiss
Made

Weller Erem products are made and manufactured with uncompromising Swiss quality, created to be strong, durable, sharp and precise

Just like a Swiss watch

Highest-quality tools
and craftsmanship

Weller Erem is a leader in the development and production of high-precision, top-quality precision tools (side and tip cutters, pliers and tweezers). Founded in Geneva, Switzerland in 1963, Weller Erem precision tools are the result of ongoing product development and innovation to meet customer demands and the requirements of modern manufacturing techniques.

Custom-made

Have a problem? We have the solution with our ability to quickly manufacture the custom tool you need.

With an estimated 2-week turnaround time, Weller Erem will customize any of our precision tools to meet your applications needs.

Cutters for electronics applications

A simple method to remove SMD ICs is to cut each of the individual leads to remove the device and then reflow the joint with a soldering iron and remove the component lead from the board.

The solder left on the board can then be removed with a desoldering tool or desolder braid and a new component fitted. The 670EP and 670EPF have fine pointed tapered and relieved heads that are able to fit between individual leads and cut them without causing damage to the printed circuit.

THE PERFECT CUT

Strong, sharp and precise - every time

Cutter Electronics Applications: Remove Fine Pitch SMD ICs | Light engineering and Dental Applications

+ Precision

Experience precise cuts from the high-precision screw joint that enables a smooth action with no jaw overlap

+ Hardening Grade

Cutting blades are hardened to Rockwell 63-65 HRC by an induction heating process for exceptionally long service life

+ 1 Million Movements

Magic Spring™ design enables maximum durability with constant spring force movements

+ Comfort, Security and Grip

Ergonomically-shaped handles provide superior comfort and fatigue-free handling with our Maximum Opening Stop Technology

ESD Safe

Made from ESD-safe material to prevent damage to sensitive components

Swiss Made

Cut shape

Three blade options, including Weller Erem's exclusive Super Full Flush cut.

Semi-flush

- Leaves a pyramidal tip at the end of the wire
- For standard jobs where the final shape does not play a significant role
- For both soft copper wires and very hard wires, such as stainless steel

Flush

- Leaves a much smaller tip at the end of the wire when compared to a Semi-Flush cut – without reducing the cutting ability
- The cutting edges are finer than on semi-flush cutters
- Effort exerted when cutting is less and the load on the component is reduced
- Flush wire ends reduce the effort needed to fit components on printed-circuit boards

Super Full Flush

- Provides absolutely flush wire ends, only offered from Weller Erem
- No rework is needed
- Cuts are absolutely precision-ground and sharpened
- Effort exerted when cutting is minimal, as is the load on the component caused by the cut
- Soldering tags in soldering-bath procedures are prevented

Weller Erem

VS

Competitor

THE PERFECT COMBINATION

Precision, design, symmetry and balance

Tweezer Electronics Applications: Microelectronics, Jewelmaking and Watchmaking Applications

+ Comfort

Ergonomically-shaped handles provide superior comfort and fatigue-free handling

+ Wide Range

Weller has a wide range of tweezers made from various material and tips, for the right application

+ Precision

Superior symmetrically pointed tips

ESD Safe

Made from ESD-safe material to prevent damage to sensitive components

BUILT TO LAST

Longest lasting durability on the planet

Pliers Electronics Applications: For Miniature and standard electronics | Forming, Bending, Laying and Feeding in Wires

+ 1 Million Movements

Magic Spring™ design enables maximum durability with constant spring force movements

+ Comfort, Security and Grip

Ergonomically-shaped handles provide superior comfort and fatigue-free handling with our Maximum Opening Stop Technology

+ Precision

Experience precise cuts from the high-precision screw joint that enables a smooth action with no jaw overlap

Swiss Made

ESD Safe

Made from ESD-safe material to prevent damage to sensitive components

CUTTERS

Model	Cut	Description	Key Applications	Dimensions				Micro-Electronics	SMD	Carbide	Microscope	Head Size
				A (in / mm)	B (in / mm)	C (in / mm)	D (in / mm)

				120	28						

The items listed are the most popular Weller Erem products for the electronic's industry.

The Original.

Weller guarantees you the latest and best technology in the soldering market

Industrial Soldering Equipment

Professionalism makes no compromises.

Weller soldering technology that is packed with precision, innovation and quality.

Filtration

Take a deep breath. Providing clean air for your workplace.

Weller filtration systems for continuous use in industrial working environments filters fumes, adhesives and particles and recirculates back clean air while keeping noise pollution to a minimum.

Precision Tools

Feel the difference. The proven choice. Every time.

Manufactured with uncompromising Swiss quality, Precision Tools are designed to be strong, durable, sharp and have the highest precision available. Weller Erem tools are built to last.
