De-Soldering Guns - continued

Lightweight, Low Cost
Anti-Static Version

MILLER

Standard

Anti-static L=202, Dia=26mm

- Soft action desolder gun
- Lightweight plastic housings
- Recessed release button to prevent accidental operation
- Housing separates to provide access for cleaning
- Available in standard or anti-static versions
- Anti-static version complies with European standards concerning static sensitive components **CECC15**

Weller Desoldering Pump

COOPER Hand Tools

- High suction power
- Ideal for PC Board repairing
- Lightweight
- Easy to clean cylinder

Pick and Place

Portable Vacuum Pick-Up Tool

DURATOOL

- For use with static sensitive components
- Easily handles small flat parts with a touch of a button
- Ideal tool for the handling of SMDs and other delicate components

- Self-contained vacuum. No hoses and batteries required
- Storage for the probes and cups in the handle (132mm)
- The hand-held SMD vacuum pick up tool is ideal for picking up and moving large or small electronic components
- Lightweight, portable and suitable for the picking and placing of small components weighing up to 50 grams and having a flat surface, DIL packages and surface mount components, etc. And its new high-power probes have longer holding action
- Supplied with 3 angled and 3 straight pick-up hands with a choice 4mm, 6mm or 10mm cap diameters

De-Soldering Braid

Solda-Mop

Servisol

For desoldering electronic joints and electrical connections quickly, safely and efficiently.
Solda-Mop is a specially impregnated wick and when solder becomes molten it is immediately drawn up into Solda-Mop leaving a clean joint ready for resoldering. It usually requires only one second to efficiently desolder a joint or connection. Solda-Mop eliminates "flux spatter" and damage to components through excessive heat which occurs with the old method. Board may then be cleaned with Servisol "Aero-Klene".

'No-Clean' Green Label Soldamop

Servisol

- Manufactured using high purity oxygen free and oil free fine gauge copper wire
- Impregnated with a special 'No-Clean' flux to improve the wicking action of the braid
- Residue left behind is halide free and non-conductive
- Significant Health & Safety benefits
- Faster desoldering

Soder-Wick® Lead Free SD Desoldering Braid

Chemtronics

A fast, safe desoldering braid specifically for use with lead free applications.

- Engineered specifically for high temperature, lead-free solders
- Transfers heat to the solder joint more quickly and efficiently than conventional desoldering braids
- Specifically designed for all lead-free solders
- Can also be used with Tin/Lead solders
- Soder-Wick® Lead-Free packaged in ESD-safe static dissipative bobbins
- Minimises the risk of damage associated with static electricity
- Non-corrosive ultra high purity no-clean flux
- Will not leave ionic contamination on the boards
- Especially effective at removing residual solder from SMT pads
- RoHS Compliant
- Patent Pending
- Available individually or in a VacuPak™ vacuum sealed can which contains 10 bobbins with 1.5m of braid on each bobbin
