

ARTESYN LPS170 SERIES

175 Watts

Advanced Energy's Artesyn LPS170 series AC-DC power supplies are available with a nominal main output of 5 V, 12 V, 15 V or 24 V, adjustable over a wide 2:1 ratio. Auxiliary 12 V and 5 V standby outputs are also provided. Main output remote sense and single-wire current sharing are supported as standard. LPS170 power supplies provide 110 watts of output power with free air convection cooling. which can be boosted to 175 watts with 30 CFM of forced air. All models have an 8.5 x 4.25 x 1.5 inch form factor and are ideal for 1U (1.75-inch) rack installations and other low-profile applications such as telecommunications, networking hubs and routers, test and measurement equipment, single-board computers and gigabit Ethernet devices.
