

# DXM1200-B1 and DXM1200E-B1 Wireless Controller Datasheet

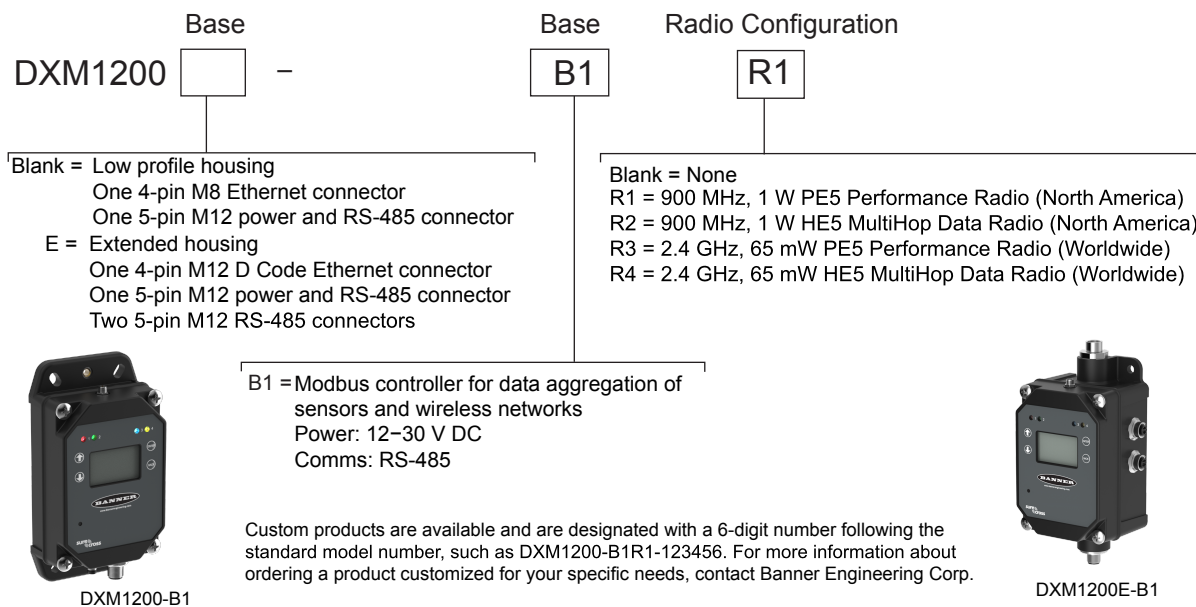

## DXM1200x-B1 Features

The DXM1200-B1 Wireless Controller is an industrial wireless controller that facilitates Industrial Internet of Things (IIoT) applications. As a communications gateway, it interfaces local serial ports, local I/O ports, and local ISM radio devices to the Internet using a cellular connection or wired Ethernet network connection.

- **High-Performance Wireless Communication**—Uses Sure Cross® DX80 Wireless Gateway or MultiHop radio with 900 MHz or 2.4 GHz ISM bands available for long-range communication
- **Flexible and Customizable**—Expanded internal logic controller with action rules and ScriptBasic programming capable of developing simple or complex solutions to process, log, and control data to/from multiple wireless radios and sensors
- **Easy Installation in all Environments**—IP67 housing makes installation in any location simpler by eliminating the need for a control cabinet
- **Improved Speed and Memory**—Upgraded internal processor to use 2850 32-bit integer registers, 2000 floating-point registers, and 1050 non-volatile 32-bit integer registers; expanded ScriptBasic programming capability for faster script processing and ability to build more complex solutions with scripts
- **External Communications**—Optional cellular modem with internal antenna for internet connectivity
- **Industry Compatibility**—Automation protocols include Modbus/TCP, Modbus RTU, and EtherNet/IP™ for communications between PLCs, HMIs, or other local hosts
- **Cloud Connectivity**—Visualize data and set alarms by sending data from the DXM1200 to the cloud either through BannerCDS.com or third-party cloud sites
- **Customizable Alerts**—Secure email for alerts when using Banner Cloud Data Services
  - Data logged to a removable SD card
  - Interactive programmable user interface with LCD and LED indicators
  - Industry-standard RS-485, Ethernet, and USB communication ports

## DXM1200-B1 Models Key

Some example models include, but are not limited to, the following:

Models	Description
<b>DXM1200-B1R1</b>	DXM1200-B1 Wireless Controller with DX80 ISM 900 MHz radio
<b>DXM1200-B1R2</b>	DXM1200-B1 Wireless Controller with DX80 ISM 900 MHz MultiHop radio
<b>DXM1200-B1R3</b>	DXM1200-B1 Wireless Controller with DX80 ISM 2.4 GHz radio
<b>DXM1200-B1R4</b>	DXM1200-B1 Wireless Controller with DX80 ISM 2.4 GHz MultiHop radio
<b>DXM1200E-B1R1</b>	DXM1200E-B1 Wireless Controller with DXM80 ISM 900 MHz radio
<b>DXM1200E-B1R3</b>	DXM1200E-B1 Wireless Controller with DXM80 ISM 2.4 GHz radio

**Cellular Communications**—Controllers accept Banner LTE-M (CATM1) modems only. Cellular modems are ordered separately as accessories under the following part numbers:

- LTE CAT-M1 AT&T (North America only): **SXI-CATM1ATT-001**
- LTE CAT-M1 Verizon (United States only): **SXI-CATM1VZW-001**
- LTE CAT-M1/NB-IoT Multi-Carrier (Europe only): **SXI-CATM1WW-001**

For more information, refer to the technical note [Activating a Cellular Modem](#) (p/n [205026](#)).

## DXM1200-Bx System Overview

Banner's DXM Logic Controller integrates Banner's wireless radio and cellular connectivity to provide a platform for the Industrial Internet of Things (IIoT).

Inputs and Outputs	Connectivity	Logic Controller	User Interface
N/A	Cellular	Action rules	LCD screen
	Sure Cross® radios	Programming language	LED indicators
	Ethernet	Scheduler	
	Internal micro USB	Push to the cloud	
	RS-485 Client	Data logging	

*Modbus registers for internal local registers (Modbus ID 199)*

Local Registers	Type	Description
1–845	32-bit integer	Local data registers
846–849	32-bit integer	Reset, Constant, Timer
851–900	32-bit non-volatile integer	Data flash, non-volatile
901–1000		Reserved for internal use
1001–5000	Floating point	Floating point registers, local data registers
5001–7000	32-bit integer	Local data registers
7001–8000	32-bit non-volatile integer	Data flash, non-volatile
> 10000		Read-only virtual registers, system-level data

**Connectivity**—The DXM1200-B1’s wired and wireless connectivity options make it easy to share data between local and remote equipment. The cellular modem option eliminates the need for IT infrastructures to connect remote equipment for sensing and control to IIoT cloud services. The integrated Sure Cross® wireless radio enables Modbus connectivity to remote sensors, indicators, and control equipment. Connect directly to any PLC and/or SCADA system for easy integration into existing control or monitoring systems. Banner Industrial Wireless radios have two types of networks that can be used for creating applications and solving problems.

#### Wired Connectivity

Ethernet: Modbus/TCP (client/server) or Ethernet/IP  
Field Bus: Modbus RS-485 Client

#### Wireless Connectivity

Sure Cross Wireless Radio: DX80 900 MHz, DX80 2.4 GHz, MultiHop 900 MHz, or MultiHop 2.4 GHz  
Cellular modem: LTE-M (United States) or LTE-M/NB-IoT (outside the United States)

#### Wireless Radio Networks

##### Performance Wireless Radio Network

Star topology (point to point between Gateway and Node radios)  
Battery-powered Node applications are more efficient in a star topology  
Six inputs and six outputs maximum per radio

##### MultiHop Wireless Radio Network

Tree topology between one client radio and many repeater and/or server radios  
Repeater radios add effectively unlimited radio network range  
Full Modbus sensor register data collection as well as typical local I/O like discrete, analog, etc.

**Logic Controller**—Program the DXM1200-B1’s logic controller using action rules and/or ScriptBasic language, which can execute concurrently. The control functions allow freedom when creating custom sensing and control sequences. The logic controller supports the Modbus protocol standards for data management, ensuring seamless integration with existing automation systems. File and LCD password protection is an option.

#### Register Mapping

Cyclical Read rules from wireless devices or local wired Modbus devices that include optional scaling, error conditions, and the ability to activate a read rule  
Cyclical or change of state write rules to wireless devices or local wired Modbus devices with scaling  
Modbus TCP Client read or write rules for external devices on the network

#### Action Rules

Thresholds (IF/THEN/ELSE) with timers, minimum on/off time, and logging options  
Math/Logic Rules (arithmetic and bitwise operators)  
Control Logic (logical operators and SR/T/D/JK flip flops)  
Trending (multiple averaging filters)  
Tracking (counts, on/off times)  
Push data on conditions

#### Scheduler

Time/calendar-based events  
Holiday skips  
One-time events  
Dynamic scheduler updating  
Astronomical clock

#### Optional Text Programming Language

ScriptBasic to create variables, arrays, functions, loops, IF/THEN/ELSE, logical and arithmetic operators, API commands, register access, string functions and operators, time commands

#### Data Logging

Cyclic data/event logging

**User Interface**—A simple user interface consists of an LCD screen and four LED indicators.

#### User programmable LCD

Bind Sure Cross radios

- Conduct a site survey to evaluate the radio signal integrity of radios within the network
- View register and output information
- View system status and configuration

**API Interface**

- Host Initiated control
- Web service integration

**User-Defined LED indicators**

Indicates the status of the DXM1200-B1, processes, or equipment

## Applications Overview

The DXM is ideal for smart factory and facilities applications, including:

- Productivity solutions, such as
  - Call for parts, service, or maintenance
  - Pick-to-light
  - OEE Tower light monitoring
- Predictive maintenance and continuous monitoring using
  - Vibration and temperature monitoring
  - Tank level monitoring
  - Non-contact condition monitoring
- Environmental monitoring and control, such as temperature and humidity monitoring

The DXM can provide visual indication using indicator lights, collect data, and interface with automation systems.

## Banner Cloud Data Services (CDS)

With a few easy steps, the DXM can be connected to and share data with Banner's Cloud Data Services. This is a web-based software platform that allows users to access, store, protect, visualize, and export critical data collected by Banner's DXMs.

This software complements our wireless product portfolio and provides customers with complete end-to-end IIoT solutions to solve the most pressing problems of the Industrial market. Visit the Banner CDS site for account access and technical support at [www.bannercds.com](http://www.bannercds.com).

**Get Solutions Up and Running Quickly:** [Solution templates](#) are available to help implement IIoT solutions with ease-no coding or expertise required. In addition, all elements of a wireless solution from Banner-from sensor to cloud-are purpose-built to work together for easy configuration and use.

**Make Better Data-Driven Decisions:** The CDS platform is more than a dashboard. The software can provide actionable insights that allow you to solve real challenges on the factory floor by using analytics and visualization tools that range from graphs, gauges, status indicators, and number displays to alarm icons, maps, and tables. Easily organize and manage the health of various assets and processes via customizable layouts that can be constructed for workstation screens or kiosk displays. In addition, the ability to store or export data, and analyze trends over time helps you and the organization make better, data-driven decisions long-term.

**Access the Data You Want and Get the Alerts You Need:** Remotely access data anytime and anywhere. On-demand visibility and real-time alerts allow you to remotely monitor and diagnose systems quickly, saving time and cost. Simple data structure allows users to organize assets and facilities in a manner that best serves the needs of the business.

**Maximize Uptime and Increase Efficiency:** Predictive maintenance is a key capability of Banner's IIoT solutions. The software platform helps you use device data to predict machine maintenance requirements, which reduces unplanned downtime, increases mean time between failure (MTBF), and reduces maintenance costs.

## Wiring Power and RS-485 for the DXM1200 and DXM1200E Models

Use the following wiring diagrams to wire power and communication to the DXM1200 and DXM1200E devices. Connecting power to the communication pins will cause permanent damage.

### M8 Ethernet Connection for the DXM1200

4-pin M8 male Industrial Ethernet connector

4-pin M8 Industrial Ethernet Connector (male)	Pin	Wire Color	Description
	1	White/orange	+ Tx
	2	White/blue	+Rx
	3	Orange	-Tx
	4	Blue	-Rx

## Power and RS-485 Connection for the DXM1200 and DXM1200E

### 5-pin M12 male connector wiring

5-pin M12 Male Connector	Pin	Wire Color	Description
	1	Brown (bn)	10 to 30 V DC
	2	White (wh)	RS485 / D1 / B / +
	3	Blue (bu)	DC common (GND)
	4	Black (bk)	RS485 / D0 / A / -
	5	Gray (gy)	Comms Ground

## D-Coded Ethernet Connection for the DXM1200E Model

### 4-pin female industrial Ethernet connector

4-pin Industrial Ethernet Connector (female)	Pin	Wire Color	Description
	1	Black	+ Tx
	2	Red	+Rx
	3	Green	-Tx
	4	White	-Rx

## Input Power for the DXM1200E

### 5-pin M12 male connector wiring

5-pin M12 Male Connector	Pin	Wire Color	Description
	1	Brown (bn)	10 to 30 V DC
	2	White (wh)	RS485 / D1 / B / +
	3	Blue (bu)	DC common (GND)
	4	Black (bk)	RS485 / D0 / A / -
	5	Gray (gy)	Comms Ground

## RS-485 Connection for the DXM1200E Model

### 5-pin M12 female connector wiring

5-pin M12 Connector (female)	Pin	Wire Color	Description
	1	Brown (bn)	10 to 30 V DC from the input power connector
	2	White (wh)	RS485 / D1 / B / +
	3	Blue (bu)	DC common (GND) from the input power connector
	4	Black (bk)	RS485 / D0 / A / -
	5	N/A	No connection

## Specifications

### Radio Specifications for Performance and MultiHop

#### Supplied Antenna

A 2 dB antenna ships with this device. High-gain antennas are available, but the transmit power and range depends on the antenna gain, environment, and line of sight. Always verify your wireless network's range by performing a Site Survey.

#### Radio Transmit Power (900 MHz, 1 Watt radios)

Conducted: 30 dBm (1 W)

EIRP with the supplied 2 dB antenna: < 36 dBm

#### Radio Transmit Power (2.4 GHz radios)

Conducted: < 18 dBm (65 mW)

EIRP with the supplied 2 dB antenna: < 20 dBm (100 mW)

#### Radio Range

900 MHz (in 1 Watt mode): Up to 9.6 km (6 miles) with the supplied 2 dB antenna

2.4 GHz: Up to 3.2 km (2 miles) with the supplied 2 dB antenna

**Antenna Minimum Separation Distance**

900 MHz (transmitting at 150 mW and 250 mW): 2 m (6 ft) with the supplied 2 dB antenna  
 900 MHz (transmitting at 1 Watt): 4.57 m (15 ft) with the supplied 2 dB antenna  
 2.4 GHz: 0.3 m (1 ft) with the supplied 2 dB antenna

**Antenna Connection**

Ext. Reverse Polarity SMA, 50 Ohms  
 Max Tightening Torque: 0.45 N·m (4 lbf·in)

**Spread Spectrum Technology**

FHSS (Frequency Hopping Spread Spectrum)

**Link Timeout (Performance)**

Gateway: Configurable via User Configuration Software  
 Node: Defined by Gateway

**Radio Packet Size (MultiHop)**

900 MHz: 175 bytes (85 Modbus registers)  
 2.4 GHz: 75 bytes (37 Modbus registers)

**900 MHz Compliance (SX7023 Radio Module)**

Radio module is indicated by the product label marking  
 Contains FCC ID: UE3SX7023EXT: FCC Part 15, Subpart C, 15.247  
 Contains IC: 7044A-SX7023EXT

**900 MHz Compliance (RM1809 Radio Module)**

Radio module is indicated by the product label marking  
 Contains FCC ID: UE3RM1809: FCC Part 15, Subpart C, 15.247  
 Contains IC: 7044A-RM1809  
 IFT: RCPBARM13-2283

**2.4 GHz Compliance (DX80-2400 Radio Module)**

Radio module is indicated by the product label marking  
 Contains FCC ID: UE300DX80-2400: FCC Part 15, Subpart C, 15.247  
 Radio Equipment Directive (RED) 2014/53/EU  
 Contains IC: 7044A-DX8024  
 ANATEL: 15966-21-04042

**2.4 GHz Compliance (SX243 Radio Module)**

Radio module is indicated by the product label marking  
 Contains FCC ID: UE3SX243: FCC Part 15, Subpart C, 15.247  
 Radio Equipment Directive (RED) 2014/53/EU  
 ETSI/EN: EN 300 328 V2.2.2 (2019-07) [RED HarmStds]  
 Contains IC: 7044A-SX243  
 ANATEL: 03737-22-04042

**RS-485 Communication Specifications**

**Communication Hardware (MultiHop RS-485)**

Interface: 2-wire half-duplex RS-485

Baud rates: 9.6k, 19.2k (default), or 38.4k via DIP switches;  
 1200 and 2400 via the MultiHop Configuration Software  
 Data format: 8 data bits, no parity, 1 stop bit

**DXM1200 Specifications**

**Supply Voltage**

12 to 30 V DC (use only with a suitable Class 2 power supply (UL) or a Limited Power Source (LPS) (CE) power supply)

**Power Consumption**

60 mA average at 24 V

**Communication Protocols**

Modbus RTU Client, Modbus TCP, and EtherNet/IP

**Connection**

Integral 5-pin M12 male quick-disconnect connector

**Construction**

Polycarbonate

**Security Protocols**

TLS, SSL, HTTPS

**Logging**

8 GB maximum; removable Micro SD card format

**Required Overcurrent Protection**

**WARNING:** Electrical connections must be made by qualified personnel in accordance with local and national electrical codes and regulations.

Overcurrent protection is required to be provided by end product application per the supplied table.

Overcurrent protection may be provided with external fusing or via Current Limiting, Class 2 Power Supply.

Supply wiring leads < 24 AWG shall not be spliced.

For additional product support, go to [www.bannerengineering.com](http://www.bannerengineering.com).

Supply Wiring (AWG)	Required Overcurrent Protection (A)	Supply Wiring (AWG)	Required Overcurrent Protection (A)
20	5.0	26	1.0
22	3.0	28	0.8
24	1.0	30	0.5

**Certifications**

Banner Engineering BV  
 Park Lane, Culliganlaan 2F bus 3  
 1831 Diegem, BELGIUM

Turck Banner LTD Blenheim House  
 Blenheim Court  
 Wickford, Essex SS11 8YT  
 GREAT BRITAIN

(CE/UKCA approval only applies to 2.4 GHz models)

**Environmental Specifications (DXM1200)**

**Operating Conditions<sup>(1)</sup>**

- 20 °C to +60 °C (-4 °F to +140 °F)
- 95% maximum relative humidity (non-condensing)
- Radiated Immunity: 3 V/m (EN 61000-4-3)

**Environmental Rating**

IP67

<sup>(1)</sup> Operating the devices at the maximum operating conditions for extended periods can shorten the life of the device.

**Shock and Vibration**

All models meet IEC 60068-2-6 and IEC 60068-2-27 testing criteria

Shock: 30G 11 ms duration, half sine wave per IEC 60068-2-27

Vibration: 10 Hz to 55 Hz, 0.5 mm peak-to-peak amplitude per IEC 60068-2-6

**DXM1200 Dimensions**

All measurements are listed in millimeters, unless noted otherwise.

*DXM1200 dimensions*

DXM1200E dimensions

## DXM1200 Accessories

For a complete list of all the accessories for the Sure Cross wireless product line, please download the Banner Industrial Wireless Accessories list (p/n [b\\_3147091](#)).

### Cordsets

- MQDC1-506—5-pin M12, straight, single-ended, 6 ft
- MQDC1-530—5-pin M12, straight, single-ended, 30 ft
- MQDC1-506RA—5-pin M12, right-angle, single-ended, 6 ft
- MQDC1-530RA—5-pin M12, right-angle, single-ended, 30 ft
- IVUC-E-406—RJ45 Ethernet to 4-pin threaded M8, straight, 6 ft
- IVUC-E-415—RJ45 Ethernet to 4-pin threaded M8, straight, 15 ft
- STP-M12D-406—RJ45 to 4-pin Male D-Code M12, Straight, 6 ft
- STP-M12D-415—RJ45 to 4-pin Male D-Code M12, Straight, 15 ft
- STP-M12D-430—RJ45 to 4-pin Male D-Code M12, Straight, 30 ft

### Power Supplies

- PSD-24-4—DC Power Supply, Desktop style, 3.9 A, 24 V DC, Class 2, 4-pin M12 quick disconnect (QD)
- PSDINP-24-06—DC power supply, 0.63 Amps, 24 V DC, with DIN Rail Mount, Class I Division 2 (Groups A, B, C, D) Rated
- PSDINP-24-13—DC power supply, 1.3 Amps, 24 V DC, with DIN Rail Mount, Class I Division 2 (Groups A, B, C, D) Rated
- PSDINP-24-25—DC power supply, 2.5 Amps, 24 V DC, with DIN Rail Mount, Class I Division 2 (Groups A, B, C, D) Rated
- PSW-24-1—DC power supply with multi-blade wall plug, 100–240 V AC 50/60 Hz input, 24 V DC 1 A output, UL Listed Class 2, 4-pin female M12 connector

**Cellular Communications**—Controllers accept Banner LTE-M (CATM1) modems only. Cellular modems are ordered separately as accessories under the following part numbers:

- LTE CAT-M1 AT&T (North America only): **SXI-CATM1ATT-001**
- LTE CAT-M1 Verizon (United States only): **SXI-CATM1VZW-001**
- LTE CAT-M1/NB-IoT Multi-Carrier (Europe only): **SXI-CATM1WW-001**

## Warnings

### WARNING:

- Do not use this device for personnel protection
- Using this device for personnel protection could result in serious injury or death.
- This device does not include the self-checking redundant circuitry necessary to allow its use in personnel safety applications. A device failure or malfunction can cause either an energized (on) or de-energized (off) output condition.

**IMPORTANT:** Please download the complete DXM1200-B1 Wireless Controller technical documentation, available in multiple languages, from [www.bannerengineering.com](http://www.bannerengineering.com) for details on the proper use, applications, Warnings, and installation instructions of this device.

**IMPORTANT:** Por favor descargue desde [www.bannerengineering.com](http://www.bannerengineering.com) toda la documentación técnica de los DXM1200-B1 Wireless Controller, disponibles en múltiples idiomas, para detalles del uso adecuado, aplicaciones, advertencias, y las instrucciones de instalación de estos dispositivos.

**IMPORTANT:** Veuillez télécharger la documentation technique complète des DXM1200-B1 Wireless Controller sur notre site [www.bannerengineering.com](http://www.bannerengineering.com) pour les détails sur leur utilisation correcte, les applications, les notes de sécurité et les instructions de montage.

**Install and properly ground a qualified surge suppressor when installing a remote antenna system.** Remote antenna configurations installed without surge suppressors invalidate the manufacturer's warranty. Keep the ground wire as short as possible and make all ground connections to a single-point ground system to ensure no ground loops are created. No surge suppressor can absorb all lightning strikes; do not touch the Sure Cross® device or any equipment connected to the Sure Cross® device during a thunderstorm.

**Exporting Sure Cross® Radios.** It is our intent to fully comply with all national and regional regulations regarding radio frequency emissions. **Customers who want to re-export this product to a country other than that to which it was sold must ensure the device is approved in the destination country.** The Sure Cross wireless products were certified for use in these countries using the antenna that ships with the product. When using other antennas, verify you are not exceeding the transmit power levels allowed by local governing agencies. This device has been designed to operate with the antennas listed on Banner Engineering's website and having a maximum gain of 9 dBm. Antennas not included in this list or having a gain greater than 9 dBm are strictly prohibited for use with this device. The required antenna impedance is 50 ohms. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen such that the equivalent isotropically radiated power (EIRP) is not more than that permitted for successful communication. Consult with Banner Engineering Corp. if the destination country is not on this list.

**IMPORTANT:**

- **Never operate a 1 Watt radio without connecting an antenna**
- Operating 1 Watt radios without an antenna connected will damage the radio circuitry.
- To avoid damaging the radio circuitry, never apply power to a Sure Cross® Performance or Sure Cross Multi-Hop (1 Watt) radio without an antenna connected.

**IMPORTANT:**

- **Electrostatic discharge (ESD) sensitive device**
- ESD can damage the device. Damage from inappropriate handling is not covered by warranty.
- Use proper handling procedures to prevent ESD damage. Proper handling procedures include leaving devices in their anti-static packaging until ready for use; wearing anti-static wrist straps; and assembling units on a grounded, static-dissipative surface.

## Banner Engineering Corp Limited Warranty

Banner Engineering Corp. warrants its products to be free from defects in material and workmanship for one year following the date of shipment. Banner Engineering Corp. will repair or replace, free of charge, any product of its manufacture which, at the time it is returned to the factory, is found to have been defective during the warranty period. This warranty does not cover damage or liability for misuse, abuse, or the improper application or installation of the Banner product.

**THIS LIMITED WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES WHETHER EXPRESS OR IMPLIED (INCLUDING, WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE), AND WHETHER ARISING UNDER COURSE OF PERFORMANCE, COURSE OF DEALING OR TRADE USAGE.**

This Warranty is exclusive and limited to repair or, at the discretion of Banner Engineering Corp., replacement. **IN NO EVENT SHALL BANNER ENGINEERING CORP. BE LIABLE TO BUYER OR ANY OTHER PERSON OR ENTITY FOR ANY EXTRA COSTS, EXPENSES, LOSSES, LOSS OF PROFITS, OR ANY INCIDENTAL, CONSEQUENTIAL OR SPECIAL DAMAGES RESULTING FROM ANY PRODUCT DEFECT OR FROM THE USE OR INABILITY TO USE THE PRODUCT, WHETHER ARISING IN CONTRACT OR WARRANTY, STATUTE, TORT, STRICT LIABILITY, NEGLIGENCE, OR OTHERWISE.**

Banner Engineering Corp. reserves the right to change, modify or improve the design of the product without assuming any obligations or liabilities relating to any product previously manufactured by Banner Engineering Corp. Any misuse, abuse, or improper application or installation of this product or use of the product for personal protection applications when the product is identified as not intended for such purposes will void the product warranty. Any modifications to this product without prior express approval by Banner Engineering Corp will void the product warranties. All specifications published in this document are subject to change; Banner reserves the right to modify product specifications or update documentation at any time. Specifications and product information in English supersede that which is provided in any other language. For the most recent version of any documentation, refer to: [www.bannerengineering.com](http://www.bannerengineering.com).

For patent information, see [www.bannerengineering.com/patents](http://www.bannerengineering.com/patents).

## FCC Part 15 Class A for Intentional Radiators

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

## Industry Canada Statement for Intentional Radiators

This device contains licence-exempt transmitters(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil contient des émetteurs/récepteurs exemptés de licence conformes à la norme Innovation, Sciences, et Développement économique Canada. L'exploitation est autorisée aux deux conditions suivantes:

1. L'appareil ne doit pas produire de brouillage.
2. L'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

## Notas Adicionales (con Antena)

Información México: La operación de este equipo está sujeta a las siguientes dos condiciones: 1) es posible que este equipo o dispositivo no cause interferencia perjudicial y 2) este equipo debe aceptar cualquier interferencia, incluyendo la que pueda causar su operación no deseada.

Banner es una marca registrada de Banner Engineering Corp. y podrán ser utilizadas de manera indistinta para referirse al fabricante. "Este equipo ha sido diseñado para operar con las antenas tipo Omnidireccional para una ganancia máxima de antena de 6 dBd y Yagi para una ganancia máxima de antena 10 dBd que en seguida se enlistan. También se incluyen aquellas con aprobación ATEX tipo Omnidireccional siempre que no excedan una ganancia máxima de antena de 6dBd. El uso con este equipo de antenas no incluidas en esta lista o que tengan una ganancia mayor que 6 dBd en tipo omnidireccional y 10 dBd en tipo Yagi, quedan prohibidas. La impedancia requerida de la antena es de 50 ohms."

### Approved Antennas

- BWA-902-C**--Antena, Omni 902-928 MHz, 2 dBd, junta de caucho, RP-SMA Macho
- BWA-905-C**--Antena, Omni 902-928 MHz, 5 dBd, junta de caucho, RP-SMA Macho
- BWA-906-A**--Antena, Omni 902-928 MHz, 6 dBd, fibra de vidrio, 1800mm, N Hembra
- BWA-9Y10-A**--Antena, Yagi, 900 MHz, 10 dBd, N Hembra
