Qwik RJ45™ Cat6/Cat5E
Modular Plugs

Stewart Connector's Qwik RJ45™ CAT6/CAT5E Modular Plugs are designed to be terminated to industry standard CAT5E and CAT6 cables while reducing assembly time and improving termination quality in the field.

Qwik RJ45™ CAT6/CAT5E Modular Plugs allow the installer to insert the cable into the connector prior to trimming conductors to required length. Stewart Connector's 2940263-02 termination tool trims the cable conductors to required length while terminating the plug contacts. The Qwik RJ45™ Modular Plug eliminates the pre-trim step needed to assemble traditional RJ45 Modular Plugs reducing termination time.
