About Bel

Bel is a publicly traded company that has been operated by the same family for over 65 years. Our history of organic growth and acquisitions have broadened our product portfolio. This has established Bel as a world leader with a diverse offering of power, protection and interconnect products. We design and manufacture these products which are primarily used in the networking, telecommunications, computing, military, aerospace, transportation and broadcasting industries. Bel's portfolio of products also finds application in the automotive, medical and consumer electronics markets.

About Dura-Con™

Cinch Dura-Con™ connectors are designed for applications that require a rugged, durable, and high-performance interconnect. Dura-Con is the ideal connector for applications where weight and space must be kept to a minimum while maintaining maximum reliability. Miniaturized airborne electronics and data processing equipment, where shorter signal paths are needed, represent typical applications for these unique connectors.

Introduction

The heart of the Dura-Con system is the Dura-Con twist pin contact. The Cinch Dura-Con twist pin contact is made from a precision miniature spring cable with a welded tip. The expanded cable provides seven spring members peripherally around the pin so that contact is maintained with the mating socket wall no matter what radial forces are applied. This spring may be flexed many times without any evidence of metal fatigue. Reliable mating is further ensured by protecting the pin contact in a tightly toleranced recessed cavity.

Cinch's family of Dura-Con connectors includes MIL-C-83513 Series connectors along with our own commercial equivalents. The commercial Dura-Con product line offers an expanded range of termination and hardware options for all-plastic and metal shell wire versions and right-angle and straight PC board mount "terminal blocks". Cinch also packages the Dura-Con contact in a very low profile plastic strip connector on .050" centers and in a line of high-density microminiature edge (Microedge) board connectors that meet the requirements of MIL-C-55302. Cinch has created a line of plastic and metal shell Dura-Con connector savers for very high mating cycle applications such as test equipment.

Termination Options

Cinch offers the following termination methods for its Dura-Con connectors:

- Insulated Wire - #26 AWG Insulated wire is crimped to the Dura-Con contacts then epoxy backpotted at the factory. Wire is available in standard lengths of 18, 24, 36, and 48 inches.
- Uninsulated Wire - #25 AWG, gold-plated, uninsulated wire is crimped to the Dura-Con contact at the factory. Wire is available in standard lengths of 0.5, 1.0, and 2.0 inches. This option allows the user greater flexibility when installing the connector.
- Solder Cup - For applications that require the lowest contact resistance, Cinch offers Dura-Con connectors with solder cups for termination by the user.
- PCB Tails - Available for straight and right angle configurations, and includes additional insulator with raised floor for PCB mounting.

Custom Capabilities

Standard Cinch Dura-Con connectors satisfy a wide variety of applications. Cinch's line of Dura-Con microminiature D-shaped connectors are one of the most versatile in the industry. There are thousands of possible combinations of Cinch standard options such as connector type, size, materials, hardware, and termination.

When special application requirements arise, Cinch Dura-Con connectors take this versatility to the next level. Whether specific needs entail new variations of simple end-to-end connector assemblies or more complex and intricate harness assemblies, Cinch Connector Division has the state-of-the-art engineering resources and research facilities in place to meet your needs. Cinch approaches your business with a well-defined goal: to ensure the integrity of your design and to execute our contribution to it in a responsible, cost-effective manner. This philosophy has led Cinch to a position of industry leadership.

For complete information regarding the total capabilities of the Dura-Con connector series, or for custom application assistance, contact your nearest Cinch Connectors sales representative.

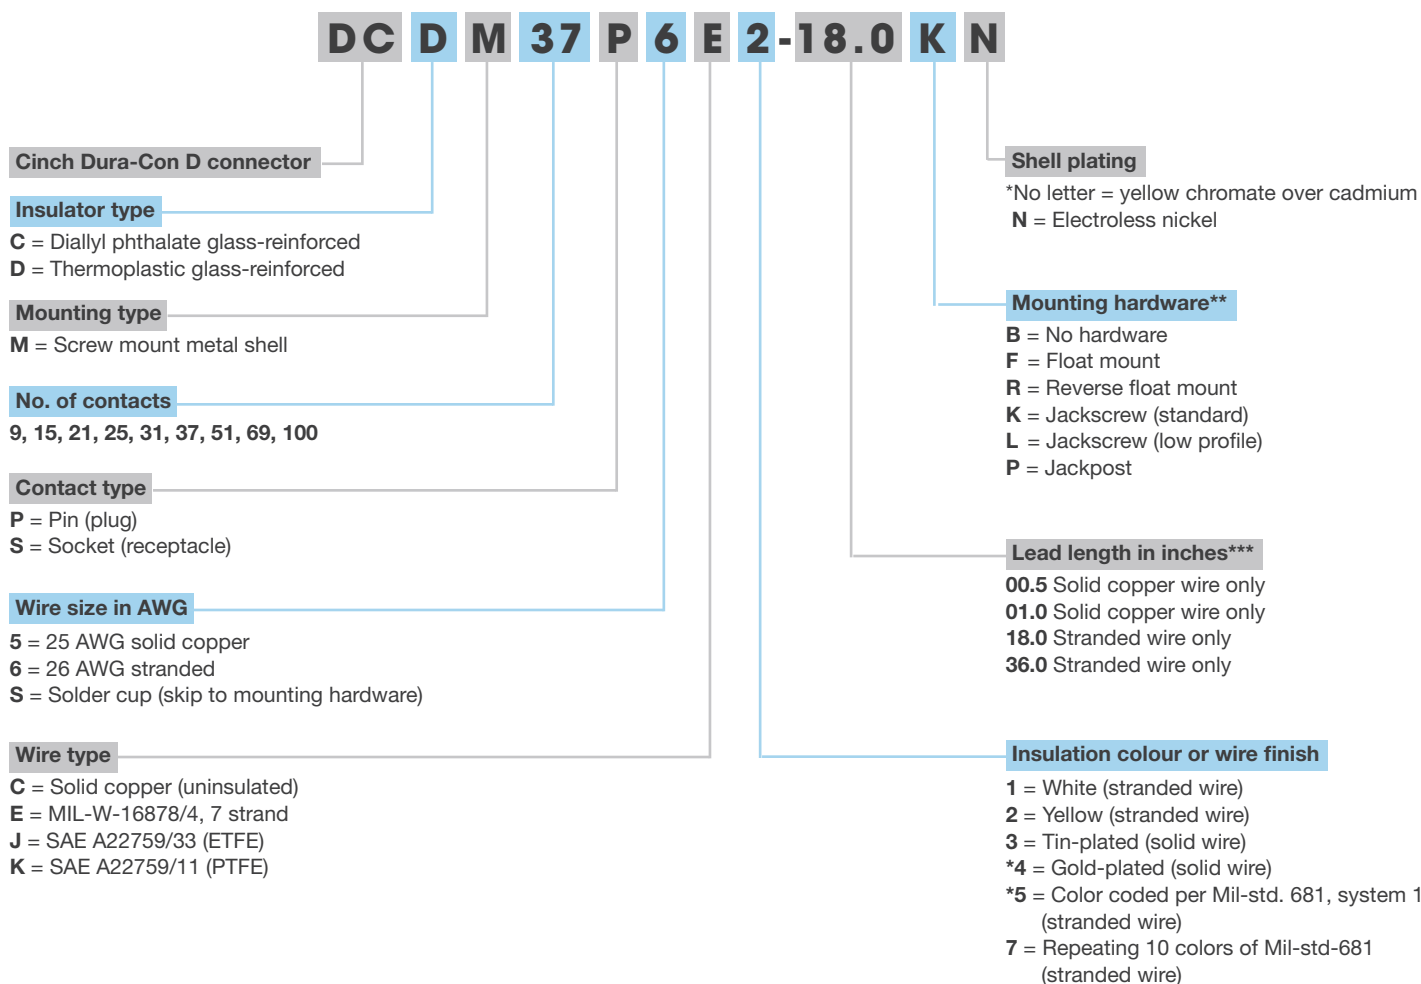

Metal Shell Micro-D Connectors

Features

- Both plug and socket available in 9, 15, 21, 25, 31, 37, 51, 69 and 100 positions
- Termination styles - solder cup, insulated wire and uninsulated wire
- Aluminum shell provides extra strength and EMI/RFI shielding capability. Plating options available
- Silicone elastomer compression interfacial seal protects contacts from moisture and humidity and isolates contacts from each other and the metal shell
- Designed for compliance to MIL-DTL-83513
- Rugged twist pin contacts resistant to shock and vibration make metal shell Dura-Con an excellent choice for harsh environments such as airborne or space applications
- Custom wiring with encapsulated crimped contacts available upon request.

Ordering Information

Plastic Shell Micro-D Connectors

Features

- Economical all plastic shell for lightweight applications where no shielding is required
- Both plug and socket available in 9, 15, 21, 25, 31, 37, and 51 positions
- Termination styles - solder cup, uninsulated solid wire, and insulated stranded wire
- Designed for compliance to MIL-C-83513
- Low profile shell

Metal Shell Micro-D Connectors for PCBs

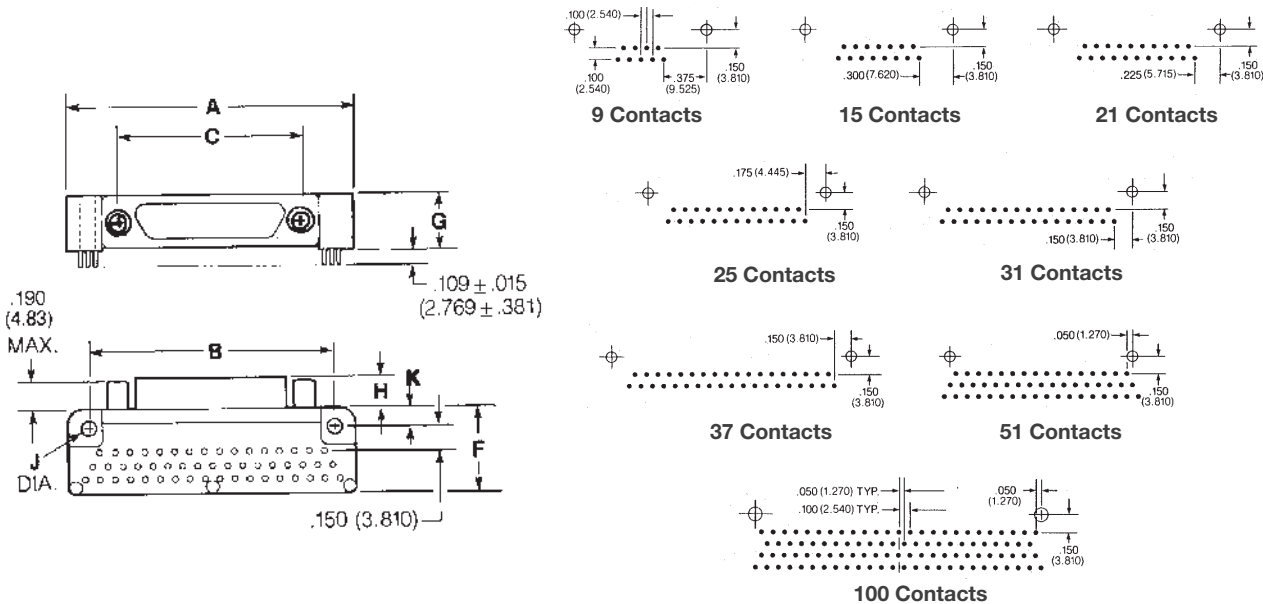

Features

- Plug & socket versions available in 9, 15, 21, 25, 31, 37, 51, and 100 positions
- Flow-through design facilitates inspection and cleaning after soldering
- All terminal block connectors use standard mounting hardware
- Metal shell provides EMI/RFI shielding capability
- Available in 3 styles: straight mount, 90° right-angle mount, and 90° right-angle narrow profile mounting
- Silicone elastomer interfacial seal protects contacts from moisture and isolates them from each other and from the metal shell
- Designed for compliance to MIL-C-83513
- Choice of insulator materials

Hermetically Sealed Micro-D Connectors

Features

- Straight and right angle mounted hermetic Micro-Ds available
- Both plug and socket available in 9, 15, 21, 25, 31, 37 and 51 positions
- Aluminium shell provides extra strength and EMI/RFI shielding capability
- Rugged twist pin contacts resistant to shock and vibration make metal shell Dura-Con an excellent choice for harsh environments
- Hermetic seal achieved through Cinch proprietary epoxy-metallic compound
- Performs to MIL-DTL-83513

Ordering Information

* Indicates Cinch standard option

** See p. 19 for standard hardware dimensions.

*** Length tolerance: solid wire = ± 3/32", standard wire = ± 1/4"

High Temperature Metal Shell Micro-D Connectors

Features

- Plug materials durable to operate continuously at 175°C, sockets materials durable to 200°C
- Specially designed insulator with “raised rib” feature to prevent shorts in shock (50 Gs) and high vibration (20 Gs) conditions
- Plug & socket versions available in 9, 15, 21, 25, 31 and 37 positions
- Metal shell provides EMI/RFI shielding capability
- Plugs and sockets available with solder cups and wire leads, sockets available for straight and 90° right-angle narrow profile PCB mounting
- Silicone elastomer interfacial seal protects contacts from moisture and isolates them for each other and from the metal shell
- Designed for compliance to MIL-C-83513

Ordering Information

* Indicates Cinch standard option

** See p. 18 for standard hardware dimensions. See p. 30 for mil spec. hardware, both sold separately

*** Length tolerance: solid wire = ± 1/4"

Connector Savers

Features

- Designed to significantly reduce damage to already mounted Dura-Con connectors during routine system tests
- Eliminates numerous mating and unmating cycles experienced by connectors on test harnesses
- Plug connector on one end, socket connector on the other
- Available in all-plastic (polyester) or in metal shell with diallyl phthalate or polyester insulators (both UL94V-0 rated)

Micro-D Dust Covers

Features

- Protects contacts before mating connector installed
- All plastic piece retains to mating face without additional hardware
- Color coded for plugs (blue) and sockets (red)
- Available for all Micro-D sizes 9, 15, 21, 25, 31, 37, 51 and 100

Dust Covers are included with Micro-D connectors, but replacements are available for applications where the initial dust cover has been lost or damaged

Micro-D Sealing Gaskets

Features

- Prevents moisture and dust from reaching contacts when connectors are mated
- Installed on the socket connectors only
- Comprised of compressible silicone rubber
- Available for all micro-d socket sizes 9, 15, 21, 25, 31, 37, 51 and 100

Sealing gaskets are included with Micro-D connectors, but replacements are available for applications where the initial gasket has been lost or damaged

Micro-D EMI Backshells

Features

- Multiple entry sizes
- Available for all Cinch Dura-Con Micro-D shells sizes: 9 to 100 pins
- Aluminum alloy shell available with electroless nickel plating
- Jackpost, socket head hardware and retaining clip included
- Crimpable ferrule sleeve included for bonding braided sleeve to wire entry
- Ferrule Crimp Tool M22520/5-01

Micro-D Strain Relief Backshells

Features

- Multiple entry sizes
- Available for all Cinch Dura-Con Micro-D shells sizes: 9 to 100 pins
- Aluminum alloy shell available with electroless nickel plating and cadmium plating
- Jackpost, socket head hardware and retaining clip included
- Wire entry extended for bonding braided sleeve to shell with a metal strap

MIL-DTL-83513 Metal Shell Connectors

Features

- All plastic and metal shell wire versions available in solder cup, gold-plated solid wire, and insulated stranded wire
- PCB mount “terminal block” type connectors available in straight or right angle
- Sizes offered - 9, 15, 21, 25, 31, 35, 51, and 100 (metal shell only)
- QPL (Qualified Product List) MIL-C-83513
- Optional shell platings and insulator materials offer high performance in harsh environments
- Mounting hardware per MIL-C-83513/05, see page 30 for options

Strip Connectors

Features

- Extremely lightweight
- Slim profile
- High-density interconnect
- High-reliability Dura-Con twist pin contact system for extreme shock and vibration applications
- Optional polarization with guide pins to prevent mismatching connectors
- Plug & socket available in sizes from 1 to 60 positions
- Economically priced

* Assembly in socket connector only.

NOTE: Dimension A is number of positions less 1 multiplied by 0.050

Ordering Information

CS A 1-10 P 4 C 4-00.5 G

Cinch Dura-Con strip
Thermoplastic glass-reinforced strip connector

Contact centers
A = 0.050 (24 ga.)

Contact position
1 = Contacts in every position

No. of contact positions
1 through 60**

Contact type
P = Pin
S = Socket

Wire size in AWG
5 = 25 AWG solid copper wire
6 = 26 AWG stranded wire
S = Solder cup (skip to guide pin field if necessary)

Guide pin (socket only) empty cavity (pin only)

G02 = Guide pin position no. 2
GX = Special position, consult factory

Lead length in inches
00.5 Solid copper wire only
01.0 Solid copper wire only
02.0 Solid copper wire only
18.0 Stranded wire only
24.0 Stranded wire only
36.0 Stranded wire only
48.0 Stranded wire only

Insulation color, solid wire finish, solid cup finish
1 = All white
*2 = All yellow
3 = Tin-plated
*4 = Gold-plated (solid wire only)
*5 = Color coded per mil-std. 681, system 1 (stranded wire only)

Insulation wire or solid wire type
C = Solid copper
E = MIL-W-168 78/4, 7 strand

*Indicates Cinch standard option

**Consult factory for larger sizes and multi-row

Appendix A - Material Specifications

Dura-Con™ Micro-D Materials

Shell

M - Metal	Aluminum 6061, SAE AMS-QQ-A-250/11
(Blank) - Cadmium Plating	Cadmium with yellow chromate over coating, SAE-AMS-QQ-P-416, Type II, Class 3
N - Nickel Plating	Nickel, electroless, ASTM B733
A - Plastic	Polyester, 30% glass filled, black
Plastic Body for PCB Mounted	Polyphenylene sulfide, MIL-M-24519, Type GST-40F, black or LCP, black

Insulator

C	Diallyl phthalate glass reinforced, ASTM D-5948 Type SDG-F, green
D	Polyester, 30% glass filled, black

Contacts

P - Pins	Beryllium copper, gold plated, ASTM B 488 Type II Class 1.27
S - Sockets	Copper alloy C36000 or C34000, gold plated, ASTM B 488

Leads

S - Solder Cups	
6 - Wires	Copper alloy C36000 or C31400, gold plated, ASTM B 488
E - Insulated	Silver coated copper wire, extruded PTFE insulation, NEMA HP3, MIL-W-1678/4
J - Insulated	Silver coated high strength copper alloy wire, ETFE insulation, SAE AS 22759/33
K - Insulated	Silver coated copper wire, PTFE insulation, SAE AS 22759/11
3 - Uninsulated	Solid copper wire, gold plated, 60/40 PbSn solder dipped, A-A-59551
4 - Uninsulated	Solid copper wire, gold plated, A-A-59551
PCB Tails	
(Blank) - SnPb Dipped	Solid copper wire, gold plated, 60/40 PbSn solder dipped, A-A-59551
2 - Gold Plated	Solid copper wire, gold plated, A-A-59551

Other Components

Encapsulant	Epoxy
Interfacial Seal (Sockets)	Silicone rubber, ZZ-R-765, Class II B, Grade 70
Dust Cover	Low Density Polyethylene
Hardware	Passivated 300 series stainless steel, SAE AMS 2700

Appendix B - Performance Specifications

Dura-Con™ Performance Specifications

Environmental Specification

Salt Spray	No exposure of base metal when subject to 48 hours of EIA-364-26
Fluid Immersion	Mating / unmating performance is maintained after 20 hours of immersion in synthetic lubricating oil
Thermal Vacuum Outgassing	DCCM insulators and Nickel plated M83513 parts have a maximum TML of 1.0% and CVCM of 0.1%
Thermal Cycling	No damage after 5 cycles from -55°C to 125°C
Humidity	Dielectric performance drops to 100 VAC and insulation resistance to 1,000 megohms
Vibration	No damage after subject to 12 hours of 10 to 2,000 Hz with 20 g peak
Shock	No damage after subject to 50 g shock

Electrical Specification

Current Rating	3 Amps (max.)
Dielectric Withstanding Voltage	i. Sea Level: 600 VAC RMS ii. 70,000ft: 150 VAC RMS 60 Hz
Contact Resistance	8 milliohms maximum change
Insulation Resistance	5,000 megohms min between adjacent pins
Magnetic Permeability	Not to exceed 2.0 u

Mechanical Specification

Contact Engaging Force	6 ounce maximum per contact
Contact Separation Force	0.5 ounce minimum per contact
Contact Retention	Allowable voltage drop of 65 mV for SAE 22759/11, 75 mV for SAE 22759/33 and 60 mV for A-A-59551
Crimp Tensile Strength	5 lbs, 10 lbs for SAE 22759/33 wire
Solderability	Meets MIL-STD-202-208
Durability	No damage after subject to 500 mating cycles

Mating / Unmating Force

Number of Contacts	Mating Force Maximum		Unmating Force Minimum	
	lb	kg	lb	kg
9	5.63	2.56	0.28	0.13

Appendix F - Material Compliance

RoHS Compliance

RoHS compliant parts include all plastic and nickel plated shells with solder cups and wire leads.

Parts are compliant with Exemption 6(c)

6(c) Copper alloy containing up to 4% lead by weight

Nickel plated shells with solder dipped PCB tails specify Exemption 7(b)

7(b) Lead in solders for servers, storage and storage array systems, network infrastructure equipment for switching, signaling, transmission, and network management for telecommunications.

Cadmium plated shells are not RoHS compliant

About Cinch Connectivity Solutions

In operation since 1917, Cinch supplies high quality, high performance connectors and cables globally to the Aerospace, Military/Defense, Commercial Transportation, Oil & Gas, High End Computer, and other markets. We provide custom solutions with our creative, hands on engineering and end to end approach.

Our diverse product offerings include: connectors, enclosures and cable assemblies utilizing multiple contact technologies including copper and fiber optics. Our product engineering and development activities employ cutting edge technologies for design and modeling, and our various technologies and expertise enable us to deliver custom solutions and products for our strategic partnerships.
