High Speed Multi-Function Recorders
Models DAS30 / DAS50 / DAS60

The DAS 30/50/60 high speed multi-function recorders feature versatile channel configurability, high speed sampling (1 MSa/s), a wide input range (±5 mv to ±500 V), large internal solid state memory (up to 64 GB), and 9.5 hours of battery life. Combined with the CAT III isolation rating, these instruments are well suited for applications ranging from small sensor signal logging to electrical power analysis.

The best-in-class 2 µs sampling interval in file mode lets you capture transient events with confidence. Additionally, the large built-in memory allows for data recording over longer periods of time.

Each channel can record a different signal such as voltage, temperature, current or frequency simultaneously, using a common time base. The next-generation touchscreen features unlimited data scrolling, zoom in/out function as well as drag and drop delta cursors for precision measurements.
