

# BMI055 Shuttle Board

## GENERAL DESCRIPTION

The Bosch Sensortec shuttle-board BMI055 is a PCB with a BMI055 Inertial Measurement Unit (IMU) mounted on it. It allows easy access to the sensors pins via a simple socket. As all Bosch Sensortec sensor shuttle boards have identical footprint, they can be plugged into Bosch Sensortec's advanced development tools (e.g. the Development Board or Application Board). Of course, the BMI055 shuttle board can also be used for customer's own implementations.

Note: Product photo may differ from real product's appearance.
