

BMI270 Shuttle Board

GENERAL DESCRIPTION

Bosch Sensortec BMI270 shuttle board is a PCB with a 6-DOF Inertial Measurement Unit (BMI270) along with a 3-DOF Magnetometer (BMM150) mounted on it. It allows easy access to the sensor pins via a simple socket. As all Bosch Sensortec shuttle boards have identical footprint, they can be plugged into Bosch Sensortec's advanced development tools (e.g. the Development Board or Application Board). The BMI270 shuttle board can also be used for customer's own implementations.
