# DC Input, Multi-Channel Half-Pitch Phototransistor Optocoupler 

Data Sheet

## Description

The ACPL-227 is a DC-input dual-channel half-pitch phototransistor optocoupler that contains two light-emitting diodes optically coupled to two separate phototransistors. It is packaged in an 8-pin SO package.

Likewise, the ACPL-247 is a DC-input quad-channel half-pitch phototransistor optocoupler that contains four light-emitting diodes optically coupled to four separate phototransistors. It is packaged in a 16-pin SO package.

For both devices, the input-output isolation voltage is rated at $3750 V_{\text {RMs }}$. Response time, $t_{r}$, is $2 \mu$ s typically, while minimum CTR is 50 percent at input current of 5 mA .
