Brother – at your side

We are a large international company that has been well-known in technology manufacture for more than a cen-tury. Brother's leading products include easy-to-use printers, scanners, all-in-one machines that combine printing, fax, copying and scanning in a single device, and user-friendly labelling systems.

Globally, Brother has 38.628 employees (March 2018), and is present in more than 40 countries.

What sets us apart from others, and brings us together, is how we do things. Our mission defines how we focus on the customer in everything we do. How do we anticipate and meet the customers' needs, and exceed their expectations. The mission clarifies what we stand for and what drives us. In short, you as a customer and your needs are central for us and our business. Our mission aims to make it clear that this is something that all of us at Brother cooperate in, and which allows us all to move in the same direction.

"At your side" is not just something we say. Right from the start, Brother has always been committed to being available to our customers, whoever and wherever they are, and providing what they need. Care for the environ-ment is important to us. Safety and environmental considerations have the highest priority in our whole product cycle – all the way from design, development, manufacture and usage to disposal and recycling.

Our focus will always be on creating high quality and offering it to our customers.

Brother – at your side!

The digital and mobile world

Many of our printers give you the opportunity to work in a more mobile way. Several of our printers are compatible with a number of mobile solutions, providing you with fast and efficient ways to remotely manage printing and scanning operations, as well as upload documents via the Internet*.

AirPrint
Print wirelessly straight from your iPhone or iPad, without having to install a printer driver. Just connect your Apple device to the printer, and print out websites, tickets, boarding cards, emails and anything else you need to print here and now.

Brother iPrint&Scan
iPrint&Scan is a free Brother app that allows you to print out web pages, pictures in various formats and documents from, for example, Dropbox, Google Drive™, OneDrive® and Evernote®. You can scan to your Apple iPhone, iPad, Android or Windows Phone over the wireless network**. A practical and easy-to-use solution – just download the app, and it will automatically search for supported printers in the local wireless network.

NFC – Near Field Communication
NFC (Near Field Communication) is a standard communication format allowing mobile devices to connect to other equipment. For example this technology can be used for data transfer, identification or payment. We use NFC to either connect for printing or scanning, or just for identification via the machine.

Google Cloud Print™
Another technology available is Google Cloud Print™, which allows you to connect your printer to the Internet. You can give yourself and anyone else you choose access to your printer via the applications that you use every day. Google Cloud Print™ functions on your mobile, tablet or any other web-connected devices that you wish to print from.

Web Connect
Print from and scan directly to a variety of cloud-based services, such as SharePoint Online, Box, OneDrive, Google Drive™, Evernote or Dropbox. Just connect your printer directly to your online accounts, and you can work without even having to turn on the computer. You can log in to the cloud service via the touchscreen display on the machine, to work in the 'cloud'.

Brother iPrint&Label
The iPrint&Label app makes it quick and easy to design and print labels from your Apple iPhone or iPad to a Brother label printer through a local wireless network. This means that there is no need for a computer or a printer driver.

Brother Mobile Cable Label Tool
This app is developed to produce labels for identification in connection with telecommunication, datacommunication and electricity. It makes it easy to print labels from your Apple iPhone or iPad to a Brother label printer through a local wireless network. And there is no need for a computer or printer driver.

Design&Print
P-touch Design&Print app lets you design and print labels from your Apple and Android™ smartphone/tablet to Brother P-touch CUBE (PT-P300BT) or CUBE PLUS (PT-P710BT) label printers by the use of Bluetooth technology. Design and save your labels using many different fonts, symbols and frames.

Brother Color Label Editor
Brother Color Label Editor is a free application that lets you print full-color labels and photo labels using your Android smartphone/tablet and a Brother VC-500W label printer via a wireless network. Create and print full-color labels and photo labels. Design your own labels using variety of art objects, backgrounds, frames, and alphabetical fonts.

*Depending on model, read more about iPrint&Scan on your local Brother website **Models with wired network requires wireless router.

3

Brother's series of professional mono laser printers for work groups

– designed to provide more options for businesses.

Accessory: 4 x 100 sheet or 2 x 400 sheet output mailbox.

HL-L6400DW

Accessory: Tower Tray for 4 x 520 sheets.

Quiet, fast
and reliable
The HL-L2300
range is designed
to fit on your desk,
printing quietly at
full speed while you
work without inter-
ruption.

Mono laser printers

PRINT   WIRELESS *   NETWORK CABLE *   USB

Everything you need for 3 years of printing in one box.
Stylish All In Box printer that delivers high-quality mono print, but
are so compact that it can be placed on a shelf
or beside a workstation.

- Print up to 20 ppm
- Built-in wireless network card
- Up to 150-sheet paper tray

Mono laser printers for low-volume printing needs. The models
feature duplex (2-sided) printing, to automatically print on both
sides of the paper. There is a separate toner and drum, so only
empty units will need to be replaced.

- Windows, Mac and Linux compatible
- First page printed in less than 8.5 seconds*
- Very quite, less than 50dBA
- Duplex printing (2-sided printing)
- Hi-Speed USB 2.0
- Up to 250 sheet paper tray and manual feed slot
- Optional high yield toner

*Depending on model.

Separate consumables

Our machines feature separate consumables, which is an advantage because you only need to change those that are used up – and that means savings on operating costs. You can often choose toners in different sizes – using larger sizes means further consumption savings.

Mono laser printers

PRINT   WIRELESS *   NETWORK CABLE *   USB

Mono laser printers with good performance, fast printing speed and flexible paper handling. Increase your efficiency and get excellent results every time.

- Windows, Mac, Citrix and Linux compatible
- PCL®6 (DOS), BR-Script3, IBM® Proprinter XL and Epson® FX-850 compatible
- LCD display makes it easy to see the printer's status – and whether any consumables need to be replaced
- Print up to 40ppm
- First page printed in less than 7.2 seconds
- Automatic duplex printing (2-sided printing)
- Hi-Speed USB 2.0
- Up to 250 sheet paper tray and 50 sheet multi-purpose tray
- Optional additional paper trays for 250/520 sheets**
- Optional high yield toner

*Depending on model.
**The HL-L5100DNT & HL-L5200DWT can only accommodate one optional tray.
***Parallel connection cable (PC5000) is requried.

LED technology
Our compact colour printers are based on LED (Light Emitting Diode) technology, which means that rows of LEDs pulse-flash across the page. The image is formed on the drums and transferred to the paper as it runs through the machine.

LED colour printers

PRINT   WIRELESS   NETWORK CABLE *   USB

Print the pages you need – fast. Print speed of up to 24ppm for both mono and colour. The wireless network card means you can share the printer with colleagues. And there are four separate toners, so only the colours that run out need to be replaced.

- Windows, Mac, Citrix and Linux compatible
- PCL®6 (DOS) and BR-Script3 compatible
- Built-in wireless network card
- Up to 250 sheet paper tray and manual feed slot
- Optional high yield toners
- Four separate toners

*Depending on model.

Fax reception
Our fax machine comes with fax/voice call detection,allowing faxes to be received directly on the device.

Fax

FAX

Most offices need to be able to send and receive documents safely and securely to and from various partners in a simple and efficient manner. Our fax machine is both user-friendly and stable, and you can use it with the same number as your telephone. Via your service provider, you can also obtain a separate number which can be used exclusively for faxes, on the same line.

Laser fax machine:
- LCD display with 2 lines, 16 characters
- Dual Access for up to 50 jobs
- Broadcast to up to eight groups – up to 272 recipients
- Digital copy function - up to 20ppm
- Zoom from 25% - 400% in 1% increments
- Up to 99 multiple copies
- Stack-and-sort function
- Up to 250 sheet paper tray
- Up to 30 sheet automatic document feeder (ADF)
- Up to 400 page memory

FAX-2840
- Prints up to 20ppm
- 16 MB memory
- 33.6 kbps fax modem
- 22 one-touch dials
  + 200 speed dials
- Size: 368 x 360 x 311mm
- Weight: 8.8kg
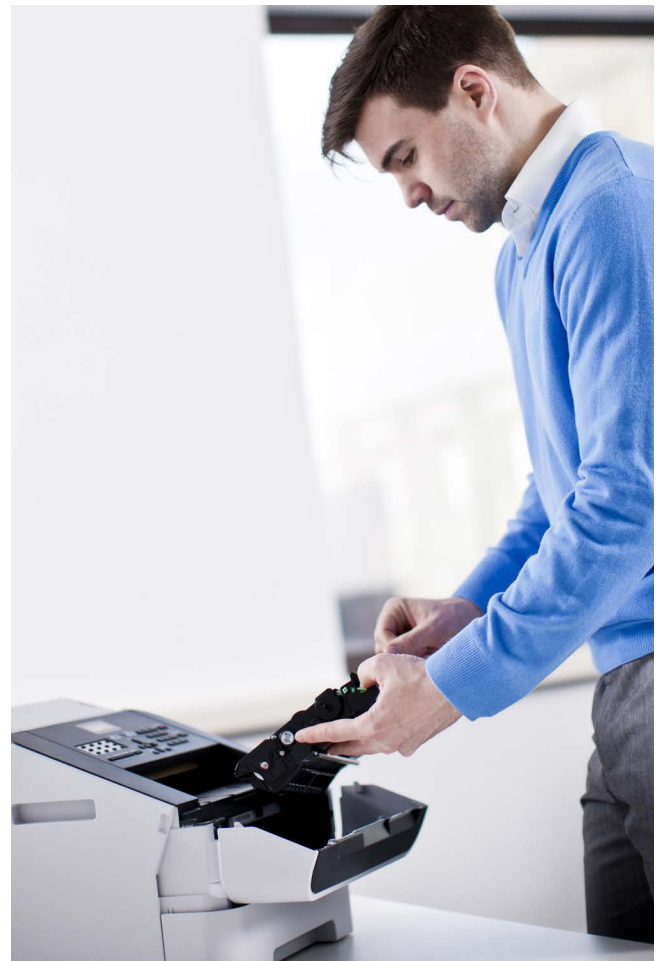

FAX-2840

Flexible solutions

Our printing solutions are designed to make your working day easier, maximise their efficiency and minimise costs.

Secure Print+ – Secure document printing with Brother Secure Print+
Secure Print+ is firmware that enables you to print confidential business documents securely:

• Your confidential documents are printed when you need it

• Only authorised staff can collect their documents

• Sensitive documents are not sat at the printer for everyone to see

Barcode Utility – Scanning documents with barcodes
Brother's Barcode Utility software enables documents that have a barcode to be scanned and processed much faster and reduces the risk of error.

Custom UI – Personalised touchscreen experience
With Custom UI from Brother, you can now tailor the touchscreen experience to exactly what you need.

• Fully customise the visual layout

• Add your own backgrounds and icons

• Create bespoke workflows including personalised 'scan-to' destinations

Managed Print Services (MPS)
A Managed Print Service is a simple way to increase productivity and streamline budgets. This service provides peace of mind and is based on purchased hardware and consumables, which are paid for 'per click'. A sensible way to improve cash flow, while at the same time reducing overall printing costs.

AirPrint — With AirPrint, you can print wirelessly directly from an IOS device, such as an iPhone, iPad or Mac.	•	•	•	•	•	•	2	•	•	•	•	•	•	•
Google Cloud Print — With Google Cloud Print, you can print on your printer via the Internet or a mobile app.	•	•	•	•	•	•	•	•	•	•	•	•	•	•
Mopria — With Mopria, you can print on your printer from your Android device (4.4 or later) via Mopria Print Service from Google Play.	•	•	•	•	•	•	•	•	•	•	•	•	•	•
iPrint&Scan — You can print web pages, documents or photoes via your Android, iOS or Windows Phone. Also, you can scan photoes or documents from your Brother all-in-one directly to your unit, reducing them for sharing online or via email.	•	•	•	•	•	•	•	•	•	•	•	•	•	•
Web Connect (cloud) — Via your Android, iOS, or Windows Phone device, you can print web pages, documents or photos. Or scan photos or documents from your Brother all-in-one machine directly to your device, ready for sharing online or via email.	•	•	•	•	•	•	•	•	•	•	•	•	•	•
Brother Apps & Solutions — Brother Apps are a series of new, cloud-based document solutions, such as Office Doc Creator, Smart Scan and Note Scan, through which you can directly access your printer and scanner.	•	•	•	•	•	•	•	•	•	•	•	•	•	•
Print functions														
Automatic duplex printing and booklet printing (Windows only) — With the booklet function, you can print booklets automatically, reduce the page size, and print four pages on a single page.	•	•	•	•	•	•	•	•	•	•	•	•	•	•
Barcode printing — Automatically print barcodes.	•	•	•	•	•	•	•	•	•		•			•
SAP R/3 certification — Supports printing from SAP systems.	•	•	•	7	•	•	•	•	•		7			7
Media card reader — Print directly from or scan directly to a memory card.														
PictBridge — A standard that makes it easy to print directly from a digital camera.														
USB Direct Printing — A USB port on the front of the machine allows you to print directly from a USB key.	•	•	•	•	•	•					•	4	4	•
Secure print — Protect your confidential documents with a PIN code when you print them.	•	•	•	•	•	•	•	•	•					•
SSL encryption — Encrypt your print jobs when you send them via the Internet.	•	•	•	•	•	•	•	•	•	•	•	•	•	•
Copying — Copy documents directly to the printer.	•	•	•	•	•	•	•	•	•	•	•	•	•	•
Citrix — A standard for external users of Windows applications (Remote Desktop).	•	•	•	7	•	•	•	•	•	7	7	•	•	7
Scan functions														
Duplex scan/fax/copy — Scan, copy or fax both sides of the paper automatically.	•	•	•		•	•		•			6	6		•
Scan to email server — Scan directly from the printer to an email recipient via an SMTP email server.	•	•	1		•	•	1				•	1	1	•
SSL/TLS, scan to email server — A security protocol used by some email servers for authorisation.	•	•	•	•	•	•	•				•	•	•	•
LDAP — Lightweight Directory Access Protocol) A protocol used to connect to a central address book on a network.	•	•	•	•	•	•	•				•	•	•	•
Scan to FTP Server — Scan directly to an FTP server via your network or the Internet.	•	•	•	•	•	•	•	•	•	•	•	•	•	•
Scan to network-shared folder (Windows only) — Scan directly to a folder on your network drive.	•	•	•	•	•	•	•	•	•	•	•	•	•	•
Scan directly to USB key — A USB port on the front of the machine allows you to scan photos, documents or PDF files directly to a USB key.	•	•	•	•	•	•	•	•	•	•	•	•	•	•
Scan to email/image/file (client software required) — Scan photos or documents directly to your email software, image software or a file on your computer's network via "client software".	•	•	•	•	•	•	•	•	•	•	•	•	•	•
Scan to OCR — Scan text documents and convert them into editable text.	•	•	•	•	•	•	•	1	1	1	•	•	•	•
ISIS — Compatible driver for ISIS (Image and Scanner Interface Specification).	•	•	•		•	•	•							
Fax functions														
Network PC fax — Send or receive faxes to and from the machine via your local network.	•	•	•	•	•	•	•	•	•	•	•	•	•	•
Internet fax — Send fax via the Internet and reduce costs.	•	•	1		•	•	•				•	1	1	•
Network and wireless functions														
IPv6 — The new generation TCP/IP Internet protocol will be introduced when Internet addresses with IP4v expire.	•	•	•	•	•	•	•	•	•	•	•	•	•	•
AOSS wireless — (AirStation One-Touch Secure System) Set up a secure wireless connection at the touch of a button.					•	•								
Intel My WiFi, wireless connectivity — A standard for fast and easy connection directly to other wireless devices without using a router or access point.														
Wi-Fi DirectTM — A standard that allows wireless devices to communicate with each other without the need for a wireless access point.	•	•	•	•	•	•		•	•	•	•	•	•	•
WPS, wireless connectivity — (Wi-Fi Protected Setup) is a computer standard for simple and secure wireless network setup at home.	•	•	•	•	•	•	•	•	•	•	•	•	•	•
802.1x (PNAC) — A secure protocol to prevent outsiders connecting equipment to a network via a network cable.	•	•	•	•	•	•	•				•	•	•	•
Active Directory Autentification — Users can authenticate at the machine via AD (their Active Directory).	•	•	•	•	•	•	•	•			•			
NFC — Print from your Brother App directly from your smartphone with NFC (Near Field Communication). You select the document from your iPrint&Scan app, then simply hold your mobile device towards the printer to print it.	•				•	•		•			•	•		•
USB Host — For external card reader.	•				•	•								
Administration functions														
BR-Admin Professional 3 — Administrative software to configure network equipment or collect print statistics from any Brother machine.	•	•	•	•	•	•	•	•	•	•	•	•	•	•
Driver Deployment Wizard — An interactive guide that helps to distribute printer drivers to many users for locally or network-connected Brother devices.	•	•	•	•	•	•	•	•	•	•	•	•	•	•
Email notification — The printer can automatically send an email with status or error messages.	•	•	•	•	•	•	•	•	•	•	•	•	•	•
Function lock — A function to prevent unauthorised use. Allows different users to use certain functions.	•	•	•	•	•	•	•				•	•	•	•
Web-based management — The printer has a built-in website for easy configuration and administration of your Brother network device.	•	•	•	•	•	•	•	•	•	•	•	•	•	•

SCAN TO MS OFFICE

Scan your documents directly into Excel, Word or PowerPoint with just a click on your Brother machine – and they'll be ready for editing.

Contact your Brother dealer for more information.

Small mobile scanners
The perfect scanner series for anyone who needs a compact solution for scanning – anytime, anywhere.

Scanners (mobile scanners)

SCAN **WIRELESS*** **USB**

Whether you are in the office, on the road or at home, and need to scan receipts, invoices, order forms, recipes or anything else, these scanners are the perfect solution – on your desk or in your bag. With the DS-720D and DS-920DW, it is even possible to scan a 2-sided document in one pass, at the touch of a button. The DS-820W and DS-920W each have a built-in wireless network card, and can use the battery as power supply.

- Scan up to 7.5ppm in mono or colour (A4)
- Up to 600 × 600dpi print resolution
- Scan to PDF, searchable PDF, TIFF, JPEG or OCR** email, file, FTP or SharePoint** (Windows only)
- Hi-Speed USB 2.0
- One-touch scanner technology
- Software included:
  User-friendly scanner software for Windows: DSmobile-Capture, Button Manager v2, Nuance® PaperPort 12 SE, NewSoft® Presto!® BizCard 6 User-friendly scanning software for Mac: DSmobileCapture, NewSoft® Presto!® BizCard 6, NewSoft® Presto!® PageManager 9
- Supplied with USB cable, software and drivers, carrying bag, carrier sheet to protect pictures when scanning, cleaning cloth and calibration sheet

  *Depending on model.
  **Requires installation of accompanying software.

DS-620
- Power supply via USB
- Size: 291 x 53 x 37mm
- Weight: 400g

DS-720D
- 2-sided scans of up to 5ppm or 10ipm in mono or colour (A4)
- Power supply via USB
- Size: 291 x 67 x 41mm
- Weight: 500g

DS-820W
- Wireless network card
- Scans directly to SD card
- Power supply via USB or battery
- Li-ion battery and 4 GB SD card included
- Size: 308 x 52.5 x 40.7mm
- Weight: 440g

WIRELESS

DS-920DW
- 2-sided scans of up to 5ppm or 10ipm in mono or colour (A4)
- Wireless network card
- Scans directly to SD card
- Power supply via USB or battery
- Li-ion battery and 4 GB SD card included
- Size: 308 x 67 x 42mm
- Weight: 530g

WIRELESS

The ADS-1200 and ADS-1700W can scan directly to a USB key, and with the ADS-1700W you can scan directly to various cloud services. Hereby, you and your colleagues can easily access the scanned document from a computer, tablet or other mobile device.

Scanners (compact scanners with ADF)

SCAN **WIRELESS*** **USB**

The ADS-1200 and ADS-1700W will fit easily into your home or office. The compact size and wireless network card (only ADS-1700W) make it easy to move the scanner around, so that you can position it anywhere you need to scan. And with the ADS-1700W, you can scan directly to an email server or to various cloud services without even having to turn on your computer.

- Windows, Mac and Linux compatible
- Colour scanning
- Up to 25ppm (A4)
- Up to 50ppm (25 sheets) in duplex (A4)
- Up to 20 sheet document feeder (ADF)
- Resolution up to: 600 × 600dpi (optical) and 1,200 x 1,200dpi (interpolated)
- Hi-Speed USB 2.0 and micro USB 3.0
- One-touch scanner technology
- 288MHz processor
- Software included:

   Windows: iPS for Windows, Nuance® PaperPort 14 SE, Remote Setup software

   Mac: iPS for Mac, Remote Setup software

*Depending on model.
*Requires installation of accompanying software (SharePoint only for Windows).

ADS-1200
- 256MB memory
- Portable with USB 3.0 Bus power
- Scan to email, image, file, PDF, searchable PDF, TIFF, JPEG or OCR**
- Supplied with AC adapter and quick setup guide
- Size: 300 x 103 x 83mm
- Weight: 1.36kg

ADS-1700W ⚙ ⚙
- 512MB memory
- Built-in wireless network card
- Zero-touch scan with auto start scan
- Scan directly to your smartphone or tablet via the iPrint&Scan app
- Scan to email, image, file, USB key (without PC), PDF, searchable PDF, TIFF, JPEG, OCR or SharePoint**
- Scan to network, email server, cloud or Microsoft® Office (Word, Excel, PowerPoint)
- Email address book
- 7.1cm colour touchscreen
- Supplied with AC adapter and quick setup guide
- Size: 300 x 103 x 83mm
- Weight: 1.41kg

WIRELESS

The mobile world:
⚙ **iPrint&Scan** – scan directly to a smartphone or tablet

⚙ **Web Connect** – scan directly to many cloud services, such as: Google Drive™, Dropbox, Evernote, Box & OneDrive

(The services may depend on the model).

PocketJet

Compact portable printers that give a flexible print solution, which can be used anywhere.

PocketJet (mobile printers)

PRINT **WIRELESS*** **USB**

Our PocketJet series printers are designed for those who need a printing solution whilst out and about: small, compact and portable monochrome printers, which can, for example, be mounted in a car and connected to the cigarette lighter socket via a cable, and can print on both A4 sheets and paper rolls.

- A4 printing in a compact design
- Fast printing speeds of up to 8ppm
- Measure just 255 × 55 × 30mm and weighs approx 480g**
- ESC/P and Brother command settings
- USB interface
- Memory for template/form storage
- Direct thermal printing technology
- Uses rechargeable batteries, AC adapter or car adapter (all sold separately)
- Supplied with quick setup guide, CD-ROM (printer driver and manual), USB cable and head cleaning sheet**
- Wide range of optional accessories available – see page 55

*Depending on model.
**Without AC adapter, batteries, paper and any other accessories.

PJ-722
- 203 × 200dpi print resolution

Perfect on the go
The RJ series' impressive print speed, solid design and many usages make the printers capable of fulfilling the demands from many different industries. Connectivity through Bluetooth, wireless network or USB makes it possible to print wherever you are, even in the most extreme environments.

RuggedJet (2-inch mobile receipt and label printers)

PRINT   **WIRELESS*** | **USB**

The RuggedJet series offers mobile printing solutions with versatile connectivity options that will increase the productivity of the employees and improve your customers' satisfaction. In modern business life, you need to differentiate yourself from your competition and perform better, and these printers do just that. The solid and practical design together with the many options for connectivity make them perfect for working on the go, so you can print wherever you are.

- Print speed up to 152mm/sec. (5inch/sec.)
- Direct thermal printing – requires no ink or toner
- 2.5m drop test
- Temperatures from -10 °C to 50 °C and humidity of 10-90 % (without forming condensation)
- Up to 203dpi print resolution
- USB connectivity
- Uses rechargeable batteries, AC adapter or car adapter (sold separately)
- Supplied with Li-ion battery, belt clip, quick setup guide, product safety guide (free download of drivers and label software)
- Lots of optional accessories available – see page 55

*Depending on model.

RJ-2030
- Up to 54mm receipt printing
- Bluetooth interface
- Size: 122 x 100 x 57mm
- Weight: 465g (incl. battery)

RJ-2050 ✿
- Up to 54mm receipt printing
- Bluetooth and Wi-Fi interface
- MFI
- Size: 122 x 100 x 57mm

Customise your printing needs with various accessories

As all printing tasks are different, you only need to order the accessories that match your specific needs – and thereby keep costs down. Optional accessories, like 220V adapter, 12V cables for car mounting, charging cradle, external battery charger and more.
For the complete accessories list, see page 53.

Dimensions are (w) x (d) x (h).
You can read more about the products and see specifications on your local Brother website

The printer that does the work on the spot!
The RuggedJet series' compact, ergonomic and lightweight design means you can bring your printer to work. The series is based on direct thermal technology, making the devices ideal for use in the car or on the street, as the technology is less susceptible to humidity and temperature changes than other printing technologies.

RuggedJet (3-inch mobile receipt and label printers)

PRINT **WIRELESS** | **USB**

The RuggedJet series offers high-quality thermal printing of up to 118mm receipts and labels. The printers' impressive print speed and robust character enables them to meet the requirements for a variety of applications in the vertical market. Connectivity via Bluetooth, Wi-Fi, USB or serial interface.

- Up to 72mm receipt and label printing
- Bluetooth and Wi-Fi interfaces
- Print speed up to 127mm/sec. (5inch/sec.)
- Direct thermal printing – requires no ink or toner
- Up to 203 × 200dpi print resolution
- USB connectivity
- Withstands temperatures from -10 °C to 50 °C and humidity of 10-90% (without forming condensation)
- Li-ion battery included
- Uses rechargeable batteries, AC adapter or car adapter (sold separately)
- Supplied with Li-ion battery, belt clip, quick setup guide, product safety guide (free download of drivers and label software)
- Lots of optional accessories available – see page 55

Versatile labelling

Software solutions
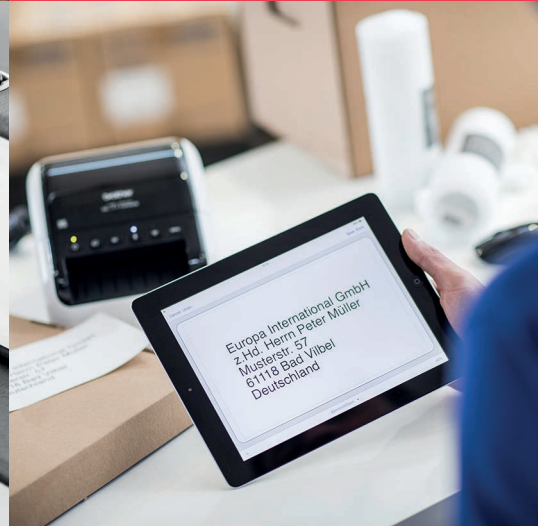

Professional Brother label printer series for all industries

Professional label printers

PRINT   NETWORK CABLE*   USB

Bridge the gap between stationary and mobile printing with these compact label/receipt printers. The series consists of four models with different print resolutions and connectivity. All models come with USB and serial* interface ports, while the TD-2120N, TD-2130N and TD-2130NHC also have wired network cards and USB host ports, with the option of adding a module for Wi-Fi or Bluetooth.

- Max. label width 63mm
- Max. roll diameter 127mm – no spindle in the machine
- Print speed up to 152.4mm per second (6 ips)
- Control panel with three buttons and two LEDs
- Numbering from 1-999
- Many barcodes and fonts
- Label length up to 1m
- 6MB memory
- Automatic date/time (via P-touch Editor)
- Can be used for DOS-based financial systems via serial port
- Full Speed USB 2.0 and RS232C* serial interface
- Print from various operating systems/software using the Brother ESC/P printer language (also ZPL II® emulation compatible) or by using templates for seamless integration with new and existing solutions
- Solutions for Windows™ systems with the b-PAC development kit
- Solutions for smartphone and tablet (Apple™, Android™ and Windows Mobile™)
- Size: 110 x 215 x 172mm
- For available label types and sizes – see page 53

*Depending on model.
**(Windows XP or later / Windows Server 2003 or later)

TD-2020
- Label printer for PC (Windows XP or later)
- Resolution: 203dpi
- Supplied with adapter, CD-ROM with printer driver, P-touch Editor 5.0, P-touch Transfer Manager 2.1, P-touch Update software and manuals
- Weight: 1.32kg

TD-2120N
- Label printer for PC**
- Resolution: 203dpi
- Built-in wired network card
- Lots of optional accessories available
- Supplied with adapter, CD-ROM with printer driver, P-touch Editor 5.0, P-touch Transfer Manager 2.1, P-touch Update software, BRAdmin Light, Network setting tool and manuals
- Weight: 1.34kg

TD-2130N
- Label printer for PC**
- Resolution: 300dpi
- Built-in wired network card
- Lots of optional accessories available
- Supplied with adapter, CD-ROM with printer driver, P-touch Editor 5.0, P-touch Transfer Manager 2.1, P-touch Update software, BRAdmin Light, Network setting tool and manuals
- Weight: 1.34kg

TD-2130NHC - Label printer for patient wristbands and labels.
The TD-2130NHC utilises specialised Trust Sense™ media from PDC Healthcare.
- Supplied with adapter, CD-ROM with printer driver, P-touch Editor 5.0, P-touch Transfer Manager 2.1, P-touch Update software and manuals.
- Weight: 1.34kg (without accessories)

Optional accessories:

Professional label printers for all labelling applications
These two printers print labels at speeds of up to 110 mm/sec., and also have a built-in cutter as standard, so that you don't have to use a cumbersome tear-bar. Moreover, you can create labels of any length from 25mm up to three metres by loading a label roll of continuous length and cutting it to the desired length.

Name: Maria Richards
Sex: Female
Date Of Birth: 27/09/1979

Professional label printers

PRINT **NETWORK CABLE *** **USB**

The TD-4000 and TD-4100N are two fast, advanced label printers that come with barcode label software, built-in cutter and network card (TD-4100N only).

- Print from different operating systems/software via the Brother ESC/P printer language or by downloading templates
- Supplied with 102mm paper tape in continuous rolls (starter roll, 2m) and 60 pcs. 51mm × 26mm die-cut labels, power supply cord and USB cable, and CD-ROM with software, drivers and user manual.
- For available label types and sizes – see page 53

*Depending on model.
**Using P-touch Editor 5 label design software.

TD-4000
- Resolution: 300 × 300dpi
- Print speed up to 110mm/sec.
- Uses RD rolls up to 102mm
- Automatic cutter
- Print up to 9,999 labels per job**
- Supports more than 15 popular 1D and 2D barcode protocols**
- Link to data in .xls and .mdb files, as well as SQL server databases**
- Automatic printing of date/time**
- Connectivity via USB/serial RS 232 port
- Size: 173 x 229 x 158mm
- Weight: 1.81kg (without RD-rolls)

TD-4100N
As TD-4000, plus
- Built-in wired network card
- Supports Windows Server 2003 and 2008
- Supplied with network printer management software
- Size: 173 x 229 x 158mm
- Weight: 1.83kg

Unique and valuable to many users
Brother VC-500W is a full colour label printer which use ZINK (Zero Ink) colour print technology. It's easy to design and print colourful labels via Wi-Fi or USB from your PC using Windows or macOS. You can also design and print labels using the free Brother "Colour Label Editor" app on your Apple iOS or Android smartphone/tablet.

Full colour label printer

PRINT   WIRELESS | USB

The label printer is well suited for name badges with photos, signage and general labelling that require use of colour print. It is also very cost-effective as it needs no ink nor toner. All you need to make colourful labels is a tape roll that is easy to install as well as replace, and it gives you the freedom of printing labels in the exact length that you need. Just load a continuous roll (available in 5 different widths) and start to create your labels.

• Print labels directly from your Apple iOS or Android device
• Windows and Mac compatible
• Free Label Design Software for Windows and macOS
• Uses CZ-tape (5m) in sizes: 9, 12, 19, 25, 50mm
• Print speed 8mm/sec
• USB and built-in wireless network card
• Direct thermal print technology using special label media
• Print in CMY colour
• Print resolution: 313dpi
• Full cutter with easy peel function
• Supplied with AC adapter, 25mm x 5m roll cassette, Cleaning Roll casette, USB cable and Power cable

The ZINK Technology and ZINK trademarks are owned by ZINK Holdings LLC. Used under license.

No ink required. Label roll simply changes colour during printing!

VC-500W
• Size: 113 x 116 x 96mm
• Weight: 660g

P-touch Editor software

P-touch Editor software is included with our label printers for PC – free! The software is easy to use, and is perfect for both beginners and experts. With our powerful software, you can easily create simple labels and design custom labels with barcodes, tables, images, logos, automatic time and date, etc.

The software is installed by default in English, but a number of other languages are also included – perfect for use in international work environments.

With the bundled P-touch Editor software* installed, you can choose to add a special P-touch icon on the toolbar in Word, Excel or Outlook. If you have written a text in Word, you can quickly print a label in three easy steps:

1. Highlight the text you want on your label
2. Click on the P-touch icon
3. Your label is printed out.

*Depending on model. The software can be downloaded free of charge from your local Brother website
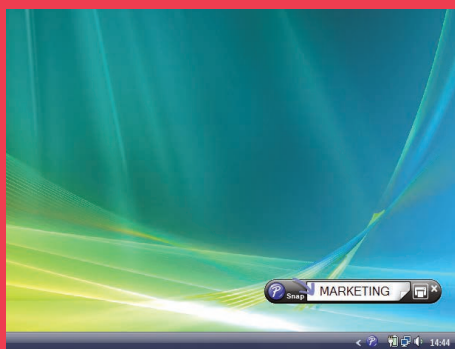

Snap mode

The simplest solution ever for printing professional-looking labels.

1. Write the text you want for your label in the Snap mode.

2. Click the print button!

That's it. That's how quick and easy you can create professional-looking labels.
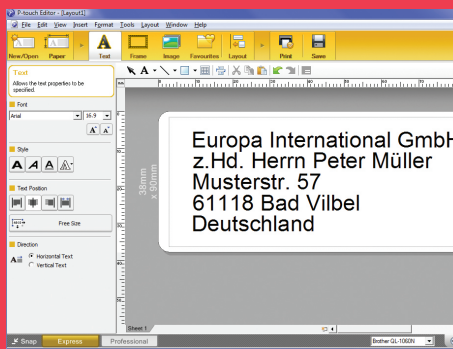

Express mode

Brother knows that you sometimes like to print more customised labels, with frames, images, screenshots, logos or the like to get an even more professional appearance. This type of label can easily be made in the Express mode of the Brother software.

In Express mode, you have access to all the main features to make personal and professional-looking labels, shown in a very easy-to-understand way.

Professional mode

For users who need even more specific and customised information on their labels, such as barcodes, tables, sequential numbering, etc., the Professional mode is the perfect solution.

Professional mode is more advanced than Express mode, and gives you access to a wide range of professional features in a clear and simple way.

P-touch information

P-touch – labels that last!

The P-touch labelling system is designed to enable easy labelling wherever needed. Choose between ergonomic, handheld models that are easy to carry around, or compact desktop models that sit on your desk, but can also be taken along if the need arises. Whichever model you choose, our unique TZe tape will ensure that your labels will last for years.

In a busy working environment, it is important to have the right equipment at hand. Our professional labelling machines will meet all your labelling requirements, helping you to get things in order quickly and easily. You can connect label printers to your PC or Mac, and via the supplied software, you can design your own labels directly on the screen and print them out.

There is a wide range of choices of typography, fonts, sizes and symbols, and many useful and unusual special effects and printing functions. Several of our industrial and business models also include built-in barcode protocols and the standard commercial, industrial and science-related symbols. The P-touch Editor label design software is included with most of our P-touch labelling machines for PC (the software can also be downloaded free from your local Brother website) and our QL series. This gives you even more sophisticated design options.

Not all of the following features and special effects are available for all models. To make sure that the model you are considering purchasing has the features and effects you want, please consult your local Brother dealer or visit **your local Brother website**

Why P-touch labels lasts
Our laminated P-touch TZe labels are designed to last, wherever you use them. Unlike ordinary labels, our unique lamination technology covers the text in a layer of superclear polyethylene which protects against external wear.

protective layer(PET) 38 µm
adhesive (acrylic)
colour layer film (PET)
adhesive (acrylic)
backing paper
text layer
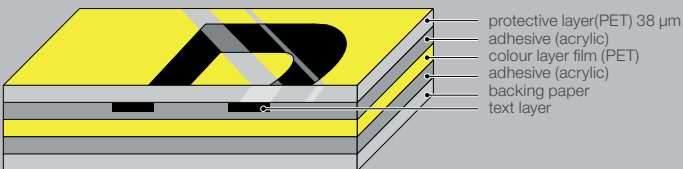

The laminated P-touch TZe labels consist of six different layers, resulting in a thin but extremely strong label. The text is created by thermal transfer and is sandwiched between two protective layers of PET (polyester film). The result is a virtually indestructible label that can withstand even the harshest environments.

Special effects for P-touch labels

You can easily improve your label design and meet specific labelling requirements using the special effects that are built into many of our P-touch label printers. These include:

Vertical printing:
This feature is perfect for shelves and storage systems. It also makes it easy to create labels for book spines and binders.

Rotated printing:
You can rotate text or images by 90 degrees and carry out continuous printing to create a 'wraparound' label. This kind of label is perfect for curved surfaces, wires, cables or pipes.

Multi-line printing:
With most models, you can print multiple lines of text and mix font sizes and types on the same label.

Mirror printing:
This feature is handy when creating labels that must be applied to the inside of a transparent surface, but read from the outside.

Text framing:
Perfect for highlighting or isolating portions of a label.

Underlining:
Many models can also underline all or part of the text on a label.

Abrasion resistant **Resistant to chemicals** **Easy to peel** **Suitable for outdoor use** **Laminated** **Tolerates high/ low temperatures** **Water resistant** **Strong Adhesion**

P-touch handheld and desktop models

PRINT

Handheld and desktop label printers that are easy to take with you on the go, and which all include the most used functions.

- Uses TZe tape in sizes: 3.5, 6, 9 and 12mm
- Design labels with different fonts, sizes and styles (bold, italic, etc.)
- Wide range of symbols and frames
- Underline text
- Mirror printing
- Vertical printing
- Repeated printing
- Automatic numbering
- Resolution: 180dpi
- Power supply: Batteries or adapter
- Many types of tape in different colours and sizes available – see page 52

PT-H110
- Prints up to 2 lines on 12mm tape
- Manual cutter
- Supplied with 12mm black on white starter tape (4m)
- Size: 111 x 58 x 204mm
- Weight: 400g

PT-H500
- Plus TZe tape in sizes: 18 and 24mm
- Prints up to 7 lines on 24mm tape
- Can use heat shrink tape
- Print from Windows/macOS
- Connects to PC via USB cable
- Barcodes
- Power supply: Batteries, Li-ion battery or adapter
- Automatic cutter
- Supplied with 24mm black and white starter tape (4m), wrist strap, software and USB cable
- Size: 122 x 91 x 245mm
- Weight: 830g

PT-D210VP
- Prints up to 2 lines on 12mm tape
- Manual cutter
- Supplied with carry case, adapter and 12mm black on white starter tape (4m)
- Size: 157 x 149 x 68mm
- Weight: 490g

PT-D400
- Plus TZe tape in size: 18mm
- Prints up to 5 lines on 18mm tape
- Label Collection
- Manual cutter
- Supplied with batteries and 18mm black and white starter tape (4m)
- Size: 188 x 72 x 177mm
- Weight: 730g

PT-D450VP
Same as PT-D400, plus
- Print from Windows/macOS
- Supplied with carry case, adapter and 18mm black and white starter tape (4m), plus USB cable
- Size: 188 x 72 x 177mm
- Weight: 740g

P-touch TZe tape
Unlike conventional tape, our tape is laminated. That means that the text is protected between a layer of clear polyethylene and a hard-wearing base. This creates an extremely strong label that can withstand sunlight, abrasion, moisture, chemicals, heat and cold.

P-touch craftsman models

PRINT   WIRELESS*   USB

If you need professional and durable labels whilst out and about, you should take a look at these label printers. Designed for use by professionals, they come with the common electrical/datacom symbols, and are all supplied with an adapter and carry case, making them easy to bring with you.

- Uses TZe tape in sizes: 3.5, 6, 9 and 12mm
- Design labels with different fonts, sizes and styles (bold, italic, etc.)
- Wide range of symbols and frames, plus special electrical symbols
- Can use heat shrink tube**
- Vertical printing
- Repeated printing
- Automatic numbering
- Resolution: 180 dpi (up to 180 x 360 from PC*)
- Power supply: Batteries, adapter or Li-ion battery***
- Many types of tape in different colours and sizes available – see page 52

Depending on model.
**Not PT-E110VP.
***Li-ion not for PT-E110VP.

The mobile world:
⚙ **iPrint&Label** – print directly from a smartphone or tablet
⚙ **Mobile CableLabel Tool** – Print labels for telecom/datacom and/or electrical identification using a local wireless network
(The services may depend on the model.)

LABELS TESTED TO THE EXTREME ✔

PT-E110VP
- Prints up to 2 lines on 12mm tape
- Manual cutter
- Supplied with carry case, adapter and 9 mm black/white flexible ID tape (8m)
- Size: 111 x 58 x 204mm
- Weight: 400g

PT-E300VP
- Plus TZe tape in size: 18mm
- Prints up to 5 lines on 18mm tape
- Barcodes
- Manual cutter
- Supplied with carry case, adapter, Li-ion battery and 18mm black on yellow strong adhesive tape (8m), plus wrist strap
- Size: 133 x 74 x 220mm
- Weight: 740g

PT-E550WVP ⚙⚙
- Plus TZe tape in sizes: 18 and 24mm
- Prints up to 7 lines on 24mm tape
- Prints from Windows/macOS
- USB and wireless network card
- Automatic cutter with half cut function
- Barcodes
- Smart free cable label apps for iOS and Android
- Supplied with carry case, adapter, Li-ion battery, 24mm black on yellow strong adhesive tape (8m), 12mm black on white flexible ID tape, wrist/neck strap, documentation and USB cable
- Size: 126 x 94 x 250mm
- Weight: 1.05kg

WIRELESS

PT-P750TDI ⚙
- Plus TZe tape in sizes: 18 and 24mm
- Prints up to 7 lines on 24 mm tape
- Automatic cutter with half cut
- USB and wireless network card
- Smart free cable label apps for iOS and Android
- Supplied with adapter, Li-ion battery, 12mm black on white flexible ID tape (8 m), 26.6mm black on white heatshrink tube (1.5m), carry case and USB cable
- Size: 78 x 152 x 143mm
- Weight: 820g

WIRELESS

Dimensions are (w) x (d) x (h).

Brother Earth – working together for a better environment

Welcome to Brother Earth

At Brother, we have always taken our responsibilities seriously and acted respectfully to influence society in a positive way – and now we are working even harder to reduce our impact on the environment. We use sustainable materials and reduce the amount of waste we produce, while continuing to offer our customers innovative products with low running costs – and without compromising on quality.

Brother Earth complements our "At your side" philosophy of by providing our customers with the information they need to choose a brand with genuine dedication to social and environmental concerns.

Ecolabel information

The Swan ecolabel
The Swan is a Nordic ecolabel. With Swan-labelled office machines, you are not only guaranteed that the environment is taken into account right through the product lifecycle, but also high-quality.

Der Blaue Engel
This label covers both environmental and consumer protection. The emphasis is on holistic considerations, including working conditions, health safety and user-friendliness requirements.

Cool Earth
As part of our ongoing commitment to the environment, we have entered into a partnership with the ground-breaking worldwide organisation Cool Earth.

Together, we are working to protect part of the Amazon rainforest in Peru, where we are helping to prevent deforestation, reduce CO_2 emissions and conserve the plant and animal life.

Returning used consumables
You can help to protect the environment with Brother's return and recycling programme. As part of Brother's environmental policy, you can send us used toners, drums and cartridges postage-free for recycling.

Why the Nordic Swan ecolabel?
We know that it can often be difficult to decide which product is best for the environment. When buying products with the Swan label, you are guaranteed the most eco-friendly products on the market. Brother offers a wide range of Swan-labelled printers and multi-function devices.
