Static Dissipative & Conductive Protectors for D-Subminiature Connectors - DCC SERIES

DCC Series Caps are designed to provide electrostatic discharge protection of rectangular D-subminiature input/output type connectors. Molded with an integral flange to enable easy application and removal. Series DCC is available in either a black conductive polyethylene copolymer or pink static dissipative ethylene vinyl acetate. All static dissipative parts meet the static decay requirements of MIL-PRF-81705D and surface resistivity is less than 1×10^{12} ohms/sq. All conductive parts meet the static decay requirements of MIL-PRF-81705D and surface resistivity is less than 1×10^5 ohms/sq.

Material: Static Dissipative Ethylene Vinyl Acetate or Conductive Polyethylene Copolymer (EVA)
 Color: Pink or Black

To place an order:

1. select unit of measure, color and quantity
2. select either "Buy item" (to purchase) or "Sample" (for a free sample)
3. Click red "Add to Cart" button to add your selected items to the shopping cart
4. View Cart (top right) when ready to place your order and checkout.
