Dupline®

Transmitter with Built-in Temperature Sensor Type G 8911 1010

- AnaLink temperature transmitter with built-in Pt 1000 sensor
- Temperature range: -30°C to +60°C (-22° to +140°F)
- Uses only 1 channel
- Channel coding by GAP 1605
- M12 connection
- Easily mountable
- Supplied by Dupline®

Product Description

The sensor is mounted right at the location where the temperature is to be measured, e.g. freezer cabinets in super markets, cold storage rooms etc. The sensor measures the temperature and transmits the value to the controller G 3890 0030, which then performs the logging and alarming.
