## Panel Actuators and Indicators Type PA2 Contact Block

## Product description

Switching element equipped with two independent elements. Available in different switching configurations. Pole and throw configurations can be single pole single throw (SPST) or double pole single throw (DPST).
Elements can be snapped to each other on the bottom, up to 3.

Contact block

Bezel Push Button with PA2

To install it, the only tool needed is a screwdriver. The same used to wiring the contact block can be used to fix the push-button.

The contact block is snapped on.
