Support pour Relais SP/ST
# Socket for SP/ST relay

ESD05000

Screw terminal sockets for use with SPA/SPD and STA/STD/STN solid state
relays compatible with Electromechanical relays, having 5mm pin spacing.
Mounting can be arranged either directly on panel or via DIN-46377 Omega rail. The screw terminals have jaw-type rising clamps offering touch-proof (IP20) protection. Their reduced lateral dimension is ideally suited on high density DIN-rail applications.
An optional plastic retaining spring, acting also as a relay ejecting device
(1 model for SP and 1 model for ST) , and a clip-on identification tab are
available to complete the series
