## Professional Trimmers

TYPE 422 PW AND 433 PW SERIES

W hen you need a durable trimming potentiometer, these 19 mm rectilinear styles offer quality performance at a competitive price. They feature a cermet element for stability and resolution and are available in two formats. Type 422PW has a transparent plastic case so the wiper position may be clearly seen.
Type has an opaque plastic case. Either will withstand all recognised board washing solvents. Both styles can be offered with panel mount for external adjustment.
