

# Product Information

## Chemtools Tip Tanners

### Chemtools Ammonia Free Tip Tinner

Chemtools CT-TC-1 is an ammonia free tip tinner is a mild strength, general purpose use tip tinner.

Suitable for ongoing use to prevent any flux build up and oxidation on soldering iron tips.

Chemtools Tip Tanners are RoHS compliant and can be used with leaded and lead free soldering.

### Chemtools High Strength Tip Tinner

Chemtools CT-TC-2 is a high strength, aggressive tip tinner.

This product is used when soldering tip plating has oxidised and the whole tip has turned black making the tip unusable.

Chemtools Tip Tanners are RoHS compliant and can be used with leaded and lead free soldering.
